

# HOLOCAUST HANDBOOKS

This ambitious, growing series addresses various aspects of the “Holocaust” of the WWII era. Most of them are based on decades of research from archives all over the world. They are heavily referenced. In contrast to most other works on this issue, the tomes of this series approach its topic with profound academic scrutiny and a critical attitude. Any Holocaust researcher ignoring this series will remain oblivious to some of the most important research in the field. These books are designed to both convince the common reader as well as academics. The following books have appeared so far, or are about to be released.

## SECTION ONE:

### General Overviews of the Holocaust

#### **The First Holocaust. The Surprising Origin of the Six-Million Figure.**

By Don Heddesheimer.

This compact but substantive study documents propaganda spread prior to, during and after the FIRST World War that claimed East European Jewry was on the brink of annihilation. The magic number of suffering and dying Jews was 6 million back then as well. The book details how these Jewish fundraising operations in America raised vast sums in the name of feeding suffering Polish and Russian Jews but actually fun-

neled much of the money to Zionist and Communist groups. 6th ed., 206 pages, b&w illustrations, bibliography, index. (#6)

#### **Lectures on the Holocaust. Controversial Issues Cross Examined.**

By Germar Rudolf. This book first explains why “the Holocaust” is an important topic, and that it is essential to keep an open mind about it. It then tells how many mainstream scholars expressed doubts and subsequently fell from grace. Next, the physical traces and documents about the various claimed crime scenes and murder weapons are discussed. After that, the reliability of witness testimony is examined. Finally,

the author argues for a free exchange of ideas on this topic. This book gives the most-comprehensive and up-to-date overview of the critical research into the Holocaust. With its dialogue style, it is easy to read, and it can even be used as an encyclopedic compendium. 4th ed., 597 pages, b&w illustrations, bibliography, index. (#15)

#### **Breaking the Spell. The Holocaust, Myth & Reality.**

By Nicholas Kollerstrom. In 1941, British Intelligence analysts cracked the German “Enigma” code. Hence, in 1942 and 1943, encrypted radio communications between German concentration camps and the Berlin headquarters were decrypted. The intercepted data

refutes the orthodox “Holocaust” narrative. It reveals that the Germans were desperate to reduce the death rate in their labor camps, which was caused by catastrophic typhus epidemics. Dr. Kollerstrom, a science historian, has taken these intercepts and a wide array of mostly unchallenged corroborating evidence to show that “witness statements” supporting the human gas chamber narrative clearly clash with the available scientific data. Kollerstrom concludes that the history of the Nazi “Holocaust” has been written by the victors with ulterior motives. It is distorted, exaggerated and largely wrong. With a foreword by Prof. Dr. James Fetzer. 7th ed., 286 pages, b&w ill., bibl., index. (#31)

#### **Debating the Holocaust. A New Look at Both Sides.**

By Thomas Dalton. Mainstream historians insist that there cannot be, may not be, any debate about the Holocaust. But ignoring it does not make this controversy go away. Traditional scholars admit that there was neither a budget, a plan, nor an order for the Holocaust; that the key camps have all but vanished, and so have any human remains; that material and unequivocal documentary evidence is absent; and that there are serious problems with survivor testimonies. Dalton juxtaposes the traditional Holocaust narrative with revisionist challenges and then analyzes the mainstream’s responses to them. He reveals the weaknesses of both sides, while declaring revisionism the winner of the current state of the debate.

4th ed., 342 pages, b&w illustrations, bibliography, index. (#32)

**The Hoax of the Twentieth Century. The Case against the Presumed Extermination of European Jewry.** By Arthur R. Butz. The first writer to analyze the entire Holocaust complex in a precise scientific manner. This book exhibits the overwhelming force of arguments accumulated by the mid-1970s. Butz's two main arguments are: 1. All major entities hostile to Germany must have known what was happening to the Jews under German authority. They acted during the war as if no mass slaughter was occurring. 2. All the evidence adduced to prove any mass slaughter has a dual interpretation, while only the innocuous one can be proven to be correct. This book continues to be a major historical reference work, frequently cited by prominent personalities. This edition has numerous supplements with new information gathered over the last 48 years. 5th ed., 572 pages, b&w illustrations, bibliography, index. (#7)

**Dissecting the Holocaust. The Growing Critique of 'Truth' and 'Memory.'** Edited by Germar Rudolf. *Dissecting the Holocaust* applies state-of-the-art scientific techniques and classic methods of detection to investigate the alleged murder of millions of Jews by Germans during World War II. In 22 contributions—each of some 30 pages—the 17 authors dissect generally accepted paradigms of the “Holocaust.” It reads as excitingly as a crime novel: so many lies, forgeries and deceptions by politicians, historians and scientists are proven. This is the intellectual adventure of the 21st Century. Be part of it! 4th ed., 611 pages, b&w illustrations, bibliography, index. (#1)

**The Dissolution of Eastern European Jewry.** By Walter N. Sanning. Six Million Jews died in the Holocaust. Sanning did not take that number at face value, but thoroughly explored European population developments and shifts mainly caused by emigration as well as deportations and evacuations conducted by both Nazis and the Soviets, among other things. The book is based mainly on Jewish, Zionist and mainstream sources. It concludes that a sizeable share of the Jews found missing during local censuses after the Second World War, which were so far counted as “Holocaust victims,” had either emigrated (mainly to Israel or the U.S.) or had been deported by Stalin to Siberian labor camps. 3rd ed., foreword by A.R. Butz, epilogue by Germar Rudolf, and an update by the author containing new insights; 264

pages, b&w illustrations, bibliography (#29).

**Air-Photo Evidence: World-War-Two Photos of Alleged Mass-Murder Sites Analyzed.** By Germar Rudolf (editor). During World War Two both German and Allied reconnaissance aircraft took countless air photos of places of tactical and strategic interest in Europe. These photos are prime evidence for the investigation of the Holocaust. Air photos of locations like Auschwitz, Majdanek, Treblinka, Babi Yar etc. permit an insight into what did or did not happen there. The author has unearthed many pertinent photos and has thoroughly analyzed them. This book is full of air-photo reproductions and schematic drawings explaining them. According to the author, these images refute many of the atrocity claims made by witnesses in connection with events in the German sphere of influence. 6th edition; with a contribution by Carlo Mattogno. 167 pages, b&w illustrations, bibliography, index (#27).

**The Leuchter Reports: Critical Edition.** By Fred Leuchter, Robert Faurisson and Germar Rudolf. Between 1988 and 1991, U.S. expert on execution technologies Fred Leuchter wrote four reports on whether the Third Reich operated homicidal gas chambers. The first on Auschwitz and Majdanek became world-famous. Based on various arguments, Leuchter concluded that the locations investigated could never have been “utilized or seriously considered to function as execution gas chambers.” The second report deals with gas-chamber claims for the camps Dachau, Mauthausen and Hartheim, while the third reviews design criteria and operation procedures of execution gas chambers in the U.S. The fourth report reviews Pressac's 1989 tome about Auschwitz. 4th ed., 252 pages, b&w illustrations. (#16)

**Bungled: “The Destruction of the European Jews”. Raul Hilberg's Failure to Prove National-Socialist “Killing Centers.”** By Carlo Mattogno. Raul Hilberg's magnum opus *The Destruction of the European Jews* is an orthodox standard work on the Holocaust. But how does Hilberg support his thesis that Jews were murdered *en masse*? He rips documents out of their context, distorts their content, misinterprets their meaning, and ignores entire archives. He only refers to “useful” witnesses, quotes fragments out of context, and conceals the fact that his witnesses are lying through their teeth. Lies and deceptions permeate Hil-

berg's book, 302 pages, bibliography, index. (#3)

**Jewish Emigration from the Third Reich.** By Ingrid Weckert. Current historical writings about the Third Reich claim state it was difficult for Jews to flee from Nazi persecution. The truth is that Jewish emigration was welcomed by the German authorities. Emigration was not some kind of wild flight, but rather a lawfully determined and regulated matter. Weckert's booklet elucidates the emigration process in law and policy. She shows that German and Jewish authorities worked closely together. Jews interested in emigrating received detailed advice and offers of help from both sides. 2nd ed., 130 pages, index. (#12)

**Inside the Gas Chambers: The Extermination of Mainstream Holocaust Historiography.** By Carlo Mattogno. Neither increased media propaganda or political pressure nor judicial persecution can stifle revisionism. Hence, in early 2011, the Holocaust Orthodoxy published a 400-page book (in German) claiming to refute "revisionist propaganda," trying again to prove "once and for all" that there were homicidal gas chambers at the camps of Dachau, Natzweiler, Sachsenhausen, Mauthausen, Ravensbrück, Neuengamme, Stutthof... you name them. Mattogno shows with his detailed analysis of this work of propaganda that mainstream Holocaust hagiography is beating around the bush rather than addressing revisionist research results. He exposes their myths, distortions and lies. 2nd ed., 280 pages, b&w illustrations, bibliography, index. (#25)

## SECTION TWO: Specific non-Auschwitz Studies

**The Dachau Gas Chamber.** By Carlo Mattogno. This study investigates whether the alleged homicidal gas chamber at the infamous Dachau Camp could have been operational. Could these gas chambers have fulfilled their alleged function to kill people as assumed by mainstream historians? Or does the evidence point to an entirely different purpose? This study reviews witness reports and finds that many claims are nonsense or technically impossible. As many layers of confounding misunderstandings and misrepresentations are peeled away, we discover the core of what the truth was concerning the existence of these gas chambers. 154 pages, b&w illustrations, bibliography, index. (#49)

**Treblinka: Extermination Camp or Transit Camp?** By Carlo Mattogno and Jürgen Graf. It is alleged that at Treblinka in East Poland between 700,000 and 3,000,000 persons were murdered in 1942 and 1943. The weapons used were said to have been stationary and/or mobile gas chambers, fast-acting or slow-acting poison gas, unslaked lime, superheated steam, electricity, Diesel-exhaust fumes etc. Holocaust historians alleged that bodies were piled as high as multi-storied buildings and burned without a trace, using little or no fuel at all. Graf and Mattogno have now analyzed the origins, logic and technical feasibility of the official version of Treblinka. On the basis of numerous documents they reveal Treblinka's true identity as a mere transit camp. 3rd ed., 384 pages, b&w illustrations, bibliography, index. (#8)

**Belzec: Propaganda, Testimonies, Archeological Research and History.** By Carlo Mattogno. Witnesses report that between 600,000 and 3 million Jews were murdered in the Belzec Camp, located in Poland. Various murder weapons are claimed to have been used: Diesel-exhaust gas; unslaked lime in trains; high voltage; vacuum chambers; etc. The corpses were incinerated on huge pyres without leaving a trace. For those who know the stories about Treblinka this sounds familiar. Thus, the author has restricted this study to the aspects which are new compared to Treblinka. In contrast to Treblinka, forensic drillings and excavations were performed at Belzec, the results of which are critically reviewed. 142 pages, b&w illustrations, bibliography, index. (#9)

**Sobibor: Holocaust Propaganda and Reality.** By Jürgen Graf, Thomas Kues and Carlo Mattogno. Between 25,000 and 2 million Jews are said to have been killed in gas chambers in the Sobibór camp in Poland. The corpses were allegedly buried in mass graves and later incinerated on pyres. This book investigates these claims and shows that they are based on the selective use of contradictory eyewitness testimony. Archeological surveys of the camp are analyzed that started in 2000-2001 and carried on until 2018. The book also documents the general National-Socialist policy toward Jews, which never included a genocidal "final solution." In conclusion, Sobibór emerges not as a "pure extermination camp", but as a transit camp from where Jews were deported to the occupied eastern territories. 2nd ed., 460 pages, b&w illustrations, bibliography, index. (#19)

**The "Operation Reinhardt" Camps Treblinka, Sobibór, Belzec.** By Carlo Mattogno. This study has its first focus on witness testimonies recorded during World War II and the immediate post-war era, many of them discussed here for the first time, thus demonstrating how the myth of the "extermination camps" was created. The second part of this book brings us up to speed with the various archaeological efforts made by mainstream scholars in their attempt to prove that the myth is true. The third part compares the findings of the second part with what we ought to expect, and reveals the chasm between facts and myth. 402 pages, illustrations, bibliography, index. (#28)

**Chelmno: A Camp in History & Propaganda.** By Carlo Mattogno. At Chelmno, huge masses of Jewish prisoners are said to have been gassed in "gas vans" or shot (claims vary from 10,000 to 1.3 million victims). This study covers the subject from every angle, undermining the orthodox claims about the camp with an overwhelmingly effective body of evidence. Eyewitness statements, gas wagons as extermination weapons, forensics reports and excavations, German documents – all come under Mattogno's scrutiny. Here are the uncensored facts about Chelmno, not the propaganda. This is a complementary volume to the book on *The Gas Vans* (#26). 2nd ed., 188 pages, indexed, illustrated, bibliography. (#23)

**The Gas Vans: A Critical Investigation.** By Santiago Alvarez and Pierre Marais. Did the Nazis use mobile gas chambers to exterminate 700,000 people? Are witness statements believable? Are documents genuine? Where are the murder weapons? Could they have operated as claimed? Where are the corpses? In order to get to the truth of the matter, Alvarez has scrutinized all known wartime documents and photos about this topic; he has analyzed a huge amount of witness statements as published in the literature and as presented in more than 30 trials held over the decades in Germany, Poland and Israel; and he has examined the claims made in the pertinent mainstream literature. The result of his research is mind-boggling. Note: This book and Mattogno's book on Chelmno were edited in parallel to make sure they are consistent and not repetitive. 2nd ed., 412 pages, b&w illustrations, bibliography, index. (#26)

**The Einsatzgruppen in the Occupied Eastern Territories: Genesis, Missions and Actions.** By C. Mattogno. Before invading the Soviet Union, the German authorities set up special units meant to secure the area behind the German front. Orthodox historians claim that these units called *Einsatzgruppen* primarily engaged in rounding up and mass-murdering Jews. This study sheds a critical light onto this topic by reviewing all the pertinent sources as well as material traces. It reveals on the one hand that original war-time documents do not fully support the orthodox genocidal narrative, and on the other that most post-"liberation" sources such as testimonies and forensic reports are steeped in Soviet atrocity propaganda and are thus utterly unreliable. In addition, material traces of the claimed massacres are rare due to an attitude of collusion by governments and Jewish lobby groups. 2nd ed., 2 vols., 864 pp., b&w illustrations, bibliography, index. (#39)

**Concentration Camp Majdanek. A Historical and Technical Study.** By Carlo Mattogno and Jürgen Graf. At war's end, the Soviets claimed that up to two million Jews were murdered at the Majdanek Camp in seven gas chambers. Over the decades, however, the Majdanek Museum reduced the death toll three times to currently 78,000, and admitted that there were "only" two gas chambers. By exhaustively researching primary sources, the authors expertly dissect and repudiate the myth of homicidal gas chambers at that camp. They also critically investigated the legend of mass executions of Jews in tank trenches and prove it groundless. Again they have produced a standard work of methodical investigation which authentic historiography cannot ignore. 3rd ed., 358 pages, b&w illustrations, bibliography, index. (#5)

**The Neuengamme and Sachsenhausen Gas Chambers.** By Carlo Mattogno and Friedrich Jansson. The Neuengamme Camp near Hamburg, and the Sachsenhausen Camp north of Berlin allegedly had homicidal gas chambers for the mass gassing of inmates. The evaluation of many postwar interrogation protocols on this topic exposes inconsistencies, discrepancies and contradictions. British interrogating techniques are revealed as manipulative, threatening and mendacious. Finally, technical absurdities of gas-chambers and mass-gassing claims unmask these tales as a mere regurgitation of hearsay stories from other

camps, among them foremost Auschwitz. 2nd ed., 238 pages, b&w ill., bibliography, index. (#50)

**Concentration Camp Stutthof and Its Function in National Socialist Jewish Policy.** By Carlo Mattogno and Jürgen Graf. Orthodox historians claim that the Stutthof Camp near Danzig, East Prussia, served as a “makeshift” extermination camp in 1944, where inmates were killed in a gas chamber. Based mainly on archival resources, this study thoroughly debunks this view and shows that Stutthof was in fact a center for the organization of German forced labor toward the end of World War II. The claimed gas chamber was a mere delousing facility. 4th ed., 170 pages, b&w illustrations, bibliography, index. (#4)

### SECTION THREE: Auschwitz Studies

**The Making of the Auschwitz Myth: Auschwitz in British Intercepts, Polish Underground Reports and Post-war Testimonies (1941-1947).** By Carlo Mattogno. Using messages sent by the Polish underground to London, SS radio messages sent to and from Auschwitz that were intercepted and decrypted by the British, and a plethora of witness statements made during the war and in the immediate postwar period, the author shows how exactly the myth of mass murder in Auschwitz gas chambers was created, and how it was turned subsequently into “history” by intellectually corrupt scholars who cherry-picked claims that fit into their agenda and ignored or actively covered up literally thousands of lies of “witnesses” to make their narrative look credible. 2nd edition, 514 pp., b&w illustrations, bibliography, index. (#41)

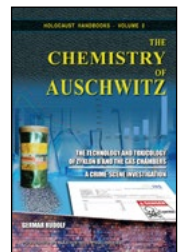

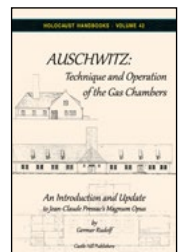

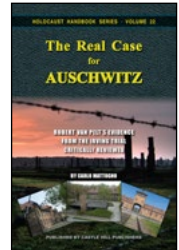

**The Real Case of Auschwitz: Robert van Pelt's Evidence from the Irving Trial Critically Reviewed.** By Carlo Mattogno. Prof. Robert van Pelt, a mainstream expert on Auschwitz, became famous when appearing as an expert during the London libel trial of David Irving against Deborah Lipstadt. From it resulted a book titled *The Case for Auschwitz*, in which van Pelt laid out his case for the existence of homicidal gas chambers at that camp. This book is a scholarly response to Prof. van Pelt—and Jean-Claude Pressac, upon whose books van Pelt's study is largely based. Mattogno lists all the evidence van Pelt adduces, and shows one by one that van Pelt misrepresented and misinterpreted every single one of them.

This is a book of prime political and scholarly importance to those looking for the truth about Auschwitz. 3rd ed., 692 pages, b&w illustrations, glossary, bibliography, index. (#22)

**Auschwitz: Plain Facts: A Response to Jean-Claude Pressac.** Edited by Germar Rudolf, with contributions by Serge Thion, Robert Faurisson and Carlo Mattogno. French pharmacist Jean-Claude Pressac tried to refute revisionist findings with the “technical” method. For this he was praised by the mainstream, and they proclaimed victory over the “revisionists.” In his book, Pressac's works and claims are shown to be unscientific in nature, as he never substantiates what he claims, and historically false, because he systematically misrepresents, misinterprets and misunderstands German wartime documents. 2nd ed., 226 pages, b&w illustrations, glossary bibliography, index. (#14)

**Auschwitz: Technique and Operation of the Gas Chambers: An Introduction and Update.** By Germar Rudolf. Pressac's 1989 oversize book of the same title was a trail blazer. Its many document reprints are valuable, but Pressac's annotations are now outdated. This book summarizes the most pertinent research results on Auschwitz gained during the past 30 years. With many references to Pressac's epic tome, it serves as an update and correction to it, whether you own an original hard copy of it, read it online, borrow it from a library, purchase a reprint, or are just interested in such a summary in general. 144 pages, b&w illustrations, bibliography. (#42)

**The Chemistry of Auschwitz: The Technology and Toxicology of Zyklon B and the Gas Chambers – A Crime-Scene Investigation.** By Germar Rudolf. This study documents forensic research on Auschwitz, where material traces reign supreme. Most of the claimed crime scenes – the claimed homicidal gas chambers – are still accessible to forensic examination to some degree. This book addresses questions such as: How were these gas chambers configured? How did they operate? In addition, the infamous Zyklon B is examined in detail. What exactly was it? How did it kill? Did it leave traces in masonry that can be found still today? Indeed, it should have, the author concludes, but several sets of analyses show no trace of it. The author also discusses in depth similar forensic research conducted by other scholars. 4th ed., 454 pages, more than 120 color and over 100 b&w illustrations, bibliography, index. (#2)

**Auschwitz Lies: Legends, Lies and Prejudices on the Holocaust.** By Carlo Mattogno and Germar Rudolf. The fallacious research and alleged “refutation” of revisionist scholars by French biochemist G. Wellers (attacking Leuchter’s famous report, #16), Polish chemist Dr. J. Markiewicz and U.S. chemist Dr. Richard Green (taking on Rudolf’s chemical research), Dr. John Zimmerman (tackling Mattogno on cremation issues), Michael Shermer and Alex Grobman (trying to prove it all), as well as researchers Keren, McCarthy and Mazal (who turned cracks into architectural features), are exposed for what they are: blatant and easily exposed political lies created to ostracize dissident historians. 4th ed., 420 pages, b&w illustrations, index. (#18)

**Auschwitz: The Central Construction Office.** By Carlo Mattogno. When Russian authorities granted access to their archives in the early 1990s, the files of the Auschwitz Central Construction Office, stored in Moscow, attracted the attention of scholars researching the history of this camp. This important office was responsible for the planning and construction of the Auschwitz camp complex, including the crematories which are said to have contained the “gas chambers.” This study sheds light into this hitherto hidden aspect of this camp’s history, but also provides a deep understanding of the organization, tasks, and procedures of this office. 2nd ed., 188 pages, b&w illustrations, glossary, index. (#13)

**Garrison and Headquarters Orders of the Auschwitz Camp.** By Germar Rudolf and Ernst Böhm. A large number of the orders issued by the various commanders of the Auschwitz Camp have been preserved. They reveal the true nature of the camp with all its daily events. There is not a trace in them pointing at anything sinister going on. Quite to the contrary, many orders are in insurmountable contradiction to claims that prisoners were mass murdered, such as the children of SS men playing with inmates, SS men taking friends for a sight-seeing tour through the camp, or having a romantic stroll with their lovers around the camp grounds. This is a selection of the most pertinent of these orders together with comments putting them into their proper historical context. 185 pages, b&w ill., bibl., index (#34)

**Special Treatment in Auschwitz: Origin and Meaning of a Term.** By Carlo Mattogno. When appearing in German wartime documents, terms like

“special treatment,” “special action,” and others have been interpreted as code words for mass murder. But that is not always true. This study focuses on documents about Auschwitz, showing that, while “special” had many different meanings, not a single one meant “execution.” Hence the practice of deciphering an alleged “code language” by assigning homicidal meaning to harmless documents – a key component of mainstream historiography – is untenable. 2nd ed., 166 pages, b&w illustrations, bibliography, index. (#10)

**Healthcare at Auschwitz.** By Carlo Mattogno. In extension of the above study on *Special Treatment in Auschwitz*, this study proves the extent to which the German authorities at Auschwitz tried to provide health care for the inmates. Part 1 of this book analyzes the inmates’ living conditions and the various sanitary and medical measures implemented. It documents the vast construction efforts to build a huge inmate hospital inside the Auschwitz-Birkenau Camp. Part 2 explores what happened to registered inmates who were “selected” or subject to “special treatment” while disabled or sick. This study shows that a lot was tried to cure these inmates, especially under the aegis of Garrison Physician Dr. Wirths. Part 3 is dedicated to this very Dr. Wirths. The reality of this caring philanthropist refutes the current stereotype of SS officers. 398 pages, b&w illustrations, bibliography, index. (#33)

**Debunking the Bunkers of Auschwitz: Black Propaganda vs. History.** By Carlo Mattogno. The “bunkers” at Auschwitz-Birkenau, two former farmhouses just outside the camp’s perimeter, are claimed to have been the first homicidal gas chambers at Auschwitz specifically equipped for this purpose. They supposedly went into operation during the first half of 1942, with thousands of Jews sent straight from deportation trains to these “gas chambers.” However, documents clearly show that all inmates sent to Auschwitz during that time were properly admitted to the camp. No mass murder on arrival can have happened. With the help of other wartime files as well as air photos taken by Allied reconnaissance aircraft in 1944, this study shows that these homicidal “bunkers” never existed, how the rumors about them evolved as black propaganda created by resistance groups in the camp, and how this propaganda was transformed into a false reality by “historians.” 2nd ed.,

292 pages, b&w ill., bibliography, index. (#11)

**Auschwitz: The First Gassing. Rumor and Reality.** By Carlo Mattogno. The first gassing in Auschwitz is claimed to have occurred on Sept. 3, 1941 in a basement. The accounts reporting it are the archetypes for all later gassing accounts. This study analyzes all available sources about this alleged event. It shows that these sources contradict each other about the event's location, date, the kind of victims and their number, and many more aspects, which makes it impossible to extract a consistent story. Original wartime documents inflict a final blow to this legend and prove without a shadow of a doubt that this legendary event never happened. 4th ed., 262 pages, b&w illustrations, bibliography, index. (#20)

**Auschwitz: Crematorium I and the Alleged Homicidal Gassings.** By Carlo Mattogno. The morgue of Crematorium I in Auschwitz is said to be the first homicidal gas chamber there. This study analyzes witness statements and hundreds of wartime documents to accurately write a history of that building. Where witnesses speak of gassings, they are either very vague or, if specific, contradict one another and are refuted by documented and material facts. The author also exposes the fraudulent attempts of mainstream historians to convert the witnesses' black propaganda into "truth" by means of selective quotes, omissions, and distortions. Mattogno proves that this building's morgue was never a homicidal gas chamber, nor could it have worked as such. 2nd ed., 152 pages, b&w illustrations, bibliography, index. (#21)

**Auschwitz: Open-Air Incinerations.** By Carlo Mattogno. In 1944, 400,000 Hungarian Jews were deported to Auschwitz and allegedly murdered in gas chambers. The camp crematoria were unable to cope with so many corpses. Therefore, every single day thousands of corpses are claimed to have been incinerated on huge pyres lit in trenches. The sky was filled with thick smoke, if we believe witnesses. This book examines many testimonies regarding these incinerations and establishes whether these claims were even possible. Using air photos, physical evidence and wartime documents, the author shows that these claims are fiction. A new Appendix contains 3 papers on groundwater levels and cattle mass burnings. 2nd ed., 202 pages, b&w illustrations, bibliography, index. (#17)

**The Cremation Furnaces of Auschwitz.** By Carlo Mattogno & Franco Deana. An exhaustive study of the early history and technology of cremation in general and of the cremation furnaces of Auschwitz in particular. On a vast base of technical literature, extant wartime documents and material traces, the authors establish the nature and capacity of these cremation furnaces, showing that these devices were inferior makeshift versions, and that their capacity was lower than normal. The Auschwitz crematoria were not facilities of mass destruction, but installations barely managing to handle the victims among the inmates who died of various epidemics. 2nd ed., 3 vols., 1201 pages, b&w and color illustrations (vols 2 & 3), bibliography, index, glossary. (#24)

**Curated Lies: The Auschwitz Museum's Misrepresentations, Distortions and Deceptions.** By Carlo Mattogno. Revisionist research results have put the Polish Auschwitz Museum under enormous pressure to answer this challenge. They've answered. This book analyzes their answer. It first exposes the many tricks and lies used by the museum to bamboozle millions of visitors every year regarding its most valued asset, the "gas chamber" in the Main Camp. Next, it reveals how the museum's historians mislead and lie through their teeth about documents in their archives. A long string of completely innocuous documents is mistranslated and misrepresented to make it look like they prove the existence of homicidal gas chambers. 2nd ed., 259 pages, b&w illustrations, bibliography, index. (#38)

**Deliveries of Coke, Wood and Zyklon B to Auschwitz: Neither Proof Nor Trace for the Holocaust.** By Carlo Mattogno. Researchers from the Auschwitz Museum tried to prove the reality of mass extermination by pointing to documents about deliveries of wood and coke as well as Zyklon B to the Auschwitz Camp. If put into the actual historical and technical context, however, as is done by this study, these documents prove the exact opposite of what those orthodox researchers claim. This study exposes the mendacious tricks with which these museum officials once more deceive the trusting public. 184 pages, b&w illust., bibl., index. (#40)

**Mis-Chronicling Auschwitz. Danuta Czech's Flawed Methods, Lies and Deceptions in Her "Auschwitz Chronicle".** By Carlo Mattogno. The *Auschwitz Chronicle* is a reference book for the history of the Auschwitz

Camp. It was published in 1990 by Danuta Czech, one of the Auschwitz Museum's most prolific and impactful historians. Analyzing this almost 1,000-page long tome one entry at a time, Mattogno has compiled a long list of misrepresentations, outright lies and deceptions contained in it. They all aim at creating the otherwise unsubstantiated claim that homicidal gas chambers and lethal injections were used at Auschwitz for mass-murdering inmates. This literary mega-fraud needs to be retired from the ranks of Auschwitz sources. 324 pages, b&w illust., bibliography, index. (#47)

**The Real Auschwitz Chronicle.** By Carlo Mattogno. Nagging is easy. We actually did a better job! That which is missing in Czech's *Chronicle* is included here: day after day of the camp's history, documents are presented showing that it could not have been an extermination camp: tens of thousands of sick and injured inmates were cared for medically with huge efforts, and the camp authorities tried hard to improve the initially catastrophic hygienic conditions. Part Two contains data on transports, camp occupancy and mortality figures. For the first time, we find out what this camp's real death toll was. 2 vols., 906 pp., b&w illustrations (Vol. 2), bibliography, index. (#48)

**Politics of Slave Labor: The Fate of the Jews Deported from Hungary and the Lodz Ghetto in 1944.** By Carlo Mattogno. The deportation of the Hungarian Jews to Auschwitz in May-July 1944 is said to have been the pinnacle of this camp's extermination frenzy, topped off in August of that year by the extermination of Jews deported from the Lodz Ghetto. This book gathers and explains all the evidence available on both events. In painstaking research, the author proves almost on a person-by-person level what the fate was of many of the Jews deported from Hungary or the Lodz Ghetto. He demonstrates that these Jews were deported to serve as slave laborers in the Third Reich's collapsing war economy. There is no trace of any extermination of any of these Jews. 338 pp., b&w illust., bibliography, index. (#51)

**Labor Camp Auschwitz-Monowitz: Exposing the Myth of "Extermination through Labor".** By Carlo Mattogno. The Monowitz Camp near Auschwitz was the Third Reich's largest and arguably most infamous forced-labor camp. After the war, it was the focus of one of the Nuremberg Mil-

tary Tribunals. This trial concluded that tenth of thousands of inmates in that camp were systematically worked to death. This book analyzes pivotal documents to reconstruct the Monowitz Camp's history, then juxtaposes this with over 140 witness testimonies presented at that Nuremberg trial. While the orthodox Monowitz narrative is dominated by a few hand-picked witness claims, the present study finally puts the history of the Monowitz Camp on a solid documental basis, supported by many testimonies. It rings in the end of the "extermination through labor" paradigm. 358 pp., bibliography, index. (#53)

## SECTION FOUR: Witness Critique

**Elie Wiesel, Saint of the Holocaust: A Critical Biography.** By Warren B. Graf. Routledge. An analysis of several of Wiesel's texts, foremost his camp autobiography *Night*, proving that much of what Wiesel claimed can never have happened. It shows how Zionist control has allowed Wiesel to force leaders of many nations, the U.N. and even popes to genuflect before Wiesel as symbolic acts of subordination to World Jewry, while at the same time forcing school children to submit to Holocaust brainwashing. This study also shows how parallel to this abuse of power, critical reactions to it increased as well. While Catholics jumped on the Holocaust band wagon, the number of Jews rejecting certain aspect of the Holocaust narrative and its abuse grew as well. This first unauthorized biography of Wiesel exposes both his personal deceptions and the whole myth of "the six million." 3rd ed., 458 pages, b&w illustration, bibliography, index. (#30)

**Auschwitz: Eyewitness Reports and Perpetrator Confessions.** By Jürgen Graf. The traditional narrative of what transpired at the infamous Auschwitz camp during WWII rests almost exclusively on witness testimony from former inmates as well as erstwhile camp officials. This study critically scrutinizes the 30 most important of these witness statements by checking them for internal coherence, and by comparing them with one another as well as with other evidence such as wartime documents, air photos, forensic research results, and material traces. The result is devastating for the traditional narrative. 372 pages, b&w illust., bibl., index. (#36)

**Commandant of Auschwitz: Rudolf Höss, His Torture and His Forced Confessions.** By Carlo Mattogno & Rudolf Höss. From 1940 to 1943, Rudolf Höss was the commandant of the infamous Auschwitz Camp. After the war, he was captured by the British. In the following 13 months until his execution, he made 85 depositions of various kinds, confessing his involvement in the "Holocaust." This study first reveals how the British tortured him to extract various "confessions." Next, all of Höss's depositions are analyzed by checking his claims for internal consistency and comparing them with established historical facts. The results are eye-opening... 2nd ed., 411 pages, b&w illust., bibliography, index. (#35)

**An Auschwitz Doctor's Eyewitness Account: The Tall Tales of Dr. Mengele's Assistant Analyzed.** By Miklos Nyiszli & Carlo Mattogno. Nyiszli, a Hungarian physician, ended up at Auschwitz in 1944 as Dr. Mengele's assistant. After the war he wrote a book and several other writings describing what he claimed to have experienced. To this day some traditional historians take his accounts seriously, while others reject them as grotesque lies and exaggerations. This study presents and analyzes Nyiszli's writings and skillfully separates truth from fabulous fabrication. 2nd ed., 484 pages, b&w illustrations, bibliography, index. (#37)

**The "Confessions" of Kurt Gerstein: Key Testimony on the Belzec Camp Scrutinized.** By Henri Roques. This classic PhD thesis critically examines the iconic witness statements by a former SS officer about the alleged Belzec extermination camp. After years of polemicizing against Roques's thesis, the Holocaust orthodoxy ultimately had to declare defeat and dropped Gerstein's fables as untrustworthy. This book contains the original thesis, and a thorough documentation on the repercussions it had. Newly translated, greatly expanded 2nd ed., 542 pp., b&w ill., bibliography, index. (#54)

**Rudolf Reder versus Kurt Gerstein: Two False Testimonies on the Belzec Camp Analyzed.** By Carlo Mattogno. Only two witnesses have ever testified substantially about the alleged Belzec Extermination Camp: The survivor Rudolf Reder and the SS

officer Kurt Gerstein. Gerstein's testimonies have been a hotspot of revisionist critique for decades (see the previous book, #54). It is now discredited even among orthodox historians. They use Reder's testimony to fill the void, yet his testimonies are just as absurd. This study thoroughly scrutinizes Reder's various statements, critically revisits Gerstein's various depositions, and then compares these two testimonies which are at once similar in some respects, but incompatible in others. 216 pages, b&w illust., bibliography, index. (#43)

**Sonderkommando Auschwitz I: Nine Eyewitness Testimonies Analyzed.** By Carlo Mattogno. The 1979 book *Auschwitz Inferno* by alleged former Auschwitz "Sonderkommando" member Filip Müller has a great influence on the perception of Auschwitz by the public and by historians. This book critically analyzes Müller's various post-war statements, which are full of exaggerations, falsehoods and plagiarized text passages. Also scrutinized are the testimonies of eight other claimed former *Sonderkommando* members: D. Paisikovic, S. Jankowski, H. Mandelbaum, L. Nagraba, J. Rosenblum, A. Pilo, D. Flamenbaum and S. Karolinskij. 304 pages, b&w illust., bibliography, index. (#44)

**Sonderkommando Auschwitz II: The False Testimonies by Henryk Tauber and Szlama Dragon.** By Carlo Mattogno. Auschwitz survivor and former member of the so-called "Sonderkommando" Henryk Tauber is one of the most important witnesses about the alleged gas chambers inside the crematoria at Auschwitz, because right at the war's end, he made several extremely detailed depositions about it. The same is true for Szlama Dragon, only he claims to have worked at the so-called "bunkers" of Birkenau, two makeshift gas chambers just outside the camp perimeter. This study thoroughly scrutinizes these two key testimonies. 254 pages, b&w illust., bibliography, index. (#45)

**Sonderkommando Auschwitz III: They Wept Crocodile Tears. A Critical Analysis of Late Witness Testimonies.** By Carlo Mattogno. This book focuses on the critical analysis of witness testimonies on the alleged Auschwitz gas chambers recorded or published in the 1990s and early 2000s, such as J. Sackar, A. Dragon,

**Auschwitz Engineers in Moscow: The Soviet Postwar Interrogations of the Auschwitz Cremation-Furnace Engineers.** By Carlo Mattogno and Jürgen Graf. After the war, the Soviets arrested four leading engineers of the Topf Company. Among other things, they had planned and supervised the construction of the Auschwitz crema-

tion furnaces and the ventilation systems of the rooms said to have served as homicidal gas chambers. Between 1946 and 1948, Soviet officials conducted numerous interrogations with them. This work analyzes them by putting them into the context of the vast documentation on these and related facilities. The appendix contains all translated interrogation protocols. 254 pages, b&w illust., bibliography, index. (#52)

We all know the basics of "The Holocaust." But what about the details? Websites and printed encyclopedias can help us there. Take the 4-volume encyclopedia by Israel's Yad Vashem Center: The Encyclopedia of the Holocaust (1990). For every significant crime scene, it presents a condensed narrative of Israel's finest Holocaust scholars. However, it contains not one entry about witnesses and their stories, even though they are the foundation of our knowledge. When a murder is committed, the murder weapon and the crime's traces are of crucial importance. Yet Yad Vashem's encyclopedia has no entries explaining scientific findings on these matters – not one.

This is where the present encyclopedia steps in. It not only summarizes and explains the many pieces that make up the larger Holocaust picture. It also reveals

the evidence that confirms or contradicts certain notions. Nearly 300 entries present the essence of important witness accounts, and they are subjected to source criticism. This enables us to decide which witness claims are credible.

For all major crime scenes, the sometimes-conflicting claims are presented. We learn how our knowledge has changed over time, and what evidence shores up the currently valid narrative of places such as Auschwitz, Belzec, Sobibór, Treblinka, Dachau and Bergen-Belsen and many more.

Other entries discuss tools and mechanisms allegedly used for the mass murders, and how the crimes' traces were erased, if at all. A few entries discuss toxicological issues surrounding the various lethal gases claimed to have been used.

This encyclopedia has multiple entries on some com-

mon claims about aspects of the Holocaust, including a list of "Who said it?" This way we can quickly find proof for these claims.

Finally, several entries address factors that have influenced the creation of the Holocaust narrative, and how we perceive it today. This includes entries on psychological warfare and wartime propaganda; on conditions prevailing during investigations and trials of alleged Holocaust perpetrators; on censorship against historical dissidents; on the religious dimension of the Holocaust narrative; and on motives of all sides involved in creating and spreading their diverse Holocaust narratives.

In this important volume, now with 591 entries, you will discover many astounding aspects of the Holocaust narrative that you did not even know exist.
