Preface to the Second Edition

As I write these lines, Russia's invasion of Ukraine is progressing at a slow and brutal rate, leaving tens of thousands dead and wounded in its wake on both sides, and turning increasingly large swaths of Ukraine into utter dust and rubble. Because the West is massively supporting Ukraine's defensive efforts, Russia is making increasingly shrill threats of escalating this war into World War III, including nuclear attacks on various European capitals.¹ Of course, a nuclear exchange between Russia and the West could leave the entire planet devastated, plunging Earth into a nuclear winter that may wipe out life on Earth as we know it.

The situation is bizarre. The Russian government justifies its war by claiming that Ukraine is run – or at least dominated – by Nazis, and that “de-Nazification” justifies war, mass destruction and mass annihilation. This rhetoric comes straight from the propaganda playbooks of the Second World War. But official Russia goes even a step further. When 40 leaders of Western nations met in Brussels in late April 2022 in an effort to coordinate their assistance to Ukraine, Russian state-controlled media were quick to equate these 40 leaders with 40 Hitlers, all Nazis, unified in their support for Nazi Ukraine, and that Russia may have to extend its campaign to now de-Nazify and demilitarize all of NATO.

There is no doubt that nationalism holds stronger sway in Ukraine than in most Western nations, and Russia's attack has intensified those feelings among Ukrainians holding such views. It is also true that Ukraine and the West are now getting militarized as they haven't been in decades, but this is merely a reaction to Russia's war of aggression.

Bringing Western nations into any context with Nazism is absurd, considering that any manifestation of “Nazism” is suppressed by all means possible, including the penal law in many of those countries.

¹ <https://youtu.be/VUH-4s6S0BE&t=156s>

Russian State TV brags end of April 2022 how fast they can erase Western European Capitals off the map with Russian nukes launched from occupied Königsberg, aka Kaliningrad.¹

So how did we get to the point where mankind may cause the extinction of all higher life forms on our planet? How is it that the language, attitudes and actions of official Russia have become so grotesquely detached from reality?

It is safe to say that Russia's government would not be able to do what it is doing if Russians had full access to all information, the unfettered right to speak their minds publicly, and to assemble in public to voice their views. Censorship and disinformation are what allows the Russian government to get away with this grotesque behavior, which otherwise would undoubtedly lead to yet another revolution in Russia to overthrow the current despotic regime of mass annihilation, one in a row of regimes Russians had to put up with over the past more than a hundred years.

This highlights the impact and importance of freedom of speech. With it, mankind may prosper, but without it, we are teetering on the brink of not just our own species's extinction.

It's either free speech, or the end of life on Earth as we know it.

Such a statement would have sounded absurdly extreme only a few months ago, but it is only too realistic now. I hope we will not have to pay the ultimate price for Russia's curtailing of free speech. But is it just Russia?

In war, truth is always the first casualty on all sides involved, and of-

ten even for those not directly involved. To believe that Western media tell the unvarnished truth would be naïve. After all, when it comes to principles, the West isn't all that different from Russia, which makes Russia's anti-Western anti-Nazi propaganda even more bizarre.

Strictly speaking, both Russia and the West are actually doing the same thing. They declare certain perceived enemies as "Nazis", use censorship laws to prevent those thusly labelled from publicly voicing their dissent, lock up obdurate dissidents in prisons for years, and make sure that any "Nazi" will find it impossible to make a living.

Ever since the end of the Second World War, the term "Nazi" has been used by every regime on the face of the earth to de-humanize individuals that they have targeted for annihilation, if not physical destruction, then at least economical and social ruin. Once a person or group has been identified as "Nazi", that person or group is fair game. Even lynch justice by a mob riled up by media propaganda is perfectly acceptable in the "civilized" West, as long as the victim is a "Nazi."

The term "Nazi" arouses feelings in most people that equate with the feelings once harbored by many during the Dark Ages when the term "devil" or "witch" was uttered. Anything is allowed in fighting demons, devils, witches and "Nazis." In fact, this basic instinct of visceral hatred against someone perceived as the personification of absolute evil is much older than this and probably goes back to our species's early, barbaric origins millions of years ago. The medieval witch-hunts were only one of its many manifestations. But while the medieval witch-hunts were limited to certain areas of Christian Europe, today's anti-Nazi witch-hunts are almost global in nature. Say the word, and the Pavlovian dogs will bark, hunt, and maul the "Nazis" all over Planet Earth.

It works every time, everywhere. Not just in Russia and Russian-occupied Ukraine.

I have news for the world: Nazis, actual and alleged, are human beings like everyone else, with the same civil rights as everyone else. And chances are that many if not most of those who are stigmatized as "Nazis" in fact embody the masses' prejudices about "Nazis" as little as the medieval witches managed in fact to embody their contemporaries' delusions about them.

It's a matter of mass hysteria more than anything else.

The present book tells a story of how the Western world and Russia – they act in total unison in this regard – destroy freedom of speech for the sake of destroying what they falsely perceive – or mendaciously claim – to be “Nazis.” Their victims are as little Nazis as Russia's victims in Russia and Ukraine are Nazis. This is not to say that there aren't people in Ukraine or among historical revisionists who have sympathies for certain aspects of National Socialism. But as the current war in Ukraine shows, while real Nazis in today's world of witch-hunting them are no danger to anyone, suppressing free speech can and does lead to wars, which may destroy life on earth as we know it.

The present chronicle of the destruction of free speech in the West runs parallel to the ongoing genocidal war of extermination which Israel has been waging in the Middle East since Israel's inception, which is also a conflict that could very well go nuclear. Again, as you see, the suppression of freedom of speech potentially leads to the extermination of all life on earth as we know it.

If you don't see the connection, I suggest you dig deeper into the role which the orthodox Holocaust narrative has to grant Jewish pressure groups in general and Israel in particular an excuse to get away with war, genocide, and if push comes to shove, mass annihilation.

Once you have understood this, you will see that Russia, Israel, organized Zionism and the craven West are all in the same boat. They suppress freedom of speech, and in the process risk wiping out life as we know it on the entire planet.

Freedom of Speech matters most where those in power want to suppress it.

It's either Freedom of Speech, or the End of the World.

Free Speech matters!

Whether it is Russia or the “West” – they are all doing the same thing. They differ only by degree, not by principle.

Hypocrites, all of them.

Clearing the Clouds of War

A Foreword

The millions who died in and of World War II are gone from us forever, as are their descendants in time who otherwise would have been born and alive today, 75 years later. The vast physical destruction has been repaired, replaced, buried, paved over and even, like the Memorial Church in Berlin, preserved in a ruined state. The erstwhile belligerents now are trading partners, even allies, though the victors continue to maintain military bases on the territories of the defeated countries.

But a certain pall continues to becloud understanding of that awful past that with the passage of time seems to abate not at all but rather to intensify, producing in this very late day more and ever more laws criminalizing the expression of beliefs; and more newly minted “criminals” who fall afoul of the new crimes, and new monuments to manufactured hatred such as the great one recently built in London, and attacks such as the arson attack on July 4, 1984 against the office building of the Institute for Historical Review in Torrance, California.

There is in today’s world one entire sovereign nation devoted to the defense and exacerbation of this cancerous legacy of the most-devastating war in human history, and at last count nineteen other countries having enacted criminal laws against opposing this suppurating campaign, plus numerous others otherwise officially in league with it, including the world’s only superpower. The US government annually appropriates millions of dollars to the budget of the monument to hatred erected on the Mall in Washington, DC, while state after state inserts into its statutes laws mandating the indoctrination of all the hapless schoolchildren in all schools in the state, both public and private. In this – and only this – form does World War II rage on, and on and on, poisoning afresh the hearts and minds of each new generation as it is frog-marched through the portals of “learning.”

On July 4, 1984, the revisionist Institute for Historical Review, then located in Torrance, California, suffered a devastating arson attack by Jewish extremists. No one has ever been held responsible for it. (Photo taken from Mark Weber, The Zionist Terror Network, 2nd ed., Institute for Historical Review, Newport Beach, Cal., 1993)

There is, however, a dogged peace movement whose thus-far-losing campaign to efface this malady of humankind's soul has never ceased and, despite the odiferous labels attached to it by its malefactors, calls itself "revisionism." Its soldiers daily face opprobrium, social ostracism, threats to their livelihood, and against members of their families; and yes, to life itself, attacks they suffer in pursuing this last, precious blessing of peace, while subsisting on such meager incomes as their amply-moneyed opponents have failed to prevent their eking out.

The author of this work is a stalwart of the first rank in this movement. Of the many years, Germar Rudolf has given over to the uphill battle for truth about what the opposition calls "the Holocaust," he spent almost four in German prisons, convicted of the crime of having expressed his illegal opinions in public, aggravated by his scientific arguments that have proven impossible to refute (he is a degreed chemist). This book is the story of yet another offensive against his peaceful campaign.

Is the attack a fresh mustering of new evidence? Is it new insights into the interpretation of existing information? Is it a straw-man concession to minor points of his arguments?

No, it is nothing of that sort, any more than the many other attacks his movement has sustained over the past fifty years. It is today's equivalent of the Gag – the Muzzle, no different ultimately from the one the Church imposed on Galileo Galilei in response to that heretic's crazy theory that the earth orbited the sun rather than the other way around. It is the striking from the sales lists offered by the Largest Bookstore on Planet Earth, Amazon.com, of all books offering corrections to the war-torn phantasmagoria dominating the record concerning the Holocaust.

The result of an arson attack on May 7, 1995, against the house of revisionist activist Ernst Zündel in Toronto.

Until March 6, 2017, a day that will live in intellectual infamy, Amazon carried all the titles of Castle Hill Publishers, the publishing arm of the Committee for Open Debate on the Holocaust (CODOH), in keeping with the 1998 declaration of Amazon's CEO, Jeff Bezos, to offer "the good, the bad, and the ugly." But on that black day, Bezos's bold declaration went down the drain, as every title in every language in every medium, new and used alike, was expunged from Amazon's vaunted list, consigned to a state George Orwell might have called "unbooks" in parallel with the concept he introduced of the "unperson." Down the Memory Hole.

The health of the Holocaust legend is, it might be said, the health of Jewry, but that term encompasses not only millions who have no hand in the maintenance of the myth, and moreover do not even benefit from it. The chief institutional beneficiary in this world is the state of

Drawing of the new London Holocaust Memorial as it has been built in Victoria Tower Gardens next to the Houses of Parliament in Westminster.

Israel. Considering the interests and worldwide repute of Israel and its powerful amen chorus both within and without Jewry, it is telling that the campaign of censorship here reported initially spared many works hostile to either Jews/Judaism or Israel. Still “standing” [as of early 2018] were not only Henry Ford’s scurrilous *The International Jew* series of the 1920s, but also the myth-busting works of Shlomo Sand (*The Invention of the Jewish People*) and Norman Finkelstein (*The Holocaust Industry*). [All editions of Ford’s books have since been banned by Amazon. G.R.]

What does this selectivity disclose? Does it, perhaps, speak to the centrality of the Holocaust mythology in justifying the policies of the state of Israel since its bloody conquest of Palestine in 1948? To some extent, yes, but I submit there is a further, amplifying factor in the intensive targeting that revisionism has been subjected to, leading to this latest disruptive success, and that is the persuasiveness, the sheer logical and scientific force of the revisionist movement’s oeuvres of the past ten to fifteen years. The weight of it, I say, has become unbearable to Zionism’s advocates. And so, camouflaged by attacks – initially merely rhetorical – on anti-Semitic material, the onslaught has been directed surgically, so to speak, against the very tip of the spear, Holocaust revisionism, under the false motive of combating

hatred.

It is, of course, the Holocaust mythology itself that most promotes the spirit of hatred against Germans, Nazis and their various allies in the course of the Second World War, all of whom (including their descendants) are tarred with the accusation of genocidal intent towards Jews. In keeping again with the incomparable Orwell, this campaign reprises slogans appearing in his book *1984*, such as “ignorance is strength” and “war is peace” – a diametrical inversion of the truth. But through repetition and endorsement by respected figures in the temples of truth, the tar has been made to adhere to revisionists.

The defenders of Holocaustery often cite the “obscure” status of works expressing doubts of the regnant mythology, an obscurity reinforced by Amazon’s delisting such works.

Setting the Stage

When the Communist Eastern Bloc collapsed starting in the late 1980s, freedom of speech and freedom of information were savored by many Eastern European nations for the first time in many decades. Freedom of information also meant the possibility to gain access to many archival materials which so far had been accessible only to a selected few, or whose existence had been kept a complete secret during the Cold War. Among those archival materials were also many German wartime documents which had been captured by the Soviets at the end of World War Two.

For instance, take the records of the Central Construction Office of the infamous Auschwitz Camp. This office was the authority in charge of all construction projects in the camp, including the crematoria which are said to have contained homicidal gas chambers. For decades, mainstream historians thought that these records had been destroyed by the Germans prior to their retreat. That was not the case, however. After the Red Army had captured the camp in January 1945, the records of this office were secretly transferred to Moscow, where they were kept under lock and key until the early 1990s. Only then did the public find out that this vast resource of tens of thousands of documents exists. They are now stored in the Russian War Archives (transliterated from Cyrillic: *Rossiiskii Gosudarstvennii Vojennii Archiv*).

Other documents from the Auschwitz Camp, for instance a large collection of records kept by the Auschwitz camp headquarters, ended up in the Russian Federal Archives in Moscow (transliterated: *Gosudarstvenni Archiv Rossiskoi Federatsii*).

Another set of documents not readily accessible for Western scholars were the War Archives of the Waffen SS, which the Waffen SS had kept in German-occupied Prague during the war, out of the reach of Allied bombers. There they were taken over by the communist Czech government after the war, which kept them mostly hidden from curi-

ous Western eyes suspected of not toeing the party line. Since the Auschwitz-Birkenau Camp was initially designed as a PoW camp of the Waffen SS, quite a few documents about that camp ended up in Prague. They are now located in the Military History Archive in that city (*Vojenský Historický Archiv*).

Two more archives worthy of mention in this context are the archives of the Auschwitz State Museum, whose holdings were made accessible only reluctantly to Western scholars during the cold war, and the archives of the Central Commission for the Investigation of Crimes against the Polish People – National Memorial, located in Warsaw (*Archiwum Głównej Komisji Badania Zbrodni Przeciwko Narodowi Polskiemu Instytutu Pamięci Narodowej*). The latter contains many documents pertaining to legal proceedings initiated after the war by the Polish authorities against individuals accused of having been involved in running labor, concentration and so-called extermination camps.

It goes without saying that many of these documents are highly interesting to World War Two historians. former German camps in Poland,

such as Majdanek¹ and Auschwitz, which were overrun by the Red Army in late 1944 and early 1945. The documents captured in those camps often disappeared from public view. In the wake of the collapse of the Soviet Union, however, Russia, Czechoslovakia and Poland, the three nations where most of these archival materials ended up, allowed not only government-accredited researchers but also independent scholars access to their archival holdings in the early and mid-1990s.

A small group of independent scholars² started to systematically evaluate some of these long-lost documents and to write exhaustive treatises on what they found.³ These rediscovered documents allowed for the first time the writing of an accurate history of these camps without the distortion of the propaganda of World War Two and the Cold War.

There was another set of researchers writing under various pen names and led by the late German architect Willy Wallwey, of whom no portraits are known to exist in the public domain.

The result was that the historical narrative of basically every single one of those German wartime camps required drastic revision.

To give just one example, let's take the Majdanek Camp near the Polish city of Lublin. Shortly after the capture of the camp, the Soviets claimed a death toll of some two million for that camp.⁴

Still from wartime film footage of a press conference held by the Soviets at Lublin on August 25, 1944.

The German journal Vierteljahresshefte für freie Geschichtsforschung (Quarterly for Free Historical Research) used to be the publishing venue for independent Holocaust researchers before it folded in 2007, shortly after its German editor, Gernar Rudolf, was arrested and jailed for 44 months for his iconoclastic publishing activities.

danek death toll was set at 1.7 million.⁵

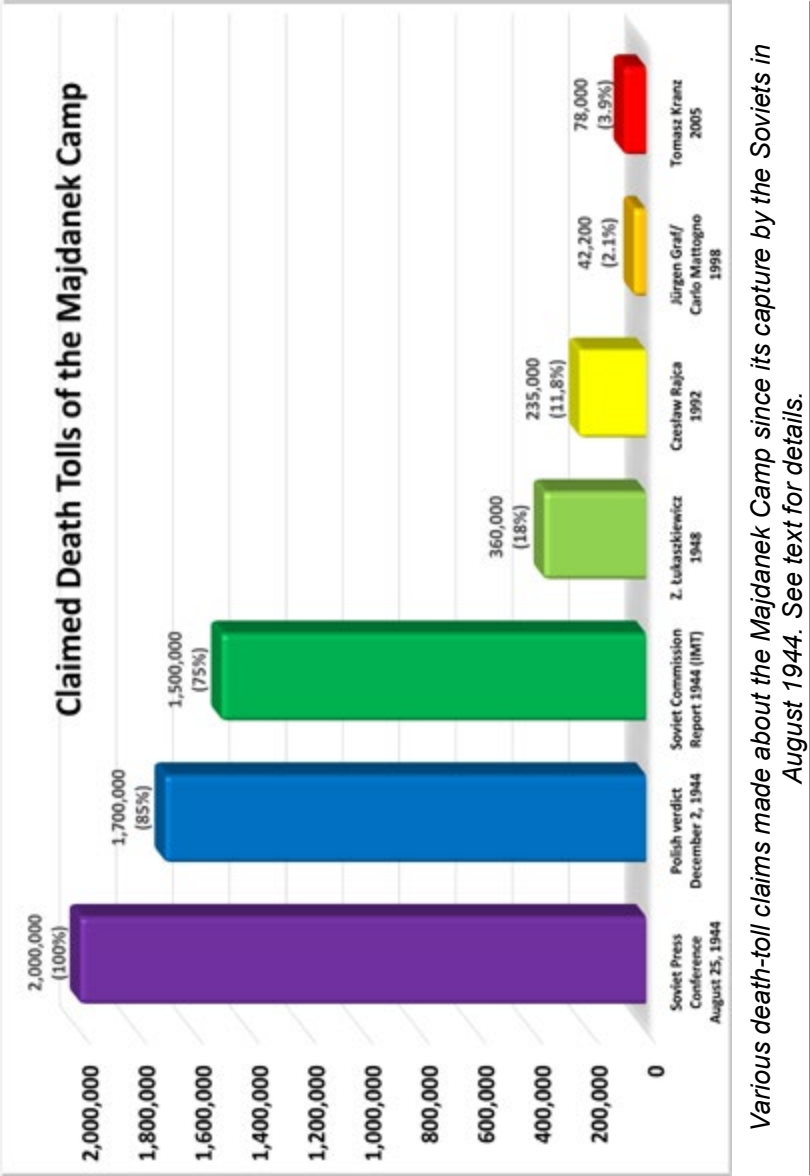

During the Nuremberg International Military Tribunal, the Soviets introduced an investigation report claiming that up to 1.5 million inmates had been killed in that camp using seven different gas chambers, among other methods.⁶

This figure, however, was significantly reduced three years after the war, when Polish judge Zdzisław Łukaszkiewicz, a member of the Polish “Commission to Investigate German Crimes in Poland,” published this commission’s findings about Majdanek,⁷ which set that camp’s death toll at 360,000, a number which was displayed at the Majdanek Museum for several decades.

The next downgrading came after the collapse of the communist Eastern Block, when Polish historian Czesław Rajca reduced the death toll to 235,000.⁸

A short while later, independent researchers got access both to the Majdanek camp archives and to the remaining physical structures. Based on a thorough evaluation of the material evidence and the vast documentation, they demonstrated in their 1998 book, which is currently available in its third English edition, that there had never been any execution gas chambers in that camp at all, and that the death toll according to the camp's records amounts to some 42,000, mainly due to diseases and malnutrition resulting from the irresponsible way the camp was run by the SS.⁹ This is still a shockingly high number, but it is a far cry from any of the numbers claimed by mainstream histo-

riographers so far.

In a detailed research paper of 2005, Tomasz Kranz, head of the Majdanek Museum, decided to streamline the official narrative by reducing the death toll to 78,000, and to ditch five of the seven initially claimed gas chambers.¹⁰

We can see from this that the official Polish narrative of that camp is today much closer to the revisionist position than it is to its own initial narrative at war's end. I admit that this is an extreme case of official revisionism, but it shows that claims are not necessarily true because a mainstream scholar or institution says so, just as a claim is not necessarily wrong because it is made by dissident scholars. In the end, the proof lies in the pudding, namely the evidence adduced.

Since the late 1990s, revisionist scholars have published many iconoclastic works similar to that on Majdanek about other camps as well.

The main focus has always been on Auschwitz, simply because the documentation available for that camp is so massive, and also because the facilities at that camp are to a large degree still extant, and hence, accessible to examination. In particular the Italian scholar Carlo Mattogno has written detailed studies on the various aspects of extermination claims made about Auschwitz (see the cover artwork on the next page).

study in three volumes on the cremation furnaces of Auschwitz which presumably served to destroy all traces of the mass-murdered victims.¹⁸

There are a few more studies on specialized topics plus several scrutinizing witness testimonies, but I won't include them here. The books listed have together more than 3,500 pages. Consider, then, the best performance orthodox historians have been able to muster so far. It is the five-volume study *Auschwitz 1940-1945* edited by two historians of the Auschwitz Museum who were trained during the communist-propaganda era.¹⁹ However, only Volume 3 titled "Mass Murder," the thinnest of them all with not even 270 pages of text, deals with extermination claims. It is dismally superficial, and covers each claimed extermination location with only a few pages each. It's a pathetic display of incompetence – or lack of an argument.

Hence, with their massive, extremely thorough studies, revisionist historians have won the evidentiary battle raging about Auschwitz hands down. The official Auschwitz narrative lies shattered in a million pieces, and it is irredeemably relegated to the dustbin of history.

With the same kind of thoroughness, revisionist historians have ex-

State Censorship and How to Avoid It

Needless to say, mainstream historians don't like their lives' work exposed as shoddy scholarship based on the shaky foundations of wartime propaganda claims. But their self-image doesn't matter. What does matter is that governments, both east and west, didn't like the disruptive revelations emanating from eastern archives either, so one by one they locked down their archives again, and as shown on the map overleaf, they passed censorship laws that, to one degree or another, outlaw public expressions of skepticism or disbelief in the orthodox narratives of these wartime camps.

Why do most people accept such muzzling laws? Because the worst stigma possible is attached to these dissident historians by mainstream politicians, scholars and media, making people have utterly absurd fantasies about these pariahs of historiography. In a trained, Pavlovian reflex, most people then agree that anything these evil revisionists

Piotr Sedkiewicz, the current curator of the Auschwitz State Museum, has been exposed as a "Pinocchio historian" by revisionists, in particular by Carlo Mattogno's study [Curated Lies](#) (Holocaust Handbooks, Vol. 38).

Censorship Map of Europe

Ever since the collapse of the Eastern Bloc, one by one, most European countries barred independent researchers from archives and passed explicit laws prohibiting any dissent from the orthodox Holocaust narrative:

1992: Austria
1994: Germany
1995: Belgium, Netherlands, Liechtenstein, Switzerland

Modern-Day Witch Hunt

“Holocaust revisionists are Holocaust deniers, and only Nazis can have an interest in denying the Holocaust. Nazis are pure evil. Hence, revisionists are pure evil.” The general populace’s fantasy goes wild when they think “Nazi”: monsters, demons, zombies... Any measure is permissible to fight them. Hence, any measure IS used to fight those peaceful historical dissidents.

utter needs to be banned, indeed! And that the revisionists be treated accordingly! Never mind that revisionist research books are not about politics, ideologies, religion or ethnic groups, but only about verifiable historical and scientific facts. But who would know that, unless you read them? Alas, they are banned in many countries and, hence, cannot be obtain in any legal way!

For this reason, freedom of speech and information is but a distant memory in most European countries.

To the rescue came a Knight in Shining Armor:²⁰

While governments might feel inclined to ban books whose contents they don't like, Amazon operates on different terms. Or at least it used to.

In 1998, Jeff Bezos, the founder of Amazon, gave a speech at Lake Forest College in Lake Forest, Illinois, where he explained the background of his company's success story. Watch it at the link given, if you are interested in the whole story.²¹ In the context of this presentation, let's hear what Bezos said back then about what kinds of books he means to offer to his customers, that is, to us all:

"It's one of the things that surprises people, sometimes upsets publishers and authors, is that we let people enter negative reviews. And they say: 'Why do you do this? You only make money if you sell the books. Why don't you weed out the negative reviews?' And the reason is because we're taking a different approach. We're trying to sell all books. We want to make every book available. The Good, the Bad and the Ugly. And when you're doing that, you actually have an obligation, if you're going to make the shopping environment one that's actually conducive to shopping, to sort of

let truth loose." (Starting at 19:15:00)

Of course, there is a limit to what Amazon will offer for sale, and for many years that boundary was defined by the laws of each country where Amazon sold its items, and that's fine. We may argue about the censorship laws of certain countries, but that isn't Amazon's fault. They have to abide by these laws, as we all have to, or else face consequences, like being prosecuted or being sued by certain lobby groups for selling revisionist books in Germany.²² As this example shows, there has always been a lobby that has been trying for years to bully Amazon into banning items that are perfectly legal, at least in marketplaces such as the United States, where the First Amendment to its Constitution prevents the government from passing laws limiting free speech. Books with views on Germany's wartime camps that diverge in unpopular ways from the standard narrative are at the top of the list of that lobby:²³

For years, Rabbi Mendy Cohen of Sacramento, Cal., has been on a mission to have Amazon ban historical research results he detests, smearing it as “blatant anti-Semitism.”²³

Until early 2017, Jeff Bezos didn’t budge. He stood by his ideal to offer the Good, the Bad and the Ugly. Of course, what is ugly lies entirely in the eyes of the beholder, and what is good or bad depends on one’s moral or quality standards. Letting the reader decide this by posting their reviews was exactly the way Bezos thought the wheat should be separated from the chaff:

“Turns out our customers are very smart, and their reviews are extremely helpful to other customers in terms of making purchasing decisions. And I’m also convinced that there’s a little piece in the human brain that can immediately tell by reading somebody else’s writing whether the person is smart or crazy within like the first five words.” (Source as before, starting at 18:53:00.)

New Amazon shame: Holocaust denial

By Erica Crowley on October 5th, 2013

Amazon silently removed scores of insect, child rape and bestiality e-books from its store when we reported last week the depraved books the online retailer was profiting from. Other retailers took their entire websites offline following our reporting and a four-page story in the Mail on Sunday, with whom we worked closely last week to bring our reporting to a wider audience.

But even more shocking still is the reaction today, following a third

Amazon revealed to sell Holocaust denial, anti-Semitic and white supremacist books

- The hate-filled literature can be bought in hard copy or paperback, as well as can be downloaded to the Kindle
- This revelation comes on the heels of another revelation last week that showed the site selling bestiality, incest and rape books
- The most bizarre of all the titles is a book of racist movie reviews titled the White Nationalist Guide to the Movies

Two media items of 2013 pressuring Amazon to ban dissident historical research, mendaciously and falsely lumping it together with anti-Semitism, white supremacism, even bestiality, incest, rape... The non-revisionist books shown above, such as those of an anti-Jewish nature, were not censored initially, but very much so revisionist historical studies, such as those shown here: [Auschwitz-Lies](#) or [Auschwitz: The First Gassing](#) as well as the entire series [Holocaust Handbooks](#) (For sources of the media items shown see footnote 24)

Two media items of 2014 and 2015. Revisionist research is neither anti-Semitic nor Nazi propaganda, but by mischaracterizing it that way, censorship agendas succeed...
(For sources of items shown see footnote 24)

Two media items of 2015 and 2016. As the early censorship by Amazon showed, they initially didn't care much about Nazi propaganda, anti-Semitic texts or white supremacism. I suspect they didn't even care about bestiality or incest either, but I refuse to check that. The thing they fear most is solid, evidence-backed historical research undermining their narrative of the Holocaust. (For sources of items shown see footnote 24)

the Holocaust, as it was posted on Amazon until 2018 – see the illustration on the next page – we found there that it had seven reviews. All of them gave the book the best possible evaluation: five stars. It’s rare to see unequivocal praise for any book, let alone for one that the mainstream hates with a passion.

Of course, that which must not be true, cannot be true. Thus, a while after the publication of the first English edition of the present book in early 2018, this review page of the *Lectures* was silently deleted, as I had predicted in this first edition, where I wrote:

“Now that I write this publicly, [that this review page is still up] they’ll probably send out their army of trolls in order to write a zillion bad reviews and to pressure Amazon into taking down that item completely...”

They didn’t write any bad reviews, but they sure took down that review page. Why that page was still there at all after the book itself had been removed in March 2017 is beyond my understanding, but I’m not complaining about it....

Incidentally, the first edition of the present book had eight reviews on Amazon as of late December 2021, and 13 ratings, all of them five stars! That wasn’t meant to last either, though, as you will learn later in this book.

Superbly written, with many updates from the first edition. The analysis is first rate, always logical, and fact-based. There are a gazillion source notes in case the reader wants to check Rudolf's sources. The question/answer format is something I haven't seen in any other book; when I first came across this in the first edition, I thought it would be annoying, but it proved to be an effective way to introduce views that differ from Rudolf's. Though Rudolf clearly has a definite point of view about the Holocaust, his presentation is always civil, logical, and fact-based. One of the distinctive qualities of Rudolf is his ready willingness to discuss views/opinions/analyses that differ from his own. His approach is superbly scientific.

★★★★★ Gerhart Rudolf is our present day Thoreau, still speaking truth after 20 years of persecution.
By [Wahrheit](#) on January 10, 2017

Very compelling work. Rudolf, like Arthur Butz, is an engineer, a scientist, who analyzes and writes in a completely logical objective manner. This book is a little more holistic and a little less forensic than his earlier "Dissecting..." book. Rudolf, after much contemplation, is beginning to understand and explain the sociological and political forces behind the greatest propaganda campaign in history. If you are new to this subject - be prepared to have your comfortable delusions up-ended.

★★★★★ Stop being cowed by elites...Think for yourself.
By [Christopher Estep](#) on December 23, 2015

I have read this book several times and it has inspired me to think for myself and to question what is considered to be the absolute truth every time I do so. Whether or not you agree...or whether or not you think Mr. Rudolf is a saint or a devil shouldn't ever enter into it...I refuse to live in a world where I agree to be shouted down and cowed by ANY group who doesn't like a certain point of view. It may not be for long...but right now we're still America and I'm going to read or think or consider anything I da'm well want. Don't like it? Maybe you can live in one of those safe zones that's all the rage with all the privileged white college kids these days. Anyhow...I absolutely recommend this to anyone who hates being a sheep.

★★★★★ Outstanding
By [HolocaustHistory channel](#) on January 12, 2013

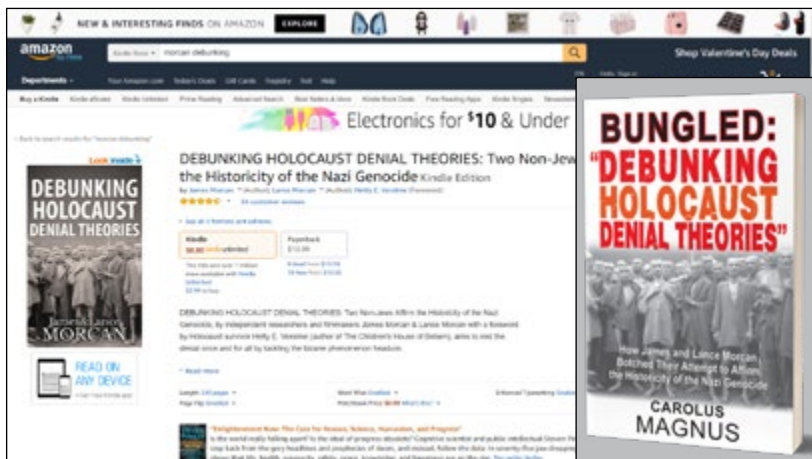

This is without doubt one of the best treatments of the holocaust debate. Rudolf is judicious and moderate throughout, and packs in a great deal of information. By writing dialogues, he gives himself the opportunity to give clear answers to many the questions that will occur to the reader.

★★★★★ Banned in Germany; author on trial
By [Michael Hoffman](#) on January 30, 2007

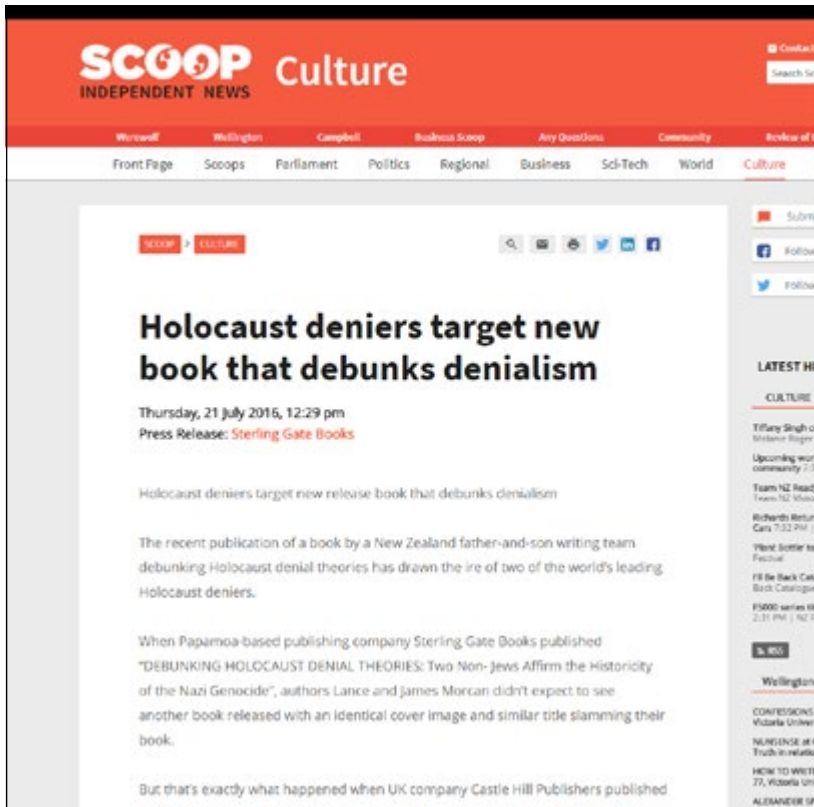

In a repeat of the Dark Ages, former Max Planck Institute chemist Gerhart Rudolf is, as of this writing, on trial in Germany, for authoring this book. Distribution of "Lectures on the Holocaust" is a criminal offense in Germany. The European Union (EU) seeks to extend the criminalization to the whole of Europe. The U.S. and the United Nations added their assent to this witch-hunt in January, 2007. The repression takes place under the rubric of "Holocaust denial." Every aspect and detail of the persecution of the Jews grouped under this "Holocaust" Newspeak is now off-limits to researchers should they wish to investigate, doubt or inquire. It is all written infallibly in stone; a new gospel which skeptics doubt upon pain of imprisonment. Read this brilliant book -- while you still can -- by a heroic writer and discover the scientific facts which the System fears.

Raising the Stakes

In early July 2016, revisionist Holocaust scholar Carlo Mattogno published a study rebutting an ebook by two New Zealand authors claiming to refute revisionist accounts of the Holocaust (James and Lance Morcan, *Debunking Holocaust Denial Theories*). The print editions of both books were actually made publicly available on the same day on Amazon. They had similar titles, and they had similar cover designs, as you can see below. Since the Amazon sales page of Mattogno's book has been obliterated, this juxtaposition will have to do. I will get to the reason for this obliteration later. Anyway, an Amazon customer looking for one of these books automatically found the other: book and counterbook, thesis and antithesis. It was then up to the customers to make up their minds: which book to buy, or maybe even to buy both and make their own synthesis: Who is right, and who is wrong? Who has the better arguments? It is the ideal of the free market of ideas. Amazon offered it. And the interesting thing was that customers

Amazon's sales page for the Morcans' attempt at debunking revisionist research, and, as an inset, Carlo Mattogno's rebuttal (cover art of the second, post-censorship edition with slightly changed title and pen name)

initially bought both books with roughly the same frequency: The one confirming the orthodox Holocaust narrative, and the other revising it. That game changed when the New Zealand media picked up on that feud.²⁵ Sales went up, but not so much for the anti-revisionist book, whose sales stayed pretty much flat. Mattogno's counterattack was what the media were unwittingly supporting, although they were vilifying it. There is no such thing as bad press for those who otherwise receive the silent treatment.

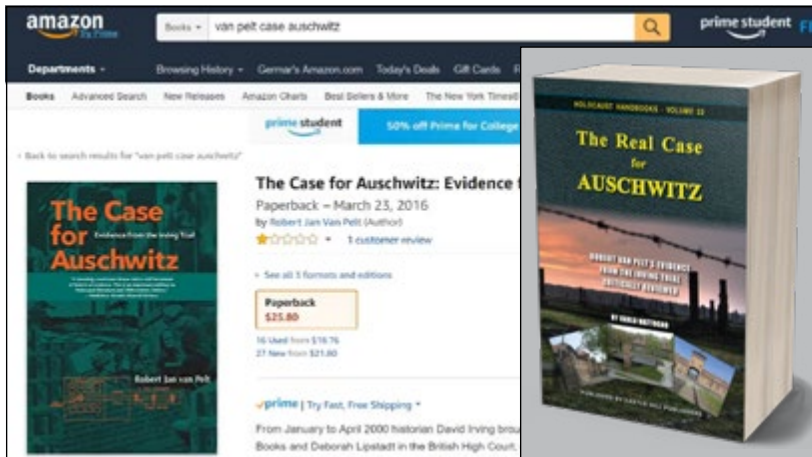

Encouraged by this, we issued a series of books that we strategically

placed in the Amazon marketplace by giving them titles and cover designs which reprised the books we were targeting, criticizing and refuting. On this and the next page are shown three more of them, with their opposing books on the left as advertised on Amazon in February 2018. Back then, when I took these screenshots, the paperback issue for one, van Pelt's *The Case for Auschwitz*, had only one review, by the way, and it was unfavorable, because the reviewer was outraged by Mattogno's rebuttal being banned by Amazon. The reviews for the hardcover edition of van Pelt's book are roughly split between two extremes: one half consists of uncritical praise, the other of readers

Top left: book for sale on Amazon.com; top right: revisionist counter book, once also for sale on Amazon.com.

pointing out that van Pelt's book has been thoroughly debunked by the revisionist tome shown here.

The results of our efforts were clear: as long as they were available on Amazon, our books sold in similar quantities as those of our intellectual opponents. Our books certainly also had bad reviews on occasion, but they usually consisted of disconnected, hysterical vituperations. But that did not hurt our sales, because as Jeff Bezos put it succinctly:

"And I'm also convinced that there's a little piece in the human brain that can immediately tell by reading somebody else's writ-

ing whether the person is smart or crazy within like the first five words.”

In other words, thanks to the level playing field Amazon offered, Holocaust revisionism was slowly but surely gaining the upper hand.²⁶ It goes without saying that this must have triggered quite some alarm bells among the enemies of free speech. They must have been quite scared and anxious in view of the equal fighting chances granted by Amazon. But what could they do about this inexorable advance of Holocaust revisionism?

What they did about it is described in the next chapter.

²⁶ Read the following paper to learn about some more reasons why revisionism is steadily progressing, no matter how hard they are trying to suppress it: Robert Faurisson, “The Victories of Revisionism,” Dec. 11, 2006; <http://robertfaurisson.blogspot.com/2006/12/victories-of-revisionism.html>.

Fake Anti-Semitism

A wave of bomb threats against Jewish community centers swept through the U.S. in early 2017, as CNN reported:²⁷

“The FBI and the Justice Department are investigating a new series of bomb threats directed against Jewish community centers across the country. The JCCs reported 11 bomb threats on Monday alone. That brings the total number to 69 threats in 27 states just over the past six weeks, most of them falling on just four dates. Fortunately, though, no bombs have been found so far.”

That wave of anti-Jewish activities culminated on February 20 in acts of vandalism against a Jewish cemetery in St. Louis, or so the media reported, here in the words of CNN:²⁸

²⁷ Daniel Burke, “More bomb threats target Jewish community. Trump finally responds,” *CNN*, Feb. 27, 2017; www.cnn.com/2017/02/16/living/jcc-bomb-threats-anti-semitism/; this and the next quote taken from *CNN* live footage at www.cnn.com/2017/02/26/us/jewish-cemetery-vandalism-philadelphia/.

²⁸ See also Dalila-Johari Paul, Jason Hanna, “Vandals damage 100 headstones at Jewish cemetery, police say,” *CNN*, Feb. 21, 2017; www.cnn.com/2017/02/21/us/jewish-cemetery-vandalized/.

“Also on Monday, look at this! More than a hundred headstones were found vandalized at a Jewish cemetery in Missouri. It’s not clear yet if there is any link to the bomb threats, though.”

Shortly after that, the world’s media started spreading the news that Israel’s government-sponsored Yad Vashem Holocaust Memorial Center, referring specifically to these “antisemitic attacks” in the United States, started putting Amazon under pressure to remove any and all material that questions the orthodox Holocaust narrative,²⁹ claiming that it spreads anti-Jewish hatred and thus fuels these recent attacks (see the illustration on the next page). Never mind that Jews as such, let alone their religion, aren’t even a topic in the targeted books.

Riding the wave of outrage about these anti-Jewish attacks, Yad Vashem’s efforts were spread far and wide through the mass media, as a Google search with the terms “[Yad Vashem Amazon denial books](#)” shows. I show on the next pages a few media items, but rest assured, this is only a tiny fraction of the news coverage this Yad-Vashem initiative received.³⁰ You get the picture. The heat was turned up on

Amazon Gets Heat Over Holocaust Denial Books

Company yanks books from countries where they're illegal following investigation.

By Mary Papoulias

Amazon is coming under fire in Europe for peddling books that claim the Holocaust never happened amid a resurgence of anti-Semitism and other hate speech.

Holocaust denial is a crime in France, Italy and Germany with penalties that can include prison. Amazon removed several books from its websites in those countries following an investigation by the London Sunday Times that found dozens of books denying the Holocaust for sale. Most of the books are self-published.

Yad Vashem Pushes Amazon To Yank Holocaust-Denying Books

February 26, 2017 | By Marcy Oster

JERUSALEM (JTA) — The Yad Vashem Holocaust museum has called on online retailer Amazon to remove books that deny the Holocaust from its websites.

Dr. Robert Rozett, director of the Yad Vashem Libraries, last week sent an email to Amazon CEO Jeff Bezos, requesting that he immediately remove the books from the sites.

TEL AVIV — Israel's Holocaust memorial Yad Vashem has called on Amazon to stop selling Holocaust denial books, charging the retail giant with promoting anti-Semitism and hate speech.

Yad Vashem's director of the libraries, Dr. Robert Rozett, penned an [appeal](#) to the CEO of Amazon, Jeff Bezos, in which he called on the online site to "curb the spread of hatred."

"It has been clear for many years now that Holocaust denial literature is freely available for purchase over Amazon. Many of the items appear with glowing readers' reviews and recommendations for further reading in the same vein," Rozett wrote.

Amazon. **Three Jewish cemeteries were “vandalized” within a few days, or so we were told...**³¹

At first, nothing happened. But then, six days later, as if ordered to emphasize the urgency of Yad Vashem’s request, another Jewish cemetery was vandalized, this time in Philadelphia.³¹ Then, on Mar. 3, 2017, another Jewish cemetery, this time in New York, allegedly fell victim to vandalism, but that case was retracted a short while later.³²

“Eyewitness News. Hi there, I’m Natasha Barrett in our newsroom with an update with the story we’ve been following from New York. The NYPD has now said this: that they have determined that these gravestones damaged at a Jewish cemetery over in Brooklyn, they now say they weren’t vandalized. Police say they investigated the reports of possible vandalism that went on, they thought, at Washington Cemetery, a Jewish burial ground, but investigators now say the damage was likely caused by some maintenance, maybe possibly some wind, environmental factors, they say, and the cemetery operators even concur with the findings of the detectives.”

*...but then came the retraction: those tombstones, and maybe also all the others, evidently fell after heavy winds...*³²

Interestingly, investigations into the series of bomb threats against Jewish community centers took an unexpected turn when an Israeli Jew was arrested for making them. There is footage about this on the *Chicago Tribune*'s website, the subtitles of which I transcribe here:³³

"Israeli police have arrested a 19-year-old Jewish man in connection with a string of bomb threats against Jewish community centers across the U.S. There have been more than 150 bomb threats against Jewish community centers and day schools in 37 states and two Canadian provinces since Jan. 9. Israeli police spokesman Micky Rosenfeld described the suspect as a hacker but said his motives were unclear. [...] Rosenfeld said the threats were accompanied by acts of vandalism on several Jewish cemeteries."

A month later, the Israeli media reported that the young man who was arrested for making the bomb threats, identified as 18-year-old Michael Ron David Kadar, had actually made them on request.³⁴ He even advertised his "services" online at a rate of \$30 per threat. When his

Still from the Chicago Tribune's footage showing the Israeli Jew arrested for making more than 150 anti-Jewish bomb threats. This news item is based on information received from the Anti-Defamation League.³⁵

case went to trial in Israel in August 2017, *NBC News* revealed that Kadar has been connected “to threats, hoaxes and extortion attempts to more than 2,000 Jewish community centers, schools, airlines, police stations and other institutions spanning more than two years.”³⁵

NBC News reporting that the youngster tied to the bomb threats placed more than 2,000 threats against Jewish community centers and other targets for money over a stretch of two years.³⁵

³⁵ Erik Ortiz, “Man in Jewish Community Bomb Threats Allegedly Sold Services on Dark Web,” *NBC News*, Aug. 9 2017; www.nbcnews.com/news/us-news/man-

The whole affair was therefore a scam. The question remained unanswered who gave this Israeli the orders for these 2,000 threats, and who paid the \$60,000 necessary for them. One may assume that the Jewish community centers and schools had nothing to do with it, but rather an overarching organization that had an interest in triggering hysteria. For now, we can only speculate about this.

This entire affair feeds my suspicion that someone out there thinks that, if there aren't any anti-Semitic acts in the world, they need to be invented, as they evidently serve a very important purpose...

Mass-Murdering History

...because on the first workday of the week following the false New York cemetery story, on March 6, 2017, at 6:39 pm EST, Castle Hill Publishers, the world's largest scientific publishing house focusing on critical, archive-based research on the so-called Holocaust, received the following e-mail from Amazon's eBook subsidiary, Amazon KDP, that is to say, Kindle:

"Hello,

We're contacting you regarding the following book:"

This was followed by a long list of book titles and internal Kindle ID numbers in Castle Hill Publishers' Kindle account. Then the e-mail continued as follows:

"During our review process, we found that this content is in violation of our content guidelines. As a result, we cannot offer this book for sale. If we identify additional submissions with similar content that violates our guidelines you may lose access to optional KDP services and/or face account level actions up to and including termination.

To learn more about our content guidelines, please visit our Kindle Direct Publishing Help page at:

Best Regards,

Amazon.com"

What that means can be seen from inside Castle Hill Publishers' Kindle account, as the screenshots on the next two pages show. To show them all here would fill more than five more pages, but I will not waste the space here. You can look at all the screenshots at www.codoh.com/library/document/4266. All these titles were marked as "blocked" by Amazon on March 6 and 7, 2017. Here's a condensed

Until March 6, 2017, any of these books could be purchased from Amazon under the ID given, but ever since, when pulling up these pages, you only get to see some apologetic pooch as shown above. If you want to test it yourself without much typing, we have created a web page that has the above table with all the links set, so you can click yourself through the entire range of Amazon dogs in no time: www.codoh.com/library/document/4266.

After these 72 eBooks had been killed, next on the censor's list were the equivalent print books. When checking the U.S. and UK Amazon websites for them, the result was just as devastating. The next table shows the titles of 68 books – some of them abbreviated – which could be purchased at least from Amazon's U.S. sales page until March 6, 2017. But ever since, all you could see is once more only an apologetic pooch.

Again, on the web page given earlier, you can find the list with all links set: the titles are linked to a book-price search engine listing online bookstores where the books can still be bought, then in the next column a link to the publisher's online store, if you want to learn more about each book, and then a separate column with links to the respective page of the U.S., the UK and the German Amazon sites – now all obliterated.

It took Amazon's print-on-demand subsidiary CreateSpace, with whom we had enrolled our books for printing, five more days to inform us about this censorship. On March 11, they sent us an e-mail telling us that all the above books were indeed banned, adding four more to the initial list of 68, which are older editions that had been retired and had not been available for quite a while anyway. The e-mail states (see screenshot on the next page):

"We're contacting you regarding the following content:"

This is followed by a long list of all the above-mentioned books, alphabetically sorted. Then they state:

"During the review process, your work was found to contain material, which may include cover image, title, product descriptions or interior content, that is in violation of CreateSpace content guidelines. As a result, this content has been suppressed through your account and removed from all sales channels."

This is then followed by a threat that in case of a repeat offense they might close our account:

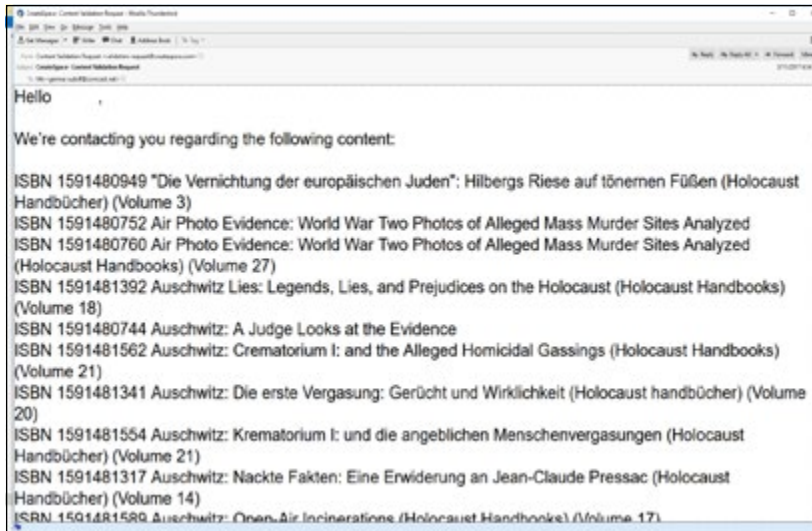

"If we identify additional submissions with similar content that violates our guidelines you may lose access to optional CSP services and/or face account level actions up to and including termination."

To learn more, please see our content guidelines at <https://www.createspace.com/Help/Rights/ContentGuidelines.jsp>

Sincerely,

The Content Validation Request Team

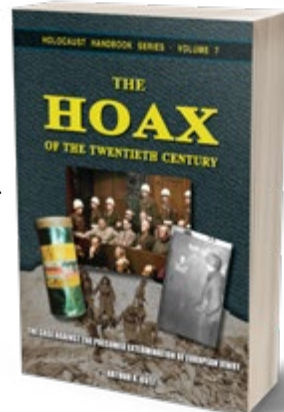

validation-request@createspace.com

When looking at the screenshots of our account with CreateSpace after that act of book-burning, it looked like what you see on the next two pages, with most of our books being “suppressed” by Amazon.

These screenshots can also be found on the web page indicated earlier.

In addition, if you search Amazon for bestselling revisionist authors, such as Dr. Arthur Butz, professor of electrical engineering at Northwestern University (see his portrait to the right), here is what you find. His bestseller *The Hoax of the Twentieth Century*, first published in 1976, used to be available in its original as well as numerous revised and expanded later editions, new and used – see the illustration at the top of the next page showing the image results of a Google search for the book – but when you go on Amazon, it is as if the book had never even existed.

Back in 2017/2018, when typing in Arthur

Repeat this exercise with any other revisionist publication or author that comes to mind, foremost Carlo Mattogno. None of his about 70 published titles, which are available in various languages and editions (altogether more than 300 entries) showed up at Amazon in early 2022. The only item listed is a 93-page, quadrilingual “book” (some 20 pages per language!) pretending to refute Mattogno’s comprehensive work covering many thousand pages.³⁶ Already in 2014, Mattogno exposed this utter folly, which has been circulating on the Internet for years.³⁷

The results are clear: inconvenient books on Holocaust history have been wiped out, as though they had never existed – unbooks, as George Orwell might have said. Anything left over by mistake or added later, such as *The Chemistry of Auschwitz*, which was just being prepared for release at that time, was deleted as soon as the enemies of free speech found out about it.

Interestingly, among the banned books are some which don’t even deal with the “Holocaust” in terms of the claimed extermination of the Jews. Here are three of them – see the cover illustrations on the

right. As usual, they can all be accessed as eBooks free of charge at www.HolocaustHandbooks.com:

- [Jewish Emigration from the Third Reich](#). This book deals with the various measures of the Third Reich *prior* to the outbreak of World War Two to pressure Jews into emigrating. It does not touch upon anything that is said to have happened during the so-called Holocaust.
- [The First Holocaust](#). This book deals with Jewish lobbying and fund-raising campaigns between the 1880s and the late 1920s using buzzwords such as holocaust, extermination and six million to garner sympathy and donations.
- [The Central Construction Office of the Waffen SS Auschwitz](#). This book is a purely bureaucratic study of the history, structure, practices, responsibilities and activities of one department of the Auschwitz camp authorities.

These books, and their German equivalents, have in common with many of the other censored books that they are part of a series called *Holocaust Handbooks*. This is supported by the fact that all older editions of the books that form this series, often available only as used copies from third-party vendors, have been expunged as well, 69 titles in all. Here is the list as of March 2017:

Evidently, Amazon pulled the plug on the entire series without verifying whether their contents were in fact in violation of anything, because verifying the factual quality of their contents would have taken months if not years. But as Amazon writes in their [Content Guidelines](#), Amazon “reserves the right to determine the appropriateness of items sold,” and that’s the end of that.³⁸

This pattern of book-banning clearly shows that whoever is behind it is trying to relegate the entire series *Holocaust Handbooks* to the memory hole. In addition to this, other books with dissenting views on the Holocaust that are not connected to our series *Holocaust Handbooks*, as well as books on other topics not directly related to the Holocaust, have also disappeared from Amazon. Here is a list showing those banned by mid-March 2017:

The sweeping mass ban enforced within hours clearly shows that these (68+69+18=) 155 titles were evidently censored because someone had sent Amazon a list of items to ban, and Amazon promptly complied.

And here is a Jewish newspaper gloating over this “victory” and giving us a hint as to who supplied that laundry list:³⁹

“Amazon UK has removed four books from sale which question or deny the Holocaust, following discussions with the Board of Deputies [of British Jews, that is].”

Public book-burning ceremony in Nazi Germany on May 11, 1933, by German students in Berlin, Operplatz. Today, Jews are their worthy heirs. (German Federal Archives, Bild 102-14597)

Amazon removes Holocaust denial books from sale

Titles which question or reject the Holocaust have been taken off the site, following discussions with the Board of Deputies

Amazon UK has removed four books from sale which question or deny the Holocaust, following discussions with the Board of Deputies.

Get The Jewish News's Daily Edition by email and never miss our top stories [FREE SIGN UP!](#)

The titles, including 'Holocaust: The Greatest Lie Ever Told' and 'The Case Against the Presumed Extinction of European Jewry,' were withdrawn from sale this week, despite it being legal to sell them in the UK.

Board of Deputies' vice-president Marie van der Zyl said: "It is very welcome that Amazon has listened and removed the offending titles from their website. These are not works of historical integrity. They are an anti-Semitic attempt to exonerate the Nazis of their crimes and to stoke the fires of hatred."

Amazon UK had earlier refused to pull them from sale, because there are no laws against Holocaust denial in the UK, unlike in other European countries like Germany and France.

After the apparent U-turn, Van der Zyl added: "Should any member of the public find further offending works, please get in contact with us and we will report them using the appropriate channels."

"Four books" – and one of them they quote only by its subtitle: Butz's Hoax. It's either incompetence or mendacity.³⁹

The screenshot shows the front page of the Jewish Chronicle website. The main headline is "Under pressure, Amazon stops selling Holocaust-denial books" by Nathan Jeffay, dated March 8, 2017. To the left, there are sections for "RELATED STORIES" including "Antisemitism in an Amazon parcel horrifies Jewish woman" and "Woody Allen signs film deal with Amazon". Below that is a "MOST READ" section featuring "Cohen quits BBC's Front Row". The main article features a large image of a book cover titled "HOAX OF THE TWENTIETH CENTURY" and a paragraph stating: "The online retailer Amazon has stopped selling three Holocaust-denial books after Jewish groups voiced growing frustration that the website was giving a platform to antisemites. Amazon has been criticised for years over the revisionist titles for sale on its website, but the recent upsurge in antisemitism across America prompted Robert Rozett, a senior official at Yad Vashem, to write to Amazon CEO Jeff Bezos last month calling for immediate action."

"Amazon stopped selling three Holocaust-denial books" – but at least the JC advertised Butz's book...⁴⁰

Four books? We counted 155, and if you add the Kindle editions, that number goes up to 227! The ugly truth is that we probably missed quite a few books which were published by other publishers, so the real number might be considerably higher. *The Jewish Chronicle* even wrote about only three books.⁴⁰ Where did they get that number?

Well, admitting that they had initiated the banning of hundreds of books would probably have been bad publicity, because it smells like mass book burning. So they downplayed the whole affair.

Returning to the *Jewish News* article, I skip several lines and turn to the last paragraph on the screenshot, where we read:

⁴⁰ Nathan Jeffay, "Under pressure, Amazon stops selling Holocaust-denial books," *The Jewish Chronicle*, March 8, 2017; www.thejc.com/newb&world/under-pressure-amazon-stops-selling-holocaust-denial-books-1.433963.

“After the apparent U-turn, Van der Zyl [vice president of the Board] added: ‘Should any member of the public find further offending works, please get in contact with us and we will report them using the appropriate channels.’”

After their success, these traditional enemies of free speech are eager to censor more books. They evidently have established “appropriate channels” to the Amazon headquarters to get their censorship demands heard and complied with swiftly, and are asking their mostly Jewish readership to help with that.

Raising the Stakes Even Higher

In defiance of this brutal attempt at suppressing cutting-edge historical research, Castle Hill Publishers promptly republished the 13 best-selling books of these censored titles in new editions within a week using that same CreateSpace account. Yet within only a few days, on March 21, 2017 they were all taken down as well from Amazon. Here is their email on this:

“We’re contacting you regarding the following content:”

This is followed by a list of 13 title IDs. In the following table, I have listed the actual titles of the books and their ISBN numbers in the order as listed by CreateSpace in their e-mail:

The Second Wave: Print Books Published by Castle Hill Publishers Banned from all Amazon Stores as of March 21, 2017	
Title	ISBN
The Chemistry of Auschwitz	1591481635
Breaking the Spell, 3rd ed.	1591481732

Bungled: “Debunking Holocaust Denial Theories”, 2nd ed.	1591481767
Bungled: “Denying the Holocaust”, 2nd ed.	1591481775
Debating the Holocaust, 3rd ed.	1591481783

Air Photo Evidence, 4th ed.	1591480825
Bungled: “Denying History”, 2nd ed.	1591481848

Then comes the same text as before:

“During the review process, your work was found to contain material, which may include cover image, title, product descriptions or interior content, that is in violation of CreateSpace content guidelines. As a result, this content has been suppressed through your account and removed from all sales channels.

If we identify additional submissions ... ”

The rest of the e-mail is identical to the first one we received from CreateSpace, so I won't bore you with that. To this we responded on March 22 as follows:

“Ladies and Gentlemen:

Our books are university-style books containing archival and forensic research results by scholars who are well-respected in their field of study. It is a mystery to us how they can be in violation of any content guideline. In order to avoid any future conflict with your guidelines, please be so kind as to indicate which part of the guideline has been violated by these books.

Sincerely”

Not even an hour later, they sent us this revealing e-mail:

“As stated in our content guidelines at <https://wwwcreatespace.com/Help/Rights/ContentGuidelines.jsp>, CreateSpace reserves the right to determine what content it considers appropriate. This includes both the cover art and interior content.

I'm sorry, but we can't offer any additional insight or action on this matter.

Thank you for your understanding.

Regards,

CreateSpace Validation Request Team

validation-request@createspace.com”

In other words: they wanted us to change our books, but they wouldn't commit in writing as to what exactly it is that they found offensive. Of course, we all know. But to admit it in writing could be used against them, so they kept obfuscating. Not inclined to give in, we kept pushing the envelope. This time we put only *the* bestseller up in yet another new edition from within our CreateSpace account: Dr. Nicholas Kollerstrom's *Breaking the Spell: The Holocaust – Myth & Reality* (see the cover artwork of the latest edition to the right). We simply took the same contents with no changes, put a new ISBN on it (1-59148-186-4), and put it right back into print. Retaliation was swift, because not even 24 hours after we had published that new edition, we

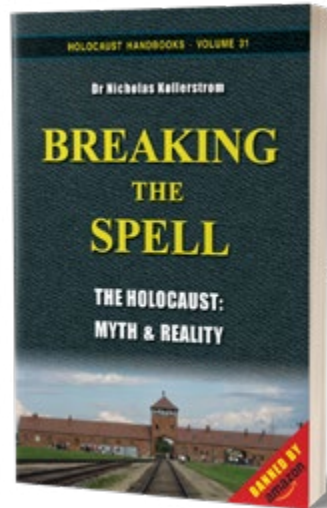

received this e-mail:

“Hello,

During a quality assurance review of your catalog, we found that you have repeatedly published books that have previously failed our review process. As a result, we have temporarily suspended your account.

We request that you respond to validation-request@createspace.com stating that you will improve the quality of all future submissions and that you will refrain from submitting books that have previously failed our review process. Until we receive a response from you regarding these concerns, your account will remain blocked.

If you’d like to review our Content Guidelines, please visit: <https://www.createspace.com/Help/Rights/ContentGuidelines.jsp>”

Here is our response to them on that:

“Ladies and Gentlemen:

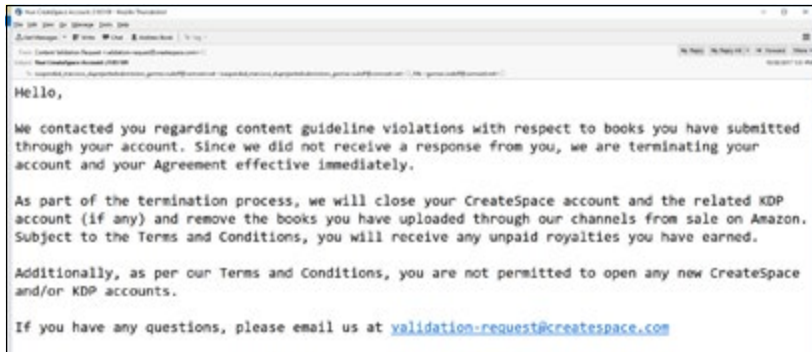

We have never failed a review process due to a lack of quality, as our books are of such a high standard that this simply does not happen.

You are censoring our books because you bent to pressure exerted by special interest groups; not because of quality issues, but because they don’t like the contents of our books, no matter what the quality is:”

That is followed by a long list of links to media articles on Amazon being pressured to ban unwelcome historical research results, some of which I have shown and cited earlier. After that, we asked Amazon basically to stop beating around the bush and to call a spade a spade.

That resulted in the following “canned” e-mail, evidently sent by a machine rather than a person:

“Hello,

Termination-of-services email from CreateSpace to Castle Hill Publishers on October 30, 2017.

We request that you respond to validation-request@createspace.com stating that you will improve the quality of all future submissions and that you will refrain from submitting books that have previously failed our review process. Until we receive a response from you regarding these concerns, your account will remain blocked.

If you'd like to review our Content Guidelines, please visit: <https://www.createspace.com/Help/Rights/ContentGuidelines.jsp>.

Regards,

Content Validation Team"

At that point, our exchange with them was like talking to a wall, as they evidently ignored everything we were asking them. We therefore ignored them from then on as well. Since we did not comply with their impertinent request to assure them that we would, "refrain from submitting books that have previously failed our review process," they finally pulled the plug on our account on October 30, 2017 with this e-mail:

"Hello,

We contacted you regarding content guideline violations with respect to books you have submitted through your account. Since we did not receive a response from you, we are terminating your account and your Agreement effective immediately.

As part of the termination process, we will close your CreateSpace account and the related KDP account (if any) and remove the books you have uploaded through our channels from sale on Ama-

zon. Subject to the Terms and Conditions, you will receive any unpaid royalties you have earned.

Additionally, as per our Terms and Conditions, you are not permitted to open any new CreateSpace and/or KDP accounts.

If you have any questions, please e-mail us at validation-request@createspace.com”

This list should also include all 44 hard-cover editions of the series [Holocaust Handbooks](#), which were all unlisted by Amazon just a few days after publication in mid-2021 (ISBN 159148934-4 through 159148988-1). I refrain from including them here, as this would not add any new information.

Only a few of our books have escaped this kind of Amazon censorship, most notably [the book you are holding in your hands right now](#), and two other books in German about censorship and persecution of dissidents ([Eine Zensur findet statt!](#) as well as [Diktatur Bundesrepublik Deutschland](#); no published English translations exist of these booklets). Amazon obviously doesn't want to be caught censoring reports of censorship and persecution, but everything else is fair game.

On a few occasions we noticed that books which used to be banned popped up again on Amazon and were for sale for a while, only to be taken down again after a short time. So in case you encountered a book for sale on Amazon which according to our lists should have been banned, you got lucky. Whatever the reason for this was, we don't claim to understand it. Maybe some Amazon employee didn't agree with this censorship and secretly unlocked one of our books

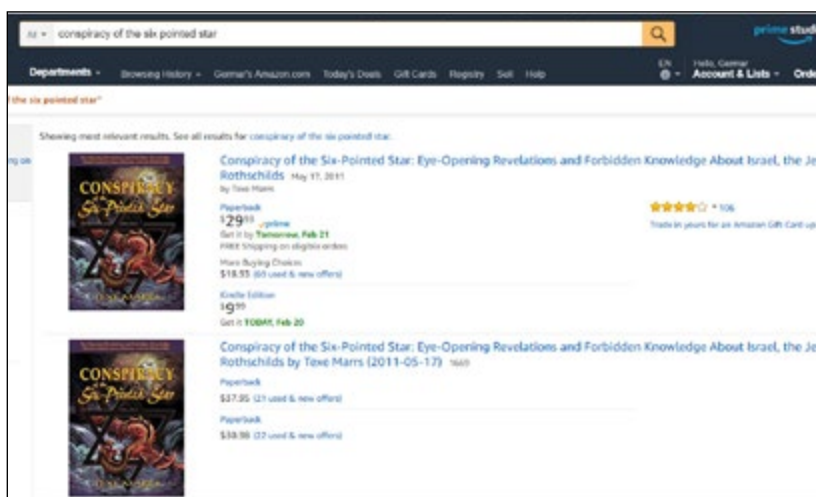

again until Amazon received a complaint from the “never forgive, never forget” faction about it, and then promptly reversed this “mistake”.

The End of Amazon

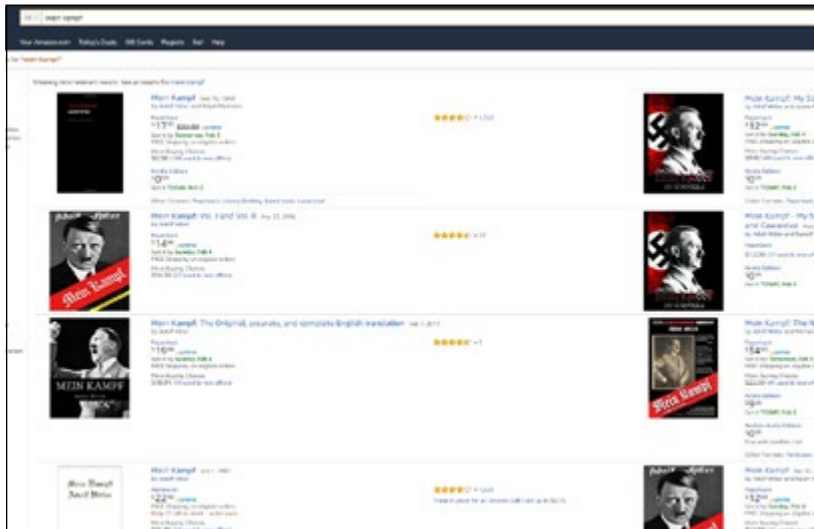

How serious Amazon was about suppressing evil anti-Semitic and Nazi material back in 2017 could be seen when searching Amazon a year after this event, meaning in early 2018, for books such as *Mein Kampf*, the Nazi bible, or for *The Protocols of the Learned Elders of Zion*, the mother of all anti-Semitic books. As you can see from the illustrations on this and the next pages, these and other “anti-Semitic” books were readily available in early 2018 in a zillion editions from various vendors. That’s because these works aren’t anything educated people take too seriously. As Bezos put it:

“And I’m also convinced that there’s a little piece in the human brain that can immediately tell by reading somebody else’s writing whether the person is smart or crazy within like the first five words.”

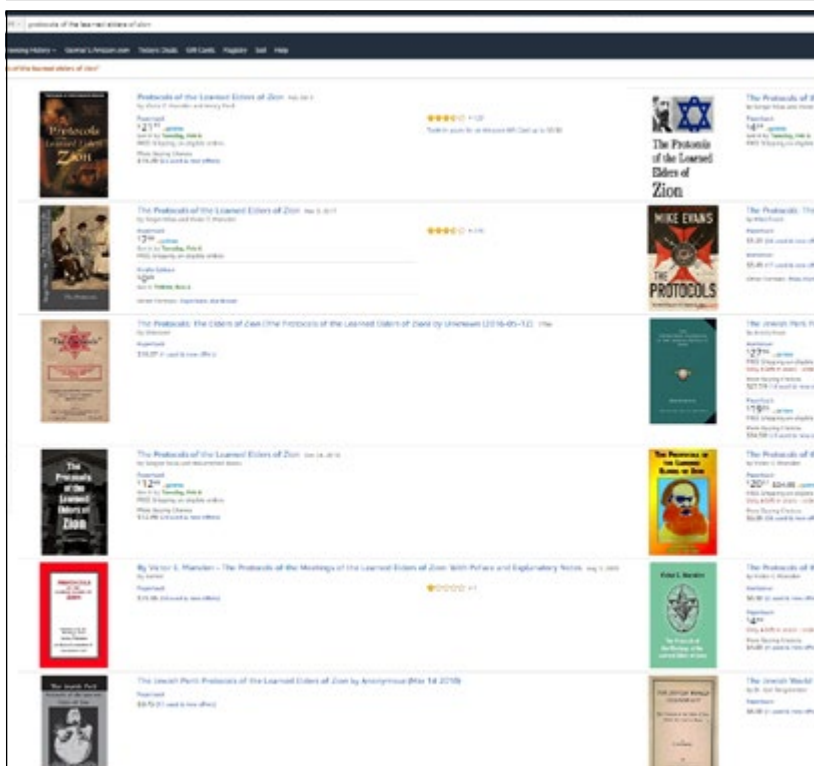

Or maybe the powers-that-be *wanted* these books to be readily avail-

The Conspiracy of the Six-Pointed Star was still for sale on Amazon.com in many editions, as of February 2018.

SYNAGOGUE OF SATAN (Exposing The Two Most Dangerous Churches In N

able, because, as stated before, if anti-Semitism didn't exist, it would need to be invented. It is simply *too* useful a tool to do without. Or so I thought initially.

But think again! As soon as the censors had tasted blood, they scoured the entire Amazon offerings. If you search today (end of 2021) for the *Protocols of the Elders of Zion* or *The Conspiracy of the Six-Pointed Star*, you get almost no results, and in the case of the *Protocols*, only books that claim to expose the same as a fraud or forgery.

In the months and years following the first wave of censorship, I was contacted by self-published book authors, book sellers and owners of small publishing companies focusing on literature at the fringe of what today's Western societies accept. I could add another long list of books that fell victim to Amazon's ongoing mass murder of books now raging for almost five full years, but it cannot possibly be complete, and it would always be outdated by the time you read this. Therefore, I would like to limit this to a few honorable mentions of books whose authors or topics will give the reader an idea that this censorship cancer is indeed spreading throughout the entire body of books, affecting not just Holocaust revisionism or even merely "alternative" history, but by now much more than this.

Take the book [*A Mighty Fortress*](#) by Harold Covington, which is a novel about the creation of an ethnic state in the northwest of the USA reserved exclusively for whites after a prolonged civil war with the Union. Fiction books like this get banned from Amazon.

Another book worth mentioning is Stephen Goodson's [*Inside the South African Reserve Bank*](#), which gives an insight into the worldwide push of leading figures in high finance to centralize banking, and thus financial power, in the hands of a selected few. That Jews had a strong influence among them is not the main thrust of the book, but it was evidently enough for the censors to ban it from Amazon.

Another book that made it on my list is Jürgen Graf's [*White World Awake!*](#), which chronicles

the demographic collapse of Europe's indigenous populations and steady replacement by immigrants from Asia and Africa, while calling for a united effort of all European ethnicities to preserve their common ethnic and cultural identity. Whereas calls for ethnic and cultural self-preservation are perfectly acceptable when the intended beneficiaries are indigenous people in the Americas, in Africa, Australia and Asia, asking for the same right for Europeans gets your book banned on Amazon.

Next on my list is Nicholas Kollerstrom's [*Who Did 9/11?: A View from Across the Pond*](#). This book is part of an entirely different genre: conspiracy theories. Whether 9/11 was the result of a few extremist Arabs conspiring or of a number of undercover government agents conspiring, it is a conspiracy theory either way, but only one of them gets your book banned by Amazon: if you disagree with the conspiratorial narrative the U.S. government has rammed down our throats.

One of Amazon's censorship decisions that should have hit the pain nerve of society – but didn't – was the banning of a set of academic books by a tenured professor: Prof. Dr. Kevin MacDonald's trilogy on Judaism, anti-Semitism, and Jewish cultural influence.⁴¹ Amazon pulled these books, first published more than twenty years earlier, from circulation in March 2019,⁴² or rather only Volumes 2 and 3, whereas the first volume, titled [*A People That Shall Dwell Alone*](#), is listed normally on Amazon as of late 2021 (see the cover illustration to the right).⁴³

⁴¹ Kevin MacDonald, [*A People That Shall Dwell Alone: Judaism As a Group Evolutionary Strategy*](#), Praeger, Westport, Conn., 1994; [*Separation and Its Discontents: Toward an Evolutionary Theory of Anti-Semitism*](#), *ibid.*, 1998; [*The Culture of Critique: An Evolutionary Analysis of Jewish Involvement in Twentieth-Century Intellectual and Political Movements*](#), *ibid.* 1998.

Prof. Dr. Kevin MacDonald, victim of Amazon's censorship frenzy.

When COVID-19 hit the U.S. in early 2020, so did voices criticizing the policies of masking and lockdown. One of them was Alex Berenson's trilogy *Unreported Truths about COVID-19 and Lockdowns*, which he tried to self-publish. However, Amazon initially rejected the first part of this series, claiming that it didn't meet their guidelines, without giving any specifics.⁴⁴ Although Amazon published the books eventually (and still offers them for sale today), the damage was done, as Berenson, a former *New-York-Times* reporter, made enough noise about this attempt at censorship to get him on Fox News, where he stated in an interview with Tucker Carlson, among other things:⁴⁵

"Berenson: They [Amazon] told me this morning, they weren't going to publish it, and then, you know, some people with loud voices said that was wrong, and they backed off. It's a good day. [...] But I think, the mistake they made is picking on somebody, or trying to censor somebody who happens to have a big enough megaphone to shout back. [...]"

Carlson: If they tried to do this to you, how many others are being

censored by Amazon? Do we know?

Berenson: I think that's a great question. We don't know, because it's not like YouTube, where stuff gets posted and then pulled. They can censor on the way in, and I've heard from people already and emailed me, saying that's happening, but we don't know how many, and we don't know what the standards are."

Among those "with loud voices" was the world's richest man – the CEO of Tesla, Starlink, SpaceX, The Boring Company and Neuralink, Elon Musk, whose SpaceX is in fierce competition with Jeff Bezos's space company Blue Origin. Musk promptly tweeted on June 4, 2020:⁴⁶

"Time to break up Amazon. Monopolies are wrong!"

It took Amazon just eight months to be caught again with its fingers in the cookie jar when, in February 2021, they pulled the thoughtful 2018 book on transgender experiences titled *When Harry Became*

[Sally](#) by Dr. Ryan Anderson – a conservative but by no means radical or even extremist philosopher.⁴⁷ Since Amazon did not back down but has kept the book off its shelves ever since, this act of virtual book burning had a larger resonance throughout the media and society, as it was clear that four years after Amazon had introduced their censorship stance, any book ruffling the feathers of any politically “correct” group the wrong way – here evidently the LGBTQ+@&\$*§ movement and their mouthpieces – was in acute danger of being banned from the cyberstores of the world’s biggest retailer. This time, Amazon’s book burning shook the entire conservative spectrum of U.S. society, hence potentially almost half of its populace. The conservative TV channel Fox News, for instance, called Amazon’s censorship “absurd and unacceptable.”⁴⁸ Here is an excerpt of Dr. Anderson’s exchange with *Fox News*’ news anchor Laura Ingraham:⁴⁹

Fox News: Censorship is bad when books they like get banned, but evil when books they hate get banned.⁴⁸

"Ingraham: At the top of the hour, the angle I mentioned, the famous novel 1984, and for many years, the Ministry of Truth was just a figment of Orwell's imagination, but today, it's real! It's just called Amazon. I say this, because Amazon has gone from simply selling books, to now banning books! Its most recent target: When Harry became Sally. [...]"

Anderson: So, if you are concerned with what Big Tech can do, if you dissent from gender ideology, just wait to see what Big Government can do. Both of them are threats to our liberties and to our flourishing."

Needless to say, *Fox News* and all the other mainstream media outlets did not object when Amazon banned our books in early 2017, or the many other books presumably containing some, in their eyes, unacceptable right-wing ideology. Evidently, censorship is a problem to most media outlets only if it affects themselves, not so much their competitors and opponents, let alone their perceived adversaries or

enemies.

Amazon's near-monopoly market dominance, and the abuses coming with it, were the focus of a documentary of the PBS series *Frontline*, which aired on February 18, 2020. Here are some revealing passages from its transcript:⁵⁰

“Narrator: Around that time [of the introduction of Kindle, 2007], Barry Lynn, an advocate for broad anti-trust enforcement, was growing increasingly concerned by what he was hearing from publishers.

Lynn: If the door was open, the publishers would say, hey, you know, Amazon, they are just a terrific customer; they are our biggest customer; they buy the most books; they sell the most books. We love them. Then you close the door, and they say, Amazon is destroying our business model; they are destroying our business; they have way too much power. We must do something about that.

Narrator: Lynn wanted publishers to speak up publicly, and thought, federal anti-trust regulators might investigate whether Amazon was a monopoly illegally abusing its market dominance in anti-competitive ways.

Lynn: And they'd say, no way! I'm not going to talk about Amazon in public! I'm not talking about them in Capitol Hill! They will

take retribution against me.

Jacoby: *To which you responded...?*

Lynn: *Well, that's why we have to do something about it!"*

There is a famous quote from German theologian Martin Niemöller about the excuses people make for too easily acquiescing when someone else's civil rights are violated but not their own, which I rephrase here to make it fit the current situation with Amazon and their ilk:

*First they censored the Holocaust deniers;
I remained silent, for I was no Holocaust denier.
Then they censored the Nazis;
I remained silent, for I was no Nazi.
Then they censored the nationalists;
I remained silent, for I was no nationalist.
Then they censored the conservatives;
I remained silent, for I was no conservative.
Finally they censored me,
and there was no one left to stand up for my rights.*

We have reached the final stage of this game already, and there is reason for everyone to be alarmed about this development. This being so, one wonders why the usual candidates to fight for our civil rights did not speak out against such infringements, such as the American Civil Liberties Union, PEN or the American Library Association's Office for Intellectual Freedom. In fact, when we approached the Ameri-

can Library Association in 2017 to be allowed to exhibit our banned books during their annual “Banned Books Week,” we were told that our books are not banned from public or school libraries, and that Amazon’s decision not to carry them is simply due to a lack of “commercial interest” in our books, and our whining about it merely proves that we were sore “losers.”⁵¹ Both claims are untrue. Our books are removed, banned, and burned from public and school libraries of every Western country on the planet – if we ever manage to get them there, that is – and Amazon was extorted into banning our books *because* they were a huge commercial success, as I demonstrated earlier.

As for the rest of the civil-rights organizations, they all insist that Amazon has the civil right to carry whatever books they please, and being denied that sales platform is no violation of anyone’s civil right at all. Quite to the contrary, forcing an enterprise to sell what they do not want to sell would be a violation of their rights. There is some truth to this, but the line is drawn where a platform has grown to the point where it has a near monopoly, such as Amazon for books, YouTube for video streaming, Google for internet searches, etc.

U.S. statutory and case law does not consider an enterprise to have a monopoly unless they have virtually total control over a market segment – such as your local utility companies have in your area, or Ingram Content Group has for book distribution. In case there is a monopoly, a company cannot arbitrarily deny doing business with a customer, but has to offer them to everyone who abides by the law.

Other countries have far lower limits of tolerance in this regard, and anti-trust laws already kick in at lower levels of market dominance. But since the U.S. is a plutocracy where Big Money rules, tougher anti-trust laws would have to be enacted by those who actually have the exact opposite interest. Hence, it won’t happen. But even if there were twenty Amazons sharing equal parts of the market, what would stop the usual bullies from bullying them all into banning books the powers-that-be cannot, will not tolerate? If the vast majority of an ignorant, fanaticized, deluded society is hell-bent on suppressing a persecuted minority’s peaceful views in the marketplace of ideas, what is

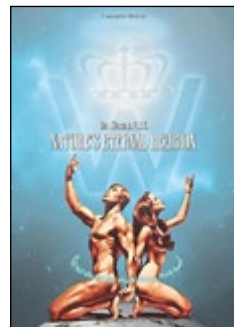

⁵¹ Michael A. Hoffman, “Books Banned by ‘Banned Books Week’,” CODOH, Oct. 7, 2017; <https://codoh.com/library/document/books-banned-by-banned-books-week/en/>.

going to stop them?

Objectively speaking, if a company has such a dominant position in a market segment that it has the capacity to serve the entire market segment, it should not have any excuse to turn down business. To give a comparative example, I am a publisher myself, but my resources are very limited, so I cannot accept every author's manuscript that gets on my desk. I have to make choices. CreateSpace, on the other hand, has no such limitations. Other than a violation of the laws governing the territory where this company is located, there cannot be any reasonable ground why CreateSpace should be allowed to turn away any authors or publishers.⁵² The same goes for Amazon. Every mom-and-pop convenience store around the corner has to make choices as to what products they carry, for they have limited space and resources. That is not true for Amazon. They can and basically do stock and/or offer everything. They exclude only certain items that they dislike. And with their market dominance, this should be against the law.

Since the 1960s, US case law evolved to the point where people were no longer allowed to reject doing business with others based on their skin color, ethnic background, religious beliefs etc. But they still reject doing business with people whose peaceful views they dislike. Some views, anyway. You are not allowed to refuse doing business with a person because that person is convinced that Jews were chosen by God and are superior to non-Jews. But you can, in fact are expected to, reject doing business with a person if that person thinks that the White race was chosen by God and is superior to non-white races.

Take Ben Klassen's book [*Nature's Eternal Religion*](#) (see the cover art to the right), which tries to establish a religion exclusively for Whites to further the survival of the White Race. No matter what you think of it, the book was banned by Amazon. Any book doing something similar for

⁵² That includes quality issues, such as publishing an internet copy-and-paste hatchet job of miserable formatting quality as a “book” that would never be accepted by the average customer. If customers complain about a book's quality, this is covered by laws prohibiting false advertisement. At any rate, our customers, without exception, have been full of praise for our books' print quality and intellectual contents.

Jews is not banned. So what's the difference? Well, to put it in a nutshell, Jews were victims of the gas chambers, whereas Whites were perpetrators of the gas chambers. And that's why books challenging the gas-chamber narrative are the first kind of books getting banned and burned: to keep that pecking order intact. But it is wrong. Let the fools who think that only they and their kind were chosen by God expose their folly to the world, no matter who they are. If we start banning books because we don't like their agenda, where does the banning stop?

Following Kant's Categorical Imperative, if we turn the rules currently enforced by Amazon into a *universal* one, what world would we live in? If every book were to get banned because someone finds it offensive – and not just someone with power and clout – what books would we be left with? Only those that are so boring and meaningless that it would be pointless to read them, let alone teach anyone to learn how to read. Or to paraphrase the Swedish revisionist Ditlieb Felderer:

“If it's not banned, it's not worth reading.”

As long as a book (or any other medium) espouses peaceful views, it should not be banned. However, anything that advocates, justifies, promotes or condones the violation of the civil rights of others cannot, perforce, claim to be protected by the very rights it denies others. I still do not think such utterances should be banned in every case. After all, civilized debate about restricting the civil rights of others under certain circumstances (such as violators of the law, and what the law should be) should – in fact, must be – allowed, but I think that it would be wrong to pressure or force anyone to offer such a book for sale. That's where the line must be drawn.

But back to Amazon. Unfortunately, this retail giant has not only expanded the scope and scale of its censorship since 2017 in terms of numbers and types of books banned. In fact, after the first censorship wave was over, I was puzzled as to why Amazon allowed its large subsidiaries AbeBooks and The Book Depository to continue offering the full range of Holocaust-revisionist literature by us and others. But this puzzlement was over when, sometime in late 2019/early 2020, I discovered that these platforms, too, had de-platformed all the books already banned from Amazon proper. Hence, the scourge of

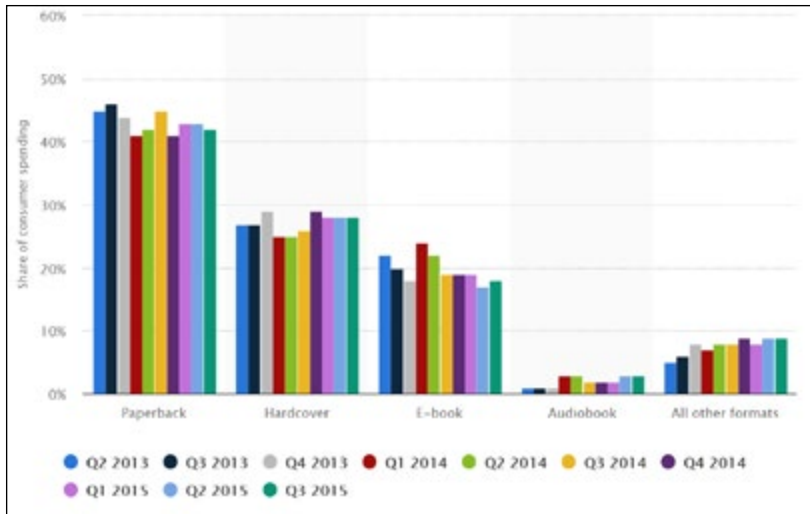

German journalist and regime lackey Patrick Bahners.

this metastasizing cancer grows not only horizontally to cover more and more books and topics; it also grows vertically by encompassing more and more book outlets. Now all these platforms are intellectual deserts for dissidents.

The fact remains, however, that it all started with the kind of literature that appears to the powers-that-be as the most dangerous kind. Holocaust-revisionist books were the first to be wiped out, and that was our almost complete range of books. The historical studies among them don't deal in ideology or religion. They don't care what religious affiliations actors in history may have had. All they do is thoroughly and dispassionately analyze material traces, archival documents and witness testimony. And that's what makes them so "dangerous." Or as German journalist Patrick Bahners put it in 1994 when justifying the incarceration of peaceful historical dissidents by the German government:⁵³

"The state protects freedom of science. It recognizes the scientist not by the result, but by correct [scientific] form. [...] But it is overlooked that the intention to agitate can be recognized not only by errors of form that separate beer-hall talk from scientific undertaking. On the contrary, agitation that is perfect in [scientific] form is the most perfidious."

⁵³ Patrick Bahners, "Objektive Selbstzerstörung," *Frankfurter Allgemeine Zeitung*, August 15, 1994, p. 21.

Between 40 and 50% of all paperback sales in the US go through Amazon.⁵⁴

Hence, we revisionists are so “dangerous” *because* we are so highly scientific. The pen is still mighty, and they sure fear *our* pens!

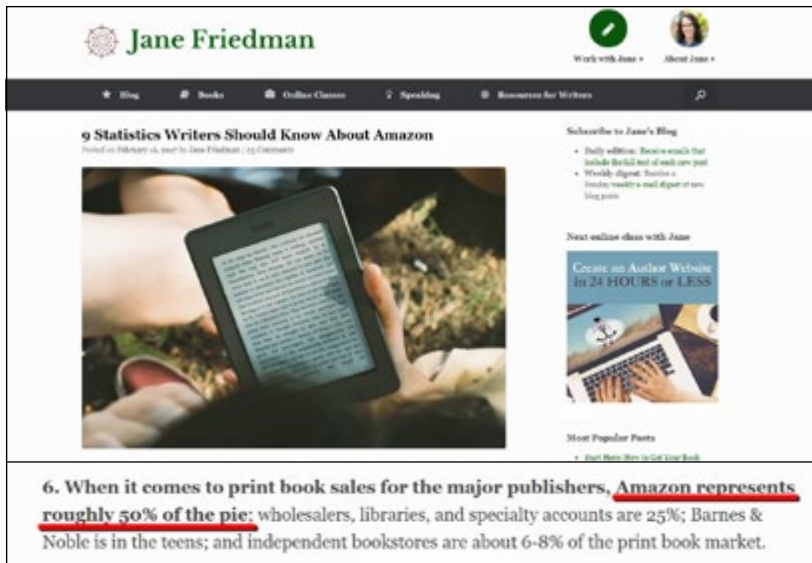

Amazon is the biggest book retailer of the world. According to www.statista.com,⁵⁴ their U.S. market share in consumer spending for paperback books, which is the largest sector of the market, and which is where we make some 98% of our income, was somewhere between 40 and 50% during the years 2013 to 2015, and it certainly hasn’t shrunk since. Jane Friedman blogged in 2017 that some 50% of all print-book sales go through Amazon,⁵⁵ while *The Atlantic* wrote in 2014 that 65% of all online sales of *new* books go through Amazon.⁵⁶ When Ryan Anderson’s book *When Harry Became Sally* was censored by Amazon in 2021, a documentary made about this case mentioned that at that time Amazon had a market share of 72% in online sales of new adult books according to the Wall Street Journal.⁵⁷

The main content area features an article titled "9 Statistics Writers Should Know About Amazon" with a sub-headline "Based on February 15, 2022 by Jane Friedman · 13 Comments". The article's main image shows a person holding a tablet displaying text. To the right, there's a sidebar with a "Subscribe to Jane's Blog" section, a "Next online class with Jane" section featuring a book cover for "Create an Author Website in 24 HOURS or LESS", and a "Most Popular Posts" section with a link to "Start Here When You Get Your Book". Below the article image, the text reads: "6. When it comes to print book sales for the major publishers, Amazon represents roughly 50% of the pie; wholesalers, libraries, and specialty accounts are 25%; Barnes & Noble is in the teens; and independent bookstores are about 6-8% of the print book market."

50% of all print-book sales of major publishers go through Amazon.⁵⁵

Hence, if a publisher is prevented from selling their books on Amazon, this pretty much results in the loss of some 50% to 70% of their turnover. That is exactly what we at Castle Hill Publishers experienced in the wake of most of our books having been banned from Amazon. Not many companies would survive such a catastrophic loss of business, but we manage. After all, it's not the first time we have to face such a challenge. This kind of censorship is par for the revisionist course, and if you cannot deal with it, don't get involved.

The screenshot shows an article on The Atlantic website titled "Amazon Has Basically No Competition Among Online Booksellers". The sub-headline reads: "It turns out, Amazon is not only the biggest player in the game, they also work hard to maintain the illusion (and often the reality) of rock bottom prices." The main text states: "As of March, Amazon's share of all new book unit purchases was 41 percent. They also dominate 65 percent of all (yes, all) new online book units, in both print and digital copies. They have the largest share of the e-book market as well, with 67 percent. As for print, Amazon controls 64 percent of sales of printed books online."

So, what can be done, you may ask? First of all, with their near-monopoly position, Amazon has become the primary threat to freedom of speech in the world. If you want to do something about it, stop buying *anything* from Amazon. Don't support the modern-day tyrants! Instead, use their website only as a merchandise search engine. Once you have found what you want to buy, google it in order to locate other vendors offering the same product. Sometimes you may even get a better deal elsewhere. But even if you don't, remember that freedom never comes free of charge. I myself haven't bought anything from Amazon since March 2017.

And don't buy from eBay either, because they ban even more dissident material than Amazon does.

And let's not wait for some miracle to happen, such as Amazon getting broken up as Musk suggested, which is unlikely to happen; but even if it did, it would probably not solve the problem, as ten smaller

Taboo-Breaking Books and Documentaries

"Enlightenment is man's leaving his self-caused immaturity. Immaturity is the incapacity to use one's intelligence without the guidance of another. Such immaturity is self-caused. If it is not caused by lack of intelligence, but by lack of determination and courage to use one's intelligence without being guided by another. *Sapere Aude!* [dare to know] Have the courage to use your own intelligence! is therefore the motto of the enlightenment."

That is the famous German philosopher Immanuel Kant speaking in 1784.

This website is about enlightenment, maturity, and courage

1. It aims at enlightening all its visitors about one of the most influential issues of modern history: The alleged deliberate mass murder of six million Jews by Nazi Germany mainly by means of gas chambers during World War Two.
2. It requires that the visitor be mature, that is, that he or she is capable of using their own intelligence without the guidance of another.
3. And finally, it requires courage to open the mind to well-founded, rational, yet at once truly mind-blowing and, some would say, sacrilegious thoughts.

Are you ready for your own dose of enlightenment? Watch, listen and read, and find out for yourself!

wide range of online outlets where you can get them. One of the biggest book-price search engines of them all, however, BooksPrice.com, is in bed with Amazon and has banned all of our books as well.

So you see, the cancer is metastasizing. For instance, Barnes & Noble, Amazon's biggest competitor in the United States, silently removed all revisionist books from their repertoire the same day Amazon did.

Barnes & Noble: Yet another enemy of free speech...

This shows that having competition by a diversity of book sellers alone does not preserve our right to be heard, which, by the way, is a concept that is unknown to the civil-rights movement. But what is the freedom to speak one's mind worth, if we don't also have a right to be heard? If those with power and influence can make sure that no one will ever hear us, it is just as bad as if we had no freedom of speech at all.

George Orwell's *Animal Farm* has not yet been deleted, which is a good thing, because it contains a line we will all be needing to learn:⁵⁸

"They marched through the farm-yard singing this song: 'Four legs good, two legs bad. The animals know that the people are mad. Four legs good, two legs bad. The animals know that the people are mad.'"

Repeat this many times every hour. We will need such thinking more and more as we venture forth into this new world, in which our books, and soon enough our thoughts themselves, will be censored and cleansed to the total satisfaction of our masters.

Holocaust good, revisionism bad. Holocaust good, revisionism bad. Holocaust good, revisionism BAD!

Castle Hill Publishers' Censorship Experiences

As mentioned earlier, Amazon's wholesale slaughter of revisionist books wasn't the first act of censorship we have encountered over the years.

We encountered the first blow in the summer of 2004, when our German bank account was confiscated by the German authorities, along with some \$5,000 of funds in it. Fortunately, in 2001 the European Union had mostly eliminated fees on electronic fund transfers between most European nations, so from then on, we simply asked our customers in Germany to pay their bills directly into our British bank account.

The next blow came with the arrest and deportation to Germany of Castle Hill Publishers' (CHP) founder and owner Germar Rudolf in November 2005, followed by a show trial and an aggregate prison term of 44 months for his publishing activities as laid out in the present book.⁵⁹ During that time, CHP was run by associates who did what they could to keep CHP alive.

During these years, first PayPal cancelled our business account with reference to a clause added a short while earlier to their terms explicitly prohibiting the sale of "Holocaust denial" material, then our British-Chinese bank HSBC closed CHP's business account. Details are unknown to me, as I was incarcerated in Germany when this happened, and because the individual dealing with it at that time, Anthony Hancock, has since passed away.

After my release from prison, it took me a while to pick up the pieces of my life and my company and to put them all back together again. Yet while doing this, the next censorship assault hit us when Jewish assemblyman Dov Hikind spread the following misleading press re-

lease from his New York office:⁶⁰

“Assemblyman Hikind (D-Brooklyn) is calling on the major credit card companies to withdraw their support from numerous hate groups operating in the United States and abroad. It was discovered that eight Holocaust denial organizations are currently selling racist, anti-Semitic and Holocaust Denial products (books, videos) via websites through credit card sales. [...]

The Holocaust Denial organizations offering credit card sales are:

- *Institute for Historical Review (Amex, Visa, MC, Discover)*
- *Noontide Press (Amex, Visa, MC, Discover) [=IHR]*
- *Inconvenient History (Visa, MC) [=CODOH]*
- *Barnes Review/Foundation for Economic Liberty (Amex, Visa, MC, Discover)*

- *The International Conspiratological Association (Amex, Visa, MC, Discover, Paypal) [unknown entity]*

Some of the many anti-Semitic and Holocaust-denial books sold by these organizations include Protocols of the Learned Elders of

Zion, The ‘Gas Chambers’ of Dachau, Mauthausen and Hartheim, which states that ‘none of these facilities were ever used, or could have been used, as lethal ‘gas chambers’ and The Rudolf Report which states, ‘The alleged gas chambers of Auschwitz could not have existed.’”

After not even a month, the *Brooklyn Daily Eagle*, the newspaper in Hikind’s district, headlined (see the illustration):⁶¹

“MasterCard says it will cease doing business with hate groups”

By late summer of 2013, all the entities listed that I know of had lost their ability to accept credit-card payments. In a world where most financial transactions are done by credit card, this blow resulted in a catastrophic loss of some 80% to 90% of income.⁶²

Before turning to the next event, let me analyze what Hikind stated in his press release. First, a few words about Hikind's insinuation that Holocaust revisionism spreads hateful messages and is equivalent to anti-Semitism and racism. This is simply not true. While it is true that some anti-Semites and racists hold revisionist views, revisionism by definition is a scientific method, not a political or religious attitude. That some individuals are more likely to be attracted to Holocaust revisionism than others has no bearing on revisionism as a concept itself.

Next, there is no book with the title *The 'Gas Chambers' of Dachau, Mauthausen and Hartheim*. The closest to it would be *The Second Leuchter Report*, which has *Dachau, Mauthausen, Hartheim* as its subtitle (reprinted in the book shown). In it, we search in vain for the quote Hikind attributes to it. Instead we find:⁶³

"[...] the alleged gas chambers at the above inspected sites could not have then been, or now be, utilized or seriously considered to function as execution gas chambers."

Although Hikind caught the gist of it, still, if it's not a verbatim quote, don't put quotation marks around it.

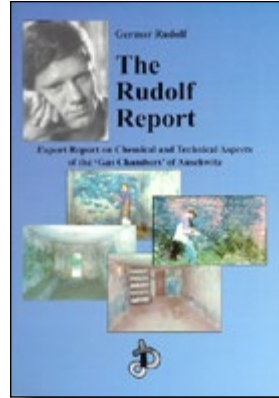

His second quote is similarly shoddy, which gives the impression of originating from my expert report – see the cover artwork of the first English edition of 2003 in the illustration to the right. It does not state anywhere that “The alleged gas chambers of Auschwitz could not have existed.” Instead, my two main conclusions read as follows:⁶⁴

⁶³ Fred Leuchter, Robert Faurisson, Germar Rudolf, *The Leuchter Reports: Critical Edition*, 5th ed., Castle Hill Publishers, Uckfield 2017, p. 146, similar on p. 139. The text has never been changed since the first self-published 1989 edition of the *Second Leuchter Report*.

⁶⁴ Germar Rudolf, *The Rudolf Report*, Theses & Dissertations Press, Chicago 2003, pp. 289f. The current edition titled *The Chemistry of Auschwitz* (Castle Hill Publishers, Uckfield 2017) has a slightly different wording of the first paragraph, p. 363: “Hence, the mass gassings with hydrogen cyanide (Zyklon B) in the supposed homicidal gas chambers of Auschwitz cannot have taken place as claimed

“On physical-chemical grounds, the mass gassings with hydrogen cyanide (Zyklon B) in the supposed ‘gas chambers’ of Auschwitz claimed by witnesses did not take place. [...]”

The procedures of mass-gassing as attested to by witnesses during their interrogation before various courts of law, as cited in judicial rulings, and as described in scientific and literary publications, in any building of Auschwitz whatever, are inconsistent with documentary evidence, technical necessities, and natural scientific law.”

Again, the gist is there, but an accurate quotation would have suggested to the reader that revisionist arguments are much more complex than what Hikind evidently wanted his readers to understand.

But there is a much wider issue in play here, which we must not lose sight of: Dov Hikind’s global outreach to ruin businesses whose agendas he detests is utterly un-American. Jett Rucker explained it aptly in a 2013 article, from which I quote:⁶⁵

“Why is such a global enterprise, in behalf of a majority, one supposes, of the 66,000 or so voters in his District 48 of New York, Unamerican? Well, we could start with ‘freedom of speech,’ another concept, along with ‘Unamerican,’ that has become quite fusty from disuse. The Constitutional bar against Congress enacting any measure that abridges freedom of speech, much honored by now in the breach, does not bear on Assemblyman Dov Hikind, nor even, necessarily, on the State of New York, and certainly not on American Express, Mastercard, and the various other arbiters of the international payment system that so many of us rely upon to conduct our transactions – and, it would seem, to form our opinions.

Hikind’s projects, then, are not unconstitutional. So, why are they Unamerican? The bar on Congress, it might be speculated, arose

by witnesses.”

⁶⁵ Jett Rucker, “The Unamerican: Dov Hikind,” *Smiths Report*, No. 201, Dec. 2013, pp. 3f.; www.codoh.com/library/document/3092.

from the Founding Fathers' awareness that the power to prohibit expression would be ineluctably captured by those intent on enforcing beliefs that those currently in power were the most-fit to exercise it, and that such power should be exercised only by sanctioned parties.

The Founding Fathers hoped to prevent such hijacking of the public faith. Unfortunately, they did not figure on credit cards and the regulation of banking that has reduced management of this critical facility to a government-dependent monopoly. The credit-card companies, a cartel protected and managed by the government, have become a lever handy to the grasp even of tin-horn despots such as Dov Hikind for the advancement of parochial agendas. One supposes that Hikind's constituency, whether that of the 66,000 voters of Borough Park or that of Holocaust censors worldwide, are gratified by his noxious success.

But, a romantic might posit, there might be something further in the Americanness of the ideal of free speech. That is the simple idea of Fair Play for those who express honest opinion informed, however incompletely, by fact. There might be, in this penchant for Free Speech that some Americans have obdurately held onto for these two centuries and more, a respect for the honest opinion, or speculation, of one's fellow man. To stand against this, and to work against it, is what is Unamerican about Dov Hikind's reprehensible effort to throttle free expression that so threatens, in the end, the foundation of his own political base.

We (Americans, citizens of the world) can mobilize force, legal, financial, and otherwise, against the expression of ideas, thoughts, feelings, however motivated. Or, we can allow each other to be free with such activities, and hash the issues out in open discourse, unencumbered, insofar as this is socially possible, by suppression, censorship, and all other barriers to the free exchange of opinion.

This freedom is exactly what the Dov Hikinds in the world stand against."

After regrouping, we launched an effort in late 2013 to get a strong foothold on Amazon.com by placing our products using their e-commerce platform "Marketplace." That project, however, was nixed around Christmas 2014, when Amazon shut down our account due

to an alleged lack of customer-service quality, even though we had not a single complaint by any customer and only rave reviews by highly satisfied patrons. In fact, the real reason to kick us out was that one of the books published by a U.S. company, which we had licensed for sale in the UK, turned into a bestseller overnight – see the cover artwork shown here.⁶⁶ Proof for this is the fact that the U.S. publishers of that book had their Amazon Marketplace account shut down at the very same time for the very same threadbare, even mendacious reason.

At that time, we were already getting our feet wet with Amazon's print-on-demand subsidiary CreateSpace. After Amazon had thrown us out of their "Marketplace," we switched over to CreateSpace, hoping that this one would last for a while. As you can see from the story told in the present book, it lasted a little over two years before that one went bust, too.

And what was next? Well, on January 18, 2018, we received the following e-mail from our credit-card processing company:

"The following updates have been made to your merchant account:

– Amex account removed

Please contact us at the phone number provided on your statement if you have questions regarding this update."

When we inquired why American Express had been removed from our account, they told us they had no information why AmEx had pulled the plug. When we contacted AmEx, they stated that AmEx, after a "proprietary review" of their relationship with us, had decided to sever that relationship. Since we did not have a direct relationship with them but rather through an agent, the customer representative

stated that he is unable and unauthorized to divulge any information about the reasons for this severance.

And guess who is at it again, inspired by the fake bomb threats and non-vandalized Jewish cemeteries discussed earlier:⁶⁷

ALBANY – A group of nearly 40 state lawmakers called on Visa and MasterCard on Tuesday to stop allowing hate groups to use their credit cards to sell products.

Among the products offered on the site are t-shirts, caps and posters with swastikas or Ku Klux Klan symbols.

Assuming he’s doing with taxpayer money what he likes best, it is not far-fetched to assume that he and/or those of his ilk were behind it when we lost our contract with our credit-card-service provider altogether at the end of June 2019, because our gateway provider, Authorize.net, had abandoned us without making so much as a peep about it.

Moreover, a few weeks before that, on June 10, 2019, YouTube blocked all our video channels, after this Google subsidiary had already announced in early June 2019 that it would delete videos with Holocaust-revisionist content.⁶⁸ Since YouTube has a virtual monopoly in video streaming, this cut off our access to hundreds of thousands, even millions of people, because that is how successful some of our videos were. Most of our self-produced documentaries can be viewed on the website www.HolocaustHandbooks.com, but John Doe can only find them there if he already knows what to look for. Although by now we have a very successful [video channel on BitChute](https://www.bitchute.com/channel/1v1h761W8FPZ/),⁶⁹ the number of viewers there are only a small fraction of what was once possible on YouTube. As a result of this YouTube censorship, we had to stop our paid video production, because we simply could not reach the masses anymore, and the production costs could no longer be covered.

Just a few days after we had managed to reinstate credit-card payments on our site, we learned about the following article by the Israeli news website YNetNews.com, published on July 12, 2019:⁷⁰

Modern 'Nazi hunters' are fighting anti-Semitism online

International Association of Jewish Lawyers and Jurists convinced German government to shut down website of anti-Semitic publishing house, warns anti-Jewish sentiment prevalent 'in a new and deadlier form on social networks'

After a years-long legal battle by the International Association of Jewish Lawyers and Jurists (IAJLJ), the German government last week ordered Holocaust revisionist publisher Castle Hill Publishers to shut down its online store.

The British-based anti-Semitic publishing house founded by convicted Holocaust denier Germar Rudolf specializes in the distribution of books and periodicals in English and German that deny the Holocaust.

As of late, the website has not been available in Germany but is still accessible in other countries, including Israel. The legal precedence in Germany, where Holocaust denial is a criminal offense, is that the website is not German in origin.

Other than Holocaust denial literature, Castle Hill Publishers also hires "researchers" who probe for material and evidence to back up their claims about the Holocaust.

Among titles up for sale on the website can be found books such as "Treblinka – Extermination Camp or Transit Camp?", "Breaking the Spell – The Holocaust, Myth & Reality" and "The Hoax of the Twentieth Century – The Case Against the Presumed Extermination of European Jewry."

Other than Holocaust denial literature, Castle Hill Publishers also

hires ‘researchers’ who probe for material and evidence to back up their claims about the Holocaust.

Among titles up for sale on the website can be found books such as ‘Treblinka – Extermination Camp or Transit Camp?’, ‘Breaking the Spell – The Holocaust, Myth & Reality’ and ‘The Hoax of the Twentieth Century – The Case Against the Presumed Extermination of European Jewry.’”

When I read that, I had to laugh: the German government ordered us to shut down our online store? That never happened, and we sure don’t take orders from totalitarian dictatorships to forfeit our civil right to freedom of speech! It is true, however, that the German government threatens to prosecute the CEO of every internet-service provider in Germany whose company makes our website’s contents accessible to German visitors. As a result, many Germans unfamiliar with anonymizing virtual-private-network technology (VPN) can no longer access our website.

YNet also deplores that, in addition to selling our literature, we have the audacity to hire researchers who probe for material and evidence to back up our claims about the Holocaust. How evil of us, indeed. However, last time I checked, Israel does the same thing through their evidence-denying establishment called Yad Vashem and many other venues, and many universities around the globe today pride themselves on having some type of Holocaust research center, or at least an academic chair staffed with “researchers” who get paid to back up the flawed orthodox narrative with “evidence.” That is par for the course, and if paying people to back up claims were a legitimate reason to shut down websites, there would be few websites left standing.

The next wave of trouble for us came at the end of 2020 in the wake of “Brexit,” the UK’s exit from the European Union. Since we have been conducting our book distribution in Europe from England since 1996, Brexit meant for us that the dictatorships of mainland Europe, first and foremost Germany and Austria, would now carry out customs controls on mailings from England. And guess what happens when they discover what books we are importing... Confiscations have therefore happened more frequently since then, and our customers have sometimes been harassed by Germany’s State-Protection Squads, modern Germany’s equivalent of the Gestapo of yore. As a

result, we withdrew from England – along with thousands of other companies for whom the new customs and duty regulations made financial survival impossible.

A year and a half after the YouTube mass murder of our documentaries and two weeks after Brexit, it was once again the credit-card-service providers who were causing us headaches. On January 14, 2021, our credit-card-service provider, National Processing, decided we were “evil” after one of its gateway providers, Paysafe.com, let us down that same day, writing in an email:

“Good afternoon,

I am reaching out to inform you that this account has been closed. It was brought to our attention of what is being sold on your web-site. These products are classified as hate speech. No funds have been held.”

Looking at the pattern of censorship we have experienced over the years, it emerges that the beginning of each year seems to be the most challenging for us. The reason for that seems obvious. In 2005, the General Assembly of the United Nations officially declared the 27th of each January “an annual International Day of Commemoration in memory of the victims of the Holocaust.”⁷¹ January 27, 1945 was the day when the Red Army entered the Auschwitz Camp. I intentionally refuse to use the word “liberated” in this context, because the Red Army did never liberate anyone; they merely conquered, and subjugated those “liberated” to totalitarian Stalinist rule.

Ever since that year in particular, certain partisan groups have driven censorship campaigns against skeptical Holocaust researchers and their published research result mainly during that time of the year.

The same happened again in early 2022, when Germany and Israel ganged up to make the General Assembly of the United Nations pass another resolution appealing to all nations of the world “to reject without any reservation” and “to take active measures to combat” any unwanted skeptical research into the National-Socialists’ persecution of the Jews, and the popular social-media chatter resulting from it. This resolution passed without a vote on January 20, 2022.⁷²

⁷² <https://undocs.org/en/A/RES/76/250>

Gilad Erdan, Israel's representative to the United Nations, gives a propaganda speech during the UN General Assembly on January 20, 2022, talking the nations of the world into censoring unwanted historical research.

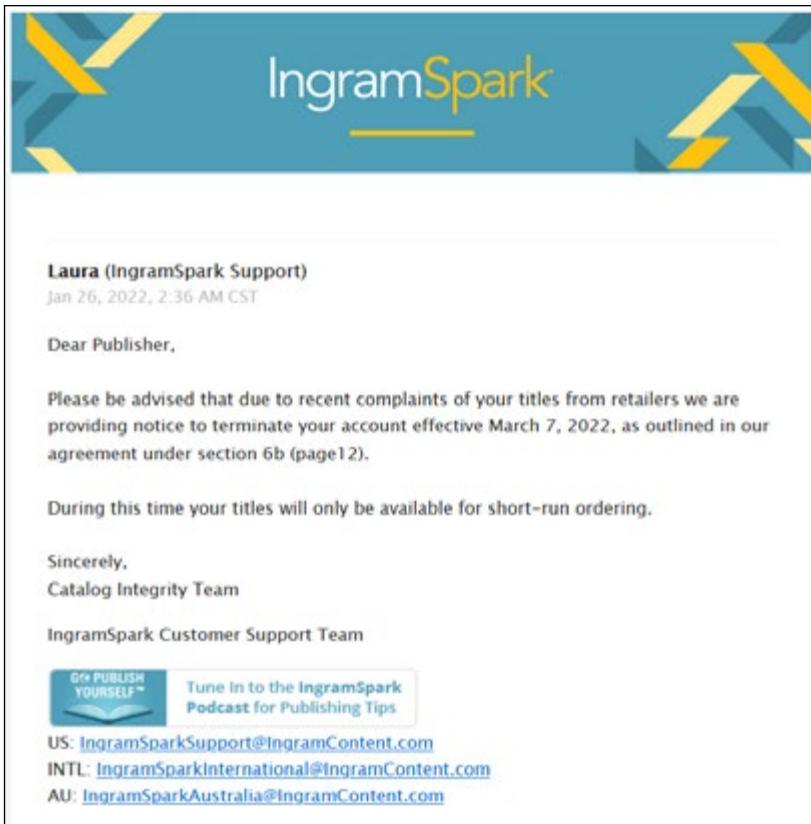

(<https://www.youtube.com/watch?v=gIYYDktE0SM>)

The enormity of what happened on that day at the General Assembly of the United Nations needs to be understood: This resolution is in clear violation of the United Nation's Declaration of Human Rights, which guarantees freedom of speech in both its Preamble and in Article 19.⁷³ On that day, *all* governments of the world agreed to do everything possible to curtail that freedom *on the entire planet!* (Well, Iran spoke out against that resolution, but not because they were worried about free speech...). In other words, when it comes to freedom of historical research, the General Assembly of the United Nations is an assembly of dictatorships and tyrannies, with shades in color, but not in principle.

When we heard about this resolution, we braced for impact. Something sure was coming our way again...

On January 24, the company we used at that time to have our books printed, distributed and mailed to our customers, Lightning Source, which is a subsidiary of the almighty Ingram Content Group, sus-

⁷³ <http://www.un.org/en/about-us/universal-declaration-of-human-rights>

pended all our books. We could not even place any orders for our own customers. A day later, all books were available again for us to place individual orders for our own customers, but all books had been removed from distribution through Ingram, which basically has a monopoly on book distribution in the U.S. In fact, in a video meant to promote Ingram, they brag about the fact that they are “behind every book,”⁷⁴ because pretty much every new book that gets printed in the U.S. goes through Ingram as the intermediary between publishers on the one hand and book retailers on the other.

When we asked Ingram what the reason was for this censorship action was, we received the following email on January 26:

⁷⁴ <https://www.youtube.com/watch?v=4Hgp4Nbs2fg>, end of video.

“Dear Publisher,

Please be advised that due to recent complaints of your titles from retailers we are providing notice to terminate your account effective March 7, 2022, as outlined in our agreement under section 6b (page 12).

During this time your titles will only be available for short-run ordering.

Sincerely,

Catalog Integrity Team”

That Section 6b reads succinctly:

“b) Termination for Convenience. Publisher may terminate this Agreement without cause by giving the other Party forty-five (45) days written notice. Lightning Source may terminate this agreement with or without cause, immediately upon written notice to Publisher.”

To this I merely responded, without having heard back from them:

“This is peculiar. No retailer is forced to sell or even offer our books, if they don’t like them, so why would they complain?

Is there any way of letting us know what the contents of those complaints were?”

Brick-and-mortar book shops most certainly have no influence on which books Ingram offers as a distributor. If they don’t like a book, they simply don’t carry it. It is different with the big book chains and online book retailers. In the U.S., they get their book data with which they fill their websites directly from Ingram via a live ftp hook-up. Ingram feeds all these sites, without exception, every day with updates of new books released, revisions made, and books withdrawn. That’s why you could always find our books on Amazon for at least some time after we had released a new book or a new edition. Amazon and all the rest of the websites in the U.S. where you get your books have all their data fed in real time and automatically by Ingram. If they want to ban any book Ingram carries, they have to go into this data of millions of book and manually delete the ones they despise. It is a real hassle for them to do that, as it requires perpetual monitoring and, if something offensive is spotted, manual intervention into their

database contents.

So, guess which retailer with lots of clout and influence has had enough of our, at times, successful undermining of their censorship efforts and put the thumbscrews on Ingram, using the UN Resolution just passed as a broad hint? With Amazon having a 72% market share in new online book sales, a similar percentage of Ingram's sales also probably goes to Amazon. Hence, if Amazon is unhappy, Ingram better clean up...

When Ingram, probably bullied by Amazon, pulled the plug on us, our books disappeared *from the entire worldwide book market*, except for our own web shop as well as a few smaller retail outlets specializing in niche products such as we publish.

Not quite a month after this blow, we received a love letter from our British bank, Barclays, with whom we had been doing business for the past 15 years without ever encountering any problems, no matter the pressure domestic or foreign individuals or entities exerted on them. But then, someone must have used the recent UN resolution to make them change their minds (see the reproduction of their letter overleaf):

"Dear Sir

We are closing your account(s)

We're sorry, after careful consideration, we've taken the decision to close your account(s) and all facilities on 24.04.2022."

No further reason was given except for a reference to their retail-customer agreement which simply states that Barclays can close any account with two months' notice for no reason at all.

Now we're in the next round of the battle for free speech, which is to be reported in the next edition of this book...

As Elon Musk was aptly paraphrased in early 2021 when he was ticked off by the censorship wave on social media in response to the riot on Capitol Hill in January 2021:

"They don't ban hate speech, they ban speech they hate!"

The more enemies, the merrier!
To be continued... (unfortunately)

Dear Sir

We are closing your account(s)

We're sorry, after careful consideration, we've taken the decision to close your account(s) and all facilities on 24.04.2022.
During this time, you can continue to bank normally.

Why we are closing your account(s)

Barclays regularly review all accounts, and we are closing yours in accordance with our Terms & Conditions, specifically **Section 11, page 37 of the Retail Customer Agreement**. A copy of this is available by searching 'Barclays RCA' in your web browser.

What you need to do now

We appreciate this news may be sudden, and we've provided guidance on next steps you may need to take:

1. If you need a bank account, you will need to make other banking arrangements with an alternative bank or financial institution. We will not offer any future banking services
2. You need to contact anyone making regular payments into your account(s) and provide them with your new banking details. We'll make every effort to return funds received to the relevant sender after your account(s) are closed, but we cannot guarantee that this will always be possible. If you're unable to arrange a new bank account, it's important that you stop any payments due to be paid in immediately.
3. Collect any items held in our safe custody before your account(s) are closed

You can get this in Braille, large print or audio by contacting any Barclays branch to advise us of your requirements.

*Calls to 0345 numbers are free from UK landlines and personal mobiles, otherwise call charges may apply. Please check with your service provider. To maintain a quality service we may monitor or record phone calls.

HOLOCAUST HANDBOOKS

This ambitious, growing series addresses various aspects of the “Holocaust” of the WWII era. Most of them are based on decades of research from archives all over the world. They are heavily referenced. In contrast to most other works on this issue, the tomes of this series approach its topic with profound academic scrutiny and a critical attitude. Any Holocaust researcher ignoring this series will remain oblivious to some of the most important research in the field. These books are designed to both convince the common reader as well as academics. The following books have appeared so far, or are about to be released.

SECTION ONE:

General Overviews of the Holocaust

The First Holocaust. The Surprising Origin of the Six-Million Figure. By Don Heddesheimer. This compact but substantive study documents

propaganda spread prior to, during and after the FIRST World War that claimed East European Jewry was on the brink of annihilation. The magic number of suffering and dying Jews was 6 million back then as well. The book details how these Jewish fundraising operations in America raised vast sums in the name of feeding suffering Polish and Russian Jews but actually fun-

neled much of the money to Zionist and Communist groups. 5th ed., 200 pages, b&w illustrations, bibliography, index. (#6)

Lectures on the Holocaust. Controversial Issues Cross Examined. By Germar Rudolf.

This book first explains why “the Holocaust” is an important topic, and that it is essential to keep an open mind about it. It then tells how many mainstream scholars expressed doubts and subsequently fell from grace. Next, the physical traces and documents about the various claimed crime scenes and murder weapons are discussed. After that, the reliability of witness testimony is examined. Finally, the author argues for a free

exchange of ideas on this topic. This book gives the most-comprehensive and up-to-date overview of the critical research into the Holocaust. With its dialogue style, it is easy to read, and it can even be used as an encyclopedic compendium. 4th ed., 597 pages, b&w illustrations, bibliography, index. (#15)

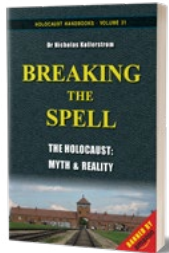

Breaking the Spell. The Holocaust, Myth & Reality. By Nicholas Kollerstrom. In 1941, British Intelligence analysts cracked the German “Enigma” code. Hence, in 1942 and 1943, encrypted radio communications between German concentration camps and the Berlin headquarters were decrypted. The intercepted data

refutes the orthodox “Holocaust” narrative. It reveals that the Germans were desperate to reduce the death rate in their labor camps, which was caused by catastrophic typhus epidemics.

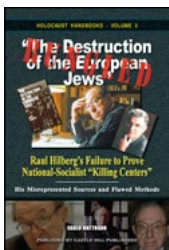

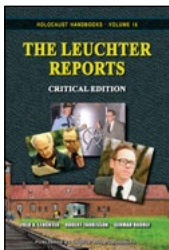

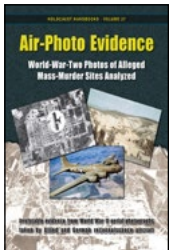

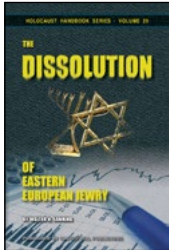

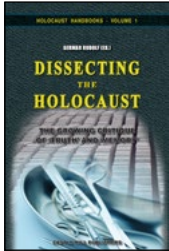

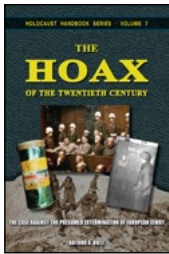

Dr. Kollerstrom, a science historian, has taken these intercepts and a wide array of mostly unchallenged corroborating evidence to show that “witness statements” supporting the human gas chamber narrative clearly clash with the available scientific data. Kollerstrom concludes that the history of the Nazi “Holocaust” has been written by the victors with ulterior motives. It is distorted, exaggerated and largely wrong. With a foreword by Prof. Dr. James Fetzner. 6th ed., 285 pages, b&w ill., bibl., index. (#31)

Debating the Holocaust. A New Look at Both Sides. By Thomas Dalton. Mainstream historians insist that there cannot be, any debate about the Holocaust. But ignoring it

does not make this controversy go away. Traditional scholars admit that there was neither a budget, a plan, nor an order for the Holocaust; that the key camps have all but vanished, and so have any human remains; that material and unequivocal documentary evidence is absent; and that there are serious problems with survivor testimonies. Dalton juxtaposes the traditional Holocaust narrative with revisionist challenges and then analyzes the mainstream’s responses to them. He reveals the weaknesses of both sides, while declaring revisionism the winner of the current state of the debate.

4th ed., 342 pages, b&w illustrations, bibliography, index. (#32)

The Hoax of the Twentieth Century. The Case against the Presumed Extermination of European Jewry. By Arthur R. Butz. The first writer to analyze the entire Holocaust complex in a precise scientific manner. This book exhibits the overwhelming force of arguments accumulated by the mid-1970s. Butz's two main arguments are: 1. All major entities hostile to Germany must have known what was happening to the Jews under German authority. They acted during the war as if no mass slaughter was occurring. 2. All the evidence adduced to prove any mass slaughter has a dual interpretation, while only the innocuous one can be proven to be correct. This book continues to be a major historical reference work, frequently cited by prominent personalities. This edition has numerous supplements with new information gathered over the last 35 years. 4th ed., 524 pages, b&w illustrations, bibliography, index. (#7)

Dissecting the Holocaust. The Growing Critique of 'Truth' and 'Memory.' Edited by Germar Rudolf. *Dissecting the Holocaust* applies state-of-the-art scientific techniques and classic methods of detection to investigate the alleged murder of millions of Jews by Germans during World War II. In 22 contributions—each of some 30 pages—the 17 authors dissect generally accepted paradigms of the “Holocaust.” It reads as excitingly as a crime novel: so many lies, forgeries and deceptions by politicians, historians and scientists are proven. This is the intellectual adventure of the 21st Century. Be part of it! 3rd ed., 635 pages, b&w illustrations, bibliography, index. (#1)

The Dissolution of Eastern European Jewry. By Walter N. Sanning. Six Million Jews died in the Holocaust. Sanning did not take that number at face value, but thoroughly explored European population developments and shifts mainly caused by emigration as well as deportations and evacuations conducted by both Nazis and the Soviets, among other things. The book is based mainly on Jewish, Zionist and mainstream sources. It concludes that a sizeable share of the Jews found missing during local censuses after the Second World War, which were so far counted as “Holocaust victims,” had either emigrated (mainly to Israel or the U.S.) or had been deported by Stalin to Siberian labor camps. 3rd ed., foreword by A.R. Butz, epilogue by Germar Rudolf, and an update by the author containing new insights; 264

pages, b&w illustrations, bibliography (#29).

Air-Photo Evidence: World-War-Two Photos of Alleged Mass-Murder Sites Analyzed. By Germar Rudolf (editor). During World War Two both German and Allied reconnaissance aircraft took countless air photos of places of tactical and strategic interest in Europe. These photos are prime evidence for the investigation of the Holocaust. Air photos of locations like Auschwitz, Majdanek, Treblinka, Babi Yar etc. permit an insight into what did or did not happen there. The author has unearthed many pertinent photos and has thoroughly analyzed them. This book is full of air-photo reproductions and schematic drawings explaining them. According to the author, these images refute many of the atrocity claims made by witnesses in connection with events in the German sphere of influence. 6th edition; with a contribution by Carlo Mattogno. 167 pages, b&w illustrations, bibliography, index (#27).

The Leuchter Reports: Critical Edition. By Fred Leuchter, Robert Faurisson and Germar Rudolf. Between 1988 and 1991, U.S. expert on execution technologies Fred Leuchter wrote four reports on whether the Third Reich operated homicidal gas chambers. The first on Auschwitz and Majdanek became world-famous. Based on various arguments, Leuchter concluded that the locations investigated could never have been “utilized or seriously considered to function as execution gas chambers.” The second report deals with gas-chamber claims for the camps Dachau, Mauthausen and Hartheim, while the third reviews design criteria and operation procedures of execution gas chambers in the U.S. The fourth report reviews Pressac's 1989 tome about Auschwitz. 4th ed., 252 pages, b&w illustrations. (#16)

Bungled: “The Destruction of the European Jews”. Raul Hilberg's Failure to Prove National-Socialist “Killing Centers.” By Carlo Mattogno. Raul Hilberg's magnum opus *The Destruction of the European Jews* is an orthodox standard work on the Holocaust. But how does Hilberg support his thesis that Jews were murdered *en masse*? He rips documents out of their context, distorts their content, misinterprets their meaning, and ignores entire archives. He only refers to “useful” witnesses, quotes fragments out of context, and conceals the fact that his witnesses are lying through their teeth. Lies and deceptions permeate Hil-

berg's book, 302 pages, bibliography, index. (#3)

Jewish Emigration from the Third Reich. By Ingrid Weckert. Current historical writings about the Third Reich claim state it was difficult for Jews to flee from Nazi persecution. The truth is that Jewish emigration was welcomed by the German authorities. Emigration was not some kind of wild flight, but rather a lawfully determined and regulated matter. Weckert's booklet elucidates the emigration process in law and policy. She shows that German and Jewish authorities worked closely together. Jews interested in emigrating received detailed advice and offers of help from both sides. 2nd ed., 130 pages, index. (#12)

Inside the Gas Chambers: The Extermination of Mainstream Holocaust Historiography. By Carlo Mattogno. Neither increased media propaganda or political pressure nor judicial persecution can stifle revisionism. Hence, in early 2011, the Holocaust Orthodoxy published a 400-page book (in German) claiming to refute "revisionist propaganda," trying again to prove "once and for all" that there were homicidal gas chambers at the camps of Dachau, Natzweiler, Sachsenhausen, Mauthausen, Ravensbrück, Neuengamme, Stutthof... you name them. Mattogno shows with his detailed analysis of this work of propaganda that mainstream Holocaust hagiography is beating around the bush rather than addressing revisionist research results. He exposes their myths, distortions and lies. 2nd ed., 280 pages, b&w illustrations, bibliography, index. (#25)

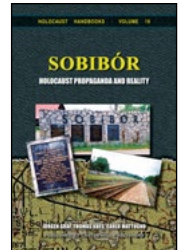

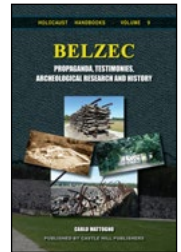

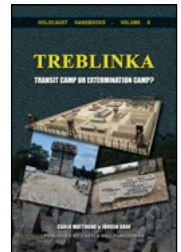

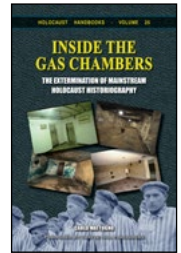

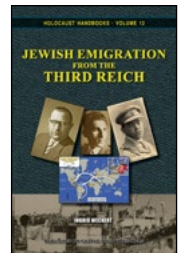

SECTION TWO: Specific non-Auschwitz Studies

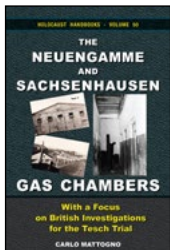

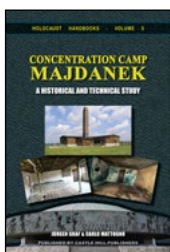

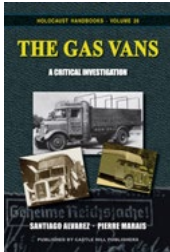

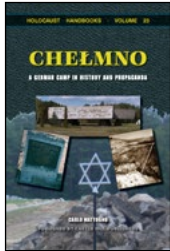

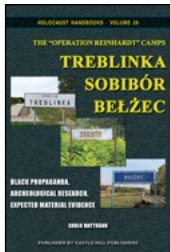

The Dachau Gas Chamber. By Carlo Mattogno. This study investigates whether the alleged homicidal gas chamber at the infamous Dachau Camp could have been operational. Could these gas chambers have fulfilled their alleged function to kill people as assumed by mainstream historians? Or does the evidence point to an entirely different purpose? This study reviews witness reports and finds that many claims are nonsense or technically impossible. As many layers of confounding misunderstandings and misrepresentations are peeled away, we discover the core of what the truth was concerning the existence of these gas chambers. 154 pages, b&w illustrations, bibliography, index. (#49)

Treblinka: Extermination Camp or Transit Camp? By Carlo Mattogno and Jürgen Graf. It is alleged that at Treblinka in East Poland between 700,000 and 3,000,000 persons were murdered in 1942 and 1943. The weapons used were said to have been stationary and/or mobile gas chambers, fast-acting or slow-acting poison gas, unslaked lime, superheated steam, electricity, Diesel-exhaust fumes etc. Holocaust historians alleged that bodies were piled as high as multi-storied buildings and burned without a trace, using little or no fuel at all. Graf and Mattogno have now analyzed the origins, logic and technical feasibility of the official version of Treblinka. On the basis of numerous documents they reveal Treblinka's true identity as a mere transit camp. 3rd ed., 384 pages, b&w illustrations, bibliography, index. (#8)

Belzec: Propaganda, Testimonies, Archeological Research and History. By Carlo Mattogno. Witnesses report that between 600,000 and 3 million Jews were murdered in the Belzec Camp, located in Poland. Various murder weapons are claimed to have been used: Diesel-exhaust gas; unslaked lime in trains; high voltage; vacuum chambers; etc. The corpses were incinerated on huge pyres without leaving a trace. For those who know the stories about Treblinka this sounds familiar. Thus, the author has restricted this study to the aspects which are new compared to Treblinka. In contrast to Treblinka, forensic drillings and excavations were performed at Belzec, the results of which are critically reviewed. 142 pages, b&w illustrations, bibliography, index. (#9)

Sobibor: Holocaust Propaganda and Reality. By Jürgen Graf, Thomas Kues and Carlo Mattogno. Between 25,000 and 2 million Jews are said to have been killed in gas chambers in the Sobibór camp in Poland. The corpses were allegedly buried in mass graves and later incinerated on pyres. This book investigates these claims and shows that they are based on the selective use of contradictory eyewitness testimony. Archeological surveys of the camp are analyzed that started in 2000-2001 and carried on until 2018. The book also documents the general National-Socialist policy toward Jews, which never included a genocidal "final solution." In conclusion, Sobibór emerges not as a "pure extermination camp", but as a transit camp from where Jews were deported to the occupied eastern territories. 2nd ed., 456 pages, b&w illustrations, bibliography, index. (#19)

The "Operation Reinhardt" Camps Treblinka, Sobibór, Belzec. By Carlo Mattogno. This study has its first focus on witness testimonies recorded during World War II and the immediate post-war era, many of them discussed here for the first time, thus demonstrating how the myth of the "extermination camps" was created. The second part of this book brings us up to speed with the various archaeological efforts made by mainstream scholars in their attempt to prove that the myth is true. The third part compares the findings of the second part with what we ought to expect, and reveals the chasm between facts and myth. 402 pages, illustrations, bibliography, index. (#28)

Chelmno: A Camp in History & Propaganda. By Carlo Mattogno. At Chelmno, huge masses of Jewish prisoners are said to have been gassed in "gas vans" or shot (claims vary from 10,000 to 1.3 million victims). This study covers the subject from every angle, undermining the orthodox claims about the camp with an overwhelmingly effective body of evidence. Eyewitness statements, gas wagons as extermination weapons, forensics reports and excavations, German documents – all come under Mattogno's scrutiny. Here are the uncensored facts about Chelmno, not the propaganda. This is a complementary volume to the book on *The Gas Vans* (#26). 2nd ed., 188 pages, indexed, illustrated, bibliography. (#23)

The Gas Vans: A Critical Investigation. By Santiago Alvarez and Pierre Marais. Did the Nazis use mobile gas chambers to exterminate 700,000 people? Are witness statements believable? Are documents genuine? Where are the murder weapons? Could they have operated as claimed? Where are the corpses? In order to get to the truth of the matter, Alvarez has scrutinized all known wartime documents and photos about this topic; he has analyzed a huge amount of witness statements as published in the literature and as presented in more than 30 trials held over the decades in Germany, Poland and Israel; and he has examined the claims made in the pertinent mainstream literature. The result of his research is mind-boggling. Note: This book and Mattogno's book on Chelmno were edited in parallel to make sure they are consistent and not repetitive. 2nd ed., 412 pages, b&w illustrations, bibliography, index. (#26)

The Einsatzgruppen in the Occupied Eastern Territories: Genesis, Missions and Actions. By C. Mattogno. Before invading the Soviet Union, the German authorities set up special units meant to secure the area behind the German front. Orthodox historians claim that these units called *Einsatzgruppen* primarily engaged in rounding up and mass-murdering Jews. This study sheds a critical light onto this topic by reviewing all the pertinent sources as well as material traces. It reveals on the one hand that original war-time documents do not fully support the orthodox genocidal narrative, and on the other that most post-"liberation" sources such as testimonies and forensic reports are steeped in Soviet atrocity propaganda and are thus utterly unreliable. In addition, material traces of the claimed massacres are rare due to an attitude of collusion by governments and Jewish lobby groups. 2nd ed., 2 vols., 864 pp., b&w illustrations, bibliography, index. (#39)

Concentration Camp Majdanek. A Historical and Technical Study. By Carlo Mattogno and Jürgen Graf. At war's end, the Soviets claimed that up to two million Jews were murdered at the Majdanek Camp in seven gas chambers. Over the decades, however, the Majdanek Museum reduced the death toll three times to currently 78,000, and admitted that there were "only" two gas chambers. By exhaustively researching primary sources, the authors expertly dissect and repudiate the myth of homicidal gas chambers at that camp. They also critically investigated the legend of mass executions of Jews in tank trenches and prove it groundless. Again they have produced a standard work of methodical investigation which authentic historiography cannot ignore. 3rd ed., 358 pages, b&w illustrations, bibliography, index. (#5)

The Neuengamme and Sachsenhausen Gas Chambers. By Carlo Mattogno. The Neuengamme Camp near Hamburg, and the Sachsenhausen Camp north of Berlin allegedly had homicidal gas chambers for the mass gassing of inmates. The evaluation of many postwar interrogation protocols on this topic exposes inconsistencies, discrepancies and contradictions. British interrogating techniques are revealed as manipulative, threatening and mendacious. Finally, technical absurdities of gas-chambers and mass-gassing claims unmask these tales as a mere regurgitation of hearsay stories from other camps, among

them foremost Auschwitz. 178 pages, b&w ill., bibliography, index. (#50)

Concentration Camp Stutthof and Its Function in National Socialist Jewish Policy. By Carlo Mattogno and Jürgen Graf. Orthodox historians claim that the Stutthof Camp near Danzig, East Prussia, served as a “makeshift” extermination camp in 1944, where inmates were killed in a gas chamber. Based mainly on archival resources, this study thoroughly debunks this view and shows that Stutthof was in fact a center for the organization of German forced labor toward the end of World War II. The claimed gas chamber was a mere delousing facility. 4th ed., 170 pages, b&w illustrations, bibliography, index. (#4)

SECTION THREE: Auschwitz Studies

The Making of the Auschwitz Myth: Auschwitz in British Intercepts, Polish Underground Reports and Post-war Testimonies (1941-1947). By Carlo Mattogno. Using messages sent by the Polish underground to London, SS radio messages sent to and from Auschwitz that were intercepted and decrypted by the British, and a plethora of witness statements made during the war and in the immediate postwar period, the author shows how exactly the myth of mass murder in Auschwitz gas chambers was created, and how it was turned subsequently into “history” by intellectually corrupt scholars who cherry-picked claims that fit into their agenda and ignored or actively covered up literally thousands of lies of “witnesses” to make their narrative look credible. 2nd edition, 514 pp., b&w illustrations, bibliography, index. (#41)

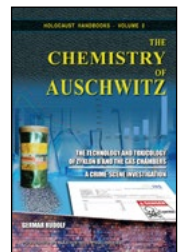

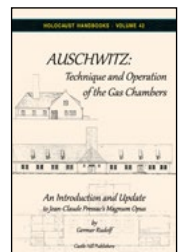

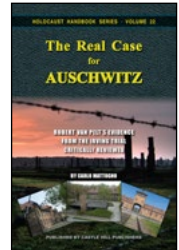

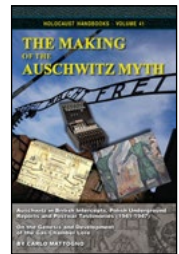

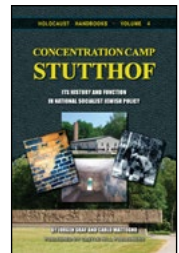

The Real Case of Auschwitz: Robert van Pelt's Evidence from the Irving Trial Critically Reviewed. By Carlo Mattogno. Prof. Robert van Pelt, a mainstream expert on Auschwitz, became famous when appearing as an expert during the London libel trial of David Irving against Deborah Lipstadt. From it resulted a book titled *The Case for Auschwitz*, in which van Pelt laid out his case for the existence of homicidal gas chambers at that camp. This book is a scholarly response to Prof. van Pelt—and Jean-Claude Pressac, upon whose books van Pelt's study is largely based. Mattogno lists all the evidence van Pelt adduces, and shows one by one that van Pelt misrepresented and misinterpreted every single one of them. This is a book of prime political and

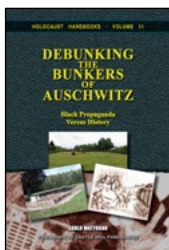

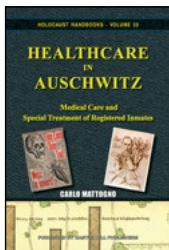

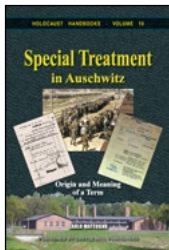

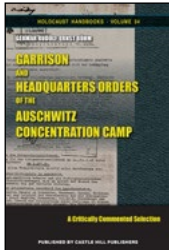

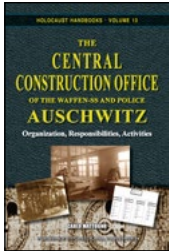

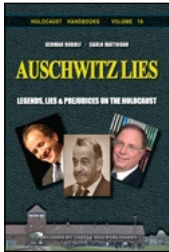

scholarly importance to those looking for the truth about Auschwitz. 3rd ed., 692 pages, b&w illustrations, glossary, bibliography, index. (#22)

Auschwitz: Plain Facts: A Response to Jean-Claude Pressac. Edited by Germar Rudolf, with contributions by Serge Thion, Robert Faurisson and Carlo Mattogno. French pharmacist Jean-Claude Pressac tried to refute revisionist findings with the “technical” method. For this he was praised by the mainstream, and they proclaimed victory over the “revisionists.” In his book, Pressac's works and claims are shown to be unscientific in nature, as he never substantiates what he claims, and historically false, because he systematically misrepresents, misinterprets and misunderstands German wartime documents. 2nd ed., 226 pages, b&w illustrations, glossary bibliography, index. (#14)

Auschwitz: Technique and Operation of the Gas Chambers: An Introduction and Update. By Germar Rudolf. Pressac's 1989 oversize book of the same title was a trail blazer. Its many document reprints are valuable, but Pressac's annotations are now outdated. This book summarizes the most pertinent research results on Auschwitz gained during the past 30 years. With many references to Pressac's epic tome, it serves as an update and correction to it, whether you own an original hard copy of it, read it online, borrow it from a library, purchase a reprint, or are just interested in such a summary in general. 144 pages, b&w illustrations, bibliography. (#42)

The Chemistry of Auschwitz: The Technology and Toxicology of Zyklon B and the Gas Chambers – A Crime-Scene Investigation. By Germar Rudolf. This study documents forensic research on Auschwitz, where material traces reign supreme. Most of the claimed crime scenes – the claimed homicidal gas chambers – are still accessible to forensic examination to some degree. This book addresses questions such as: How were these gas chambers configured? How did they operate? In addition, the infamous Zyklon B is examined in detail. What exactly was it? How did it kill? Did it leave traces in masonry that can be found still today? Indeed, it should have, the author concludes, but several sets of analyses show no trace of it. The author also discusses in depth similar forensic research conducted by other scholars. 4th ed., 454 pages, more than 120 color and over 100 b&w illustrations, bibliography, index. (#2)

Auschwitz Lies: Legends, Lies and Prejudices on the Holocaust. By Carlo Mattogno and Germar Rudolf. The fallacious research and alleged “refutation” of revisionist scholars by French biochemist G. Wellers (attacking Leuchter’s famous report, #16), Polish chemist Dr. J. Markiewicz and U.S. chemist Dr. Richard Green (taking on Rudolf’s chemical research), Dr. John Zimmerman (tackling Mattogno on cremation issues), Michael Shermer and Alex Grobman (trying to prove it all), as well as researchers Keren, McCarthy and Mazal (who turned cracks into architectural features), are exposed for what they are: blatant and easily exposed political lies created to ostracize dissident historians. 4th ed., 420 pages, b&w illustrations, index. (#18)

Auschwitz: The Central Construction Office. By Carlo Mattogno. When Russian authorities granted access to their archives in the early 1990s, the files of the Auschwitz Central Construction Office, stored in Moscow, attracted the attention of scholars researching the history of this camp. This important office was responsible for the planning and construction of the Auschwitz camp complex, including the crematories which are said to have contained the “gas chambers.” This study sheds light into this hitherto hidden aspect of this camp’s history, but also provides a deep understanding of the organization, tasks, and procedures of this office. 2nd ed., 188 pages, b&w illustrations, glossary, index. (#13)

Garrison and Headquarters Orders of the Auschwitz Camp. By Germar Rudolf and Ernst Böhm. A large number of the orders issued by the various commanders of the Auschwitz Camp have been preserved. They reveal the true nature of the camp with all its daily events. There is not a trace in them pointing at anything sinister going on. Quite to the contrary, many orders are in insurmountable contradiction to claims that prisoners were mass murdered, such as the children of SS men playing with inmates, SS men taking friends for a sight-seeing tour through the camp, or having a romantic stroll with their lovers around the camp grounds. This is a selection of the most pertinent of these orders together with comments putting them into their proper historical context. 185 pages, b&w ill., bibl., index (#34)

Special Treatment in Auschwitz: Origin and Meaning of a Term. By Carlo Mattogno. When appearing in German wartime documents, terms like

“special treatment,” “special action,” and others have been interpreted as code words for mass murder. But that is not always true. This study focuses on documents about Auschwitz, showing that, while “special” had many different meanings, not a single one meant “execution.” Hence the practice of deciphering an alleged “code language” by assigning homicidal meaning to harmless documents – a key component of mainstream historiography – is untenable. 2nd ed., 166 pages, b&w illustrations, bibliography, index. (#10)

Healthcare at Auschwitz. By Carlo Mattogno. In extension of the above study on *Special Treatment in Auschwitz*, this study proves the extent to which the German authorities at Auschwitz tried to provide health care for the inmates. Part 1 of this book analyzes the inmates’ living conditions and the various sanitary and medical measures implemented. It documents the vast construction efforts to build a huge inmate hospital inside the Auschwitz-Birkenau Camp. Part 2 explores what happened to registered inmates who were “selected” or subject to “special treatment” while disabled or sick. This study shows that a lot was tried to cure these inmates, especially under the aegis of Garrison Physician Dr. Wirths. Part 3 is dedicated to this very Dr. Wirths. The reality of this caring philanthropist refutes the current stereotype of SS officers. 398 pages, b&w illustrations, bibliography, index. (#33)

Debunking the Bunkers of Auschwitz: Black Propaganda vs. History. By Carlo Mattogno. The “bunkers” at Auschwitz-Birkenau, two former farmhouses just outside the camp’s perimeter, are claimed to have been the first homicidal gas chambers at Auschwitz specifically equipped for this purpose. They supposedly went into operation during the first half of 1942, with thousands of Jews sent straight from deportation trains to these “gas chambers.” However, documents clearly show that all inmates sent to Auschwitz during that time were properly admitted to the camp. No mass murder on arrival can have happened. With the help of other wartime files as well as air photos taken by Allied reconnaissance aircraft in 1944, this study shows that these homicidal “bunkers” never existed, how the rumors about them evolved as black propaganda created by resistance groups in the camp, and how this propaganda was transformed into a false reality by “historians.” 2nd ed.,

292 pages, b&w ill., bibliography, index. (#11)

Auschwitz: The First Gassing. Rumor and Reality. By Carlo Mattogno. The first gassing in Auschwitz is claimed to have occurred on Sept. 3, 1941 in a basement. The accounts reporting it are the archetypes for all later gassing accounts. This study analyzes all available sources about this alleged event. It shows that these sources contradict each other about the event's location, date, the kind of victims and their number, and many more aspects, which makes it impossible to extract a consistent story. Original wartime documents inflict a final blow to this legend and prove without a shadow of a doubt that this legendary event never happened. 4th ed., 262 pages, b&w illustrations, bibliography, index. (#20)

Auschwitz: Crematorium I and the Alleged Homicidal Gassings. By Carlo Mattogno. The morgue of Crematorium I in Auschwitz is said to be the first homicidal gas chamber there. This study analyzes witness statements and hundreds of wartime documents to accurately write a history of that building. Where witnesses speak of gassings, they are either very vague or, if specific, contradict one another and are refuted by documented and material facts. The author also exposes the fraudulent attempts of mainstream historians to convert the witnesses' black propaganda into "truth" by means of selective quotes, omissions, and distortions. Mattogno proves that this building's morgue was never a homicidal gas chamber, nor could it have worked as such. 2nd ed., 152 pages, b&w illustrations, bibliography, index. (#21)

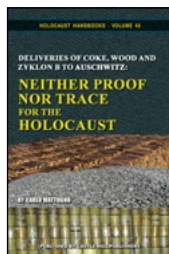

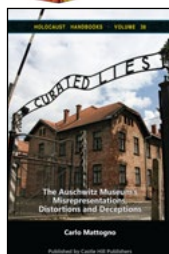

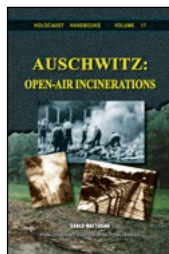

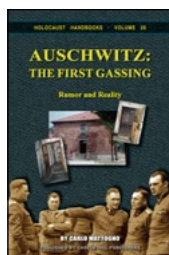

Auschwitz: Open-Air Incinerations. By Carlo Mattogno. In 1944, 400,000 Hungarian Jews were deported to Auschwitz and allegedly murdered in gas chambers. The camp crematoria were unable to cope with so many corpses. Therefore, every single day thousands of corpses are claimed to have been incinerated on huge pyres lit in trenches. The sky was filled with thick smoke, if we believe witnesses. This book examines many testimonies regarding these incinerations and establishes whether these claims were even possible. Using air photos, physical evidence and wartime documents, the author shows that these claims are fiction. A new Appendix contains 3 papers on groundwater levels and cattle mass burnings. 2nd ed., 202 pages, b&w illustrations, bibliography, index. (#17)

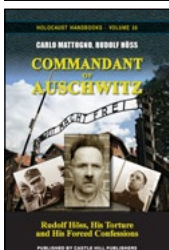

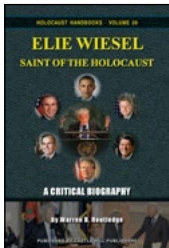

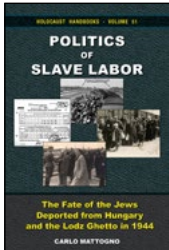

The Cremation Furnaces of Auschwitz. By Carlo Mattogno & Franco Deana. An exhaustive study of the early history and technology of cremation in general and of the cremation furnaces of Auschwitz in particular. On a vast base of technical literature, extant wartime documents and material traces, the authors establish the nature and capacity of these cremation furnaces, showing that these devices were inferior makeshift versions, and that their capacity was lower than normal. The Auschwitz crematoria were not facilities of mass destruction, but installations barely managing to handle the victims among the inmates who died of various epidemics. 2nd ed., 3 vols., 1201 pages, b&w and color illustrations (vols 2 & 3), bibliography, index, glossary. (#24)

Curated Lies: The Auschwitz Museum's Misrepresentations, Distortions and Deceptions. By Carlo Mattogno. Revisionist research results have put the Polish Auschwitz Museum under enormous pressure to answer this challenge. They've answered. This book analyzes their answer. It first exposes the many tricks and lies used by the museum to bamboozle millions of visitors every year regarding its most valued asset, the "gas chamber" in the Main Camp. Next, it reveals how the museum's historians mislead and lie through their teeth about documents in their archives. A long string of completely innocuous documents is mistranslated and misrepresented to make it look like they prove the existence of homicidal gas chambers. 2nd ed., 259 pages, b&w illustrations, bibliography, index. (#38)

Deliveries of Coke, Wood and Zyklon B to Auschwitz: Neither Proof Nor Trace for the Holocaust. By Carlo Mattogno. Researchers from the Auschwitz Museum tried to prove the reality of mass extermination by pointing to documents about deliveries of wood and coke as well as Zyklon B to the Auschwitz Camp. If put into the actual historical and technical context, however, as is done by this study, these documents prove the exact opposite of what those orthodox researchers claim. This study exposes the mendacious tricks with which these museum officials once more deceive the trusting public. 184 pages, b&w illust., bibl., index. (#40)

Mis-Chronicling Auschwitz. Danuta Czech's Flawed Methods, Lies and Deceptions in Her "Auschwitz Chronicle". By Carlo Mattogno. The *Auschwitz Chronicle* is a reference book for the history of the Auschwitz

Camp. It was published in 1990 by Danuta Czech, one of the Auschwitz Museum's most prolific and impactful historians. Analyzing this almost 1,000-page long tome one entry at a time, Mattogno has compiled a long list of misrepresentations, outright lies and deceptions contained in it. They all aim at creating the otherwise unsubstantiated claim that homicidal gas chambers and lethal injections were used at Auschwitz for mass-murdering inmates. This literary mega-fraud needs to be retired from the ranks of Auschwitz sources. 324 pages, b&w illust., bibliography, index. (#47)

The Real Auschwitz Chronicle. By Carlo Mattogno. Nagging is easy. We actually did a better job! That which is missing in Czech's *Chronicle* is included here: day after day of the camp's history, documents are presented showing that it could not have been an extermination camp: tens of thousands of sick and injured inmates were cared for medically with huge efforts, and the camp authorities tried hard to improve the initially catastrophic hygienic conditions. Part Two contains data on transports, camp occupancy and mortality figures. For the first time, we find out what this camp's real death toll was. 2 vols., 906 pp., b&w illustrations (Vol. 2), bibliography, index. (#48)

Politics of Slave Labor: The Fate of the Jews Deported from Hungary and the Lodz Ghetto in 1944. By Carlo Mattogno. The deportation of the Hungarian Jews to Auschwitz in May-July 1944 is said to have been the pinnacle of this camp's extermination frenzy, topped off in August of that year by the extermination of Jews deported from the Lodz Ghetto. This book gathers and explains all the evidence available on both events. In painstaking research, the author proves almost on a person-by-person level what the fate was of many of the Jews deported from Hungary or the Lodz Ghetto. He demonstrates that these Jews were deported to serve as slave laborers in the Third Reich's collapsing war economy. There is no trace of any extermination of any of these Jews. 338 pp., b&w illust., bibliography, index. (#51)

SECTION FOUR: Witness Critique

Elie Wiesel, Saint of the Holocaust: A Critical Biography. By Warren B. Rudledge. This book analyzes several of Wiesel's texts, foremost his

camp autobiography *Night*. The author proves that much of what Wiesel claims can never have happened. It shows how Zionist control has allowed Wiesel and his fellow extremists to force leaders of many nations, the U.N. and even popes to genuflect before Wiesel as symbolic acts of subordination to World Jewry, while at the same time forcing school children to submit to Holocaust brainwashing. This study also shows how parallel to this abuse of power, critical reactions to it also increased: Holocaust revisionism. While Catholics jumped on the Holocaust band wagon, the number of Jews rejecting certain aspect of the Holocaust narrative and its abuse grew as well. This first unauthorized biography of Wiesel exposes both his personal deceits and the whole myth of "the six million." 3rd ed., 458 pages, b&w illustration, bibliography, index. (#30)

Auschwitz: Eyewitness Reports and Perpetrator Confessions. By Jürgen Graf. The traditional narrative of what transpired at the infamous Auschwitz camp during WWII rests almost exclusively on witness testimony from former inmates as well as erstwhile camp officials. This study critically scrutinizes the 30 most important of these witness statements by checking them for internal coherence, and by comparing them with one another as well as with other evidence such as wartime documents, air photos, forensic research results, and material traces. The result is devastating for the traditional narrative. 372 pages, b&w illust., bibl., index. (#36)

Commandant of Auschwitz: Rudolf Höss, His Torture and His Forced Confessions. By Carlo Mattogno & Rudolf Höss. From 1940 to 1943, Rudolf Höss was the commandant of the infamous Auschwitz Camp. After the war, he was captured by the British. In the following 13 months until his execution, he made 85 depositions of various kinds in which he confessed his involvement in the "Holocaust." This study first reveals how the British tortured him to extract various "confessions." Next, all of Höss's depositions are analyzed by checking his claims for internal consistency and comparing them with established historical facts. The results are eye-opening... 2nd ed., 411 pages, b&w illust., bibliography, index. (#35)

An Auschwitz Doctor's Eyewitness Account: The Tall Tales of Dr. Mengele's Assistant Analyzed. By Miklos Nyiszli & Carlo Mattogno.

Nyiszli, a Hungarian physician, ended up at Auschwitz in 1944 as Dr. Mengele's assistant. After the war he wrote a book and several other writings describing what he claimed to have experienced. To this day some traditional historians take his accounts seriously, while others reject them as grotesque lies and exaggerations. This study presents and analyzes Nyiszli's writings and skillfully separates truth from fabulous fabrication. 2nd ed., 484 pages, b&w illustrations, bibliography, index. (#37)

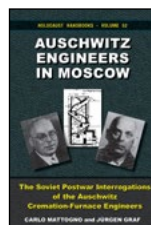

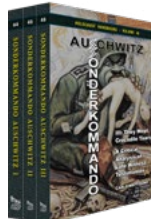

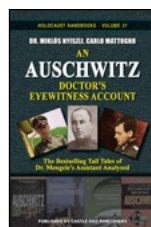

Rudolf Reder versus Kurt Gerstein: Two False Testimonies on the Belzec Camp Analyzed. By Carlo Mattogno. Only two witnesses have ever testified substantially about the alleged Belzec Extermination Camp: The survivor Rudolf Reder and the SS officer Kurt Gerstein. Gerstein's testimonies have been a hotspot of revisionist critique for decades. It is now discredited even among orthodox historians. They use Reder's testimony to fill the void, yet his testimonies are just as absurd. This study thoroughly scrutinizes Reder's various statements, critically revisits Gerstein's various depositions, and then compares these two testimonies which are at once similar in some respects, but incompatible in others. 216 pages, b&w illust., bibliography, index. (#43)

Sonderkommando Auschwitz I: Nine Eyewitness Testimonies Analyzed. By Carlo Mattogno. The 1979 book *Auschwitz Inferno* by alleged former Auschwitz "Sonderkommando" member Filip Müller has a great influence on the perception of Auschwitz by the public and by historians. This book critically analyzes Müller's various post-war statements, which are full of exaggerations, falsehoods and plagiarized text passages. Also scrutinized are the testimonies of eight other claimed former *Sonderkommando* members: D. Paisikovic, S. Jankowski, H. Mandelbaum, L. Nagraba, J. Rosenblum, A. Pilo, D. Fliamenbaum and S. Karolinskij. 304 pages, b&w illust., bibliography, index. (#44)

Sonderkommando Auschwitz II: The False Testimonies by Henryk Tauber and Szlama Dragon. By Carlo Mattogno. Auschwitz survivor and former member of the so-called "Sonderkommando" Henryk Tauber is one of the most important witnesses about the alleged gas chambers inside the crematoria at Auschwitz, because right at the war's end, he made several extremely detailed depositions about it. The same is true for Szlama Dragon, only he claims to have worked at the so-called "bunkers" of Birkenau, two makeshift gas chambers just outside the camp perimeter. This study thoroughly scrutinizes these two key testimonies. 254 pages, b&w illust., bibliography, index. (#45)

Sonderkommando Auschwitz III: They Wept Crocodile Tears. A Critical Analysis of Late Witness Testimonies. By Carlo Mattogno. This book focuses on the critical analysis of witness testimonies on the alleged Auschwitz gas chambers recorded or published in the 1990s and early 2000s, such as J. Sackar, A. Dragon, J. Gabai, S. Chasan, L. Cohen and S. Venezia, among others. 232 pages, b&w illust., bibliography, index. (#46)

Auschwitz Engineers in Moscow: The Soviet Postwar Interrogations of the Auschwitz Cremation-Furnace Engineers. By Carlo Mattogno and Jürgen Graf. After the war, the Soviets arrested four leading engineers of the Topf Company. Among other things, they had planned and supervised the construction of the Auschwitz cremation furnaces and the ventilation systems of the rooms said to have served as homicidal gas chambers. Between 1946 and 1948, Soviet officials conducted numerous interrogations with them. This work analyzes them by putting them into the context of the vast documentation on these and related facilities. The appendix contains all translated interrogation protocols. 254 pages, b&w illust., bibliography, index. (#52)

Three decades of unflagging archival and forensic research by the world's most knowledgeable, courageous and prodigious Holocaust scholars have finally coalesced into a reference book that makes all this knowledge readily accessible to everyone:

HOLOCAUST ENCYCLOPEDIA **uncensored and unconstrained**

Available as paperback (b&w) or hardcover (color), 634 pages, 8.5"×11"; as eBook (ePub or PDF) and eBook + audio (ePub + mp3); more than 350 illustrations in 579 entries; introduction, bibliography, index. Online at www.NukeBook.org

We all know the basics of “The Holocaust.” But what about the details? Websites and printed encyclopedias can help us there. Take the 4-volume encyclopedia by Israel’s Yad Vashem Center: *The Encyclopedia of the Holocaust* (1990). For every significant crime scene, it presents a condensed narrative of Israel’s finest Holocaust scholars. However, it contains not one entry about witnesses and their stories, even though they are the foundation of our knowledge. When a murder is committed, the murder weapon and the crime’s traces are of crucial importance. Yet Yad Vashem’s encyclopedia has no entries explaining scientific findings on these matters – not one.

This is where the present encyclopedia steps in. It not only summarizes and explains the many pieces that make up the larger Holocaust picture. It also reveals the evidence that confirms or contradicts certain notions. Nearly 300 entries present the essence of important witness accounts, and they are subjected to source criticism. This enables us to decide which witness claims are credible.

For all major crime scenes, the sometimes-conflicting claims are presented. We learn how our knowledge has changed over time, and what evidence shores up the currently valid

narrative of places such as Auschwitz, Belzec, Sobibór, Treblinka, Dachau and Bergen-Belsen and many more.

Other entries discuss tools and mechanisms allegedly used for the mass murders, and how the crimes’ traces were erased, if at all. A few entries discuss toxicological issues surrounding the various lethal gases claimed to have been used.

This encyclopedia has multiple entries on some common claims about aspects of the Holocaust, including a list of “Who said it?” This way we can quickly find proof for these claims.

Finally, several entries address factors that have influenced the creation of the Holocaust narrative, and how we perceive it today. This includes entries on psychological warfare and wartime propaganda; on conditions prevailing during investigations and trials of alleged Holocaust perpetrators; on censorship against historical dissidents; on the religious dimension of the Holocaust narrative; and on motives of all sides involved in creating and spreading their diverse Holocaust narratives.

In this important volume, now with 579 entries, you will discover many astounding aspects of the Holocaust narrative that you did not even know exist.

The Holocaust: An Introduction. By Thomas Dalton. The Holocaust was perhaps the greatest crime of the 20th Century. Six million Jews, we are told, died by gassing, shooting, and deprivation. But: Where did the six-million figure come from? How, exactly, did the gas chambers work? Why do we have so little physical evidence from major death camps? Why haven't we found even a fraction of the six million bodies, or their ashes? Why has there been so much media suppression and governmental censorship on this topic? In a sense, the Holocaust is the greatest murder mystery in history. It is a topic of greatest importance for the present day. Let's explore the evidence, and see where it leads. 128 pp. pb, 6"x9", ill., bibl., index.

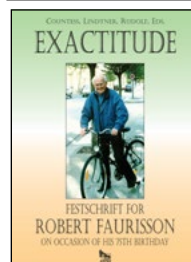

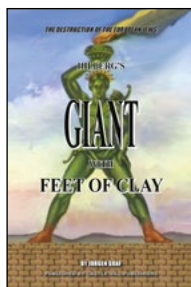

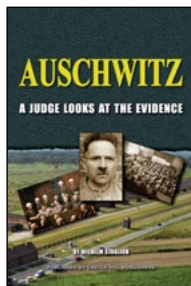

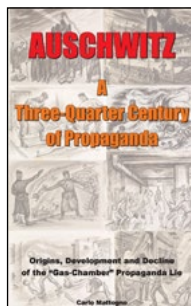

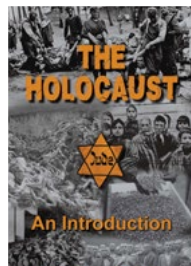

Auschwitz: A Three-Quarter Century of Propaganda: Origins, Development and Decline of the "Gas Chamber" Propaganda Lie. By Carlo Mattogno. Wild rumors were circulating about Auschwitz during WWII: Germans testing war gases; mass murder in electrocution chambers, with gas showers or pneumatic hammers; living people sent on conveyor belts into furnaces; grease and soap made of the victims. Nothing of it was true. When the Soviets captured Auschwitz in early 1945, they reported that 4 million inmates were killed on electrocution conveyor belts discharging their load directly into furnaces. That wasn't true either. After the war, "witnesses" and "experts" added more claims: mass murder with gas bombs, gas chambers made of canvas; crematoria burning 400 million victims... Again, none of it was true. This book gives an overview of the many rumors and lies about Auschwitz today rejected as untrue, and exposes the ridiculous methods that turned some claims into "history," although they are just as untrue. 125 pp. pb, 6"x9", ill., bibl., index, b&w ill.

Auschwitz: A Judge Looks at the Evidence. By Wilhelm Stäglich. Auschwitz is the epicenter of the Holocaust, where more people are said to have been murdered than anywhere else.

The most important evidence for this claim was presented during two trials: the International Military Tribunal of 1945/46, and the German Auschwitz Trial of 1963-1965. In this book, Wilhelm Stäglich, a former German judge, reveals the incredibly scandalous way in which Allied victors and German courts bent and broke the law in order to come to politically foregone conclusions. Stäglich also exposes the superficial way in which historians are dealing with the many incongruities and discrepancies of the historical record. 3rd edition 2015, 422 pp. pb, 6"x9", b&w ill.

Hilberg's Giant with Feet of Clay. By Jürgen Graf. Raul Hilberg's major work *The Destruction of the European Jews* is generally considered the standard work on the Holocaust. The critical reader might ask: what evidence does Hilberg provide to back his thesis that there was a German plan to exterminate Jews, to be carried out in the legendary gas chambers? And what evidence supports his estimate of 5.1 million Jewish victims? Jürgen Graf applies the methods of critical analysis to Hilberg's evidence, and examines the results in the light of revisionist historiography. The results of Graf's critical analysis are devastating for Hilberg. Graf's analysis is the first comprehensive and systematic examination of the leading spokesperson for the orthodox version of the Jewish fate during the Third Reich. 3rd edition 2022, 182 pp. pb, 6"x9", b&w ill.

Exactitude: Festschrift for Prof. Dr. Robert Faurisson. By R.H. Countess, C. Lindtner, G. Rudolf (eds.) Faurisson probably deserves the title of the most-courageous intellectual of the 20th and the early 21st Century. With bravery and steadfastness, he challenged the dark forces of historical and political fraud with his unrelenting exposure of their lies and hoaxes surrounding the orthodox Holocaust narrative. This book describes and celebrates the man and his work dedicated to accuracy and marked by in-submission. 146 pp. pb, 6"x9", b&w ill.

Auschwitz – Forensically Examined.

By Cyrus Cox. Modern forensic crime-scene investigations can reveal a lot about the Holocaust. There are many big tomes about this. But if you want it all in a nutshell, read this booklet. It condenses the most-important findings of Auschwitz forensics into a quick and easy read. In the first section, the forensic investigations conducted so far are reviewed. In the second section, the most-important results of these studies are summarized. The main arguments focus on two topics. The first centers around the poison allegedly used at Auschwitz for mass murder: Zyklon B. Did it leave any traces in masonry where it was used? Can it be detected to this day? The second topic deals with mass cremations. Did the crematoria of Auschwitz have the claimed huge capacity? Do air photos taken during the war confirm witness statements on huge smoking pyres? This book gives the answers, together with many references to source material and further reading. The third section reports on how the establishment has reacted to these research results. 2nd ed., 128 pp. pb., b&w ill., bibl., index.

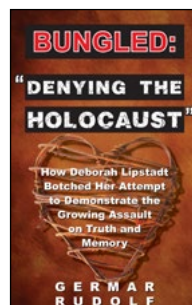

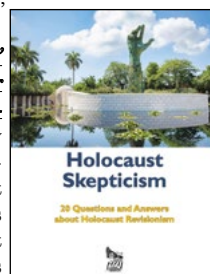

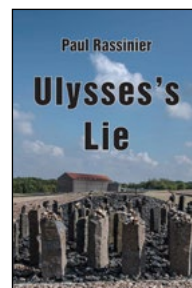

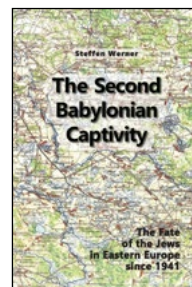

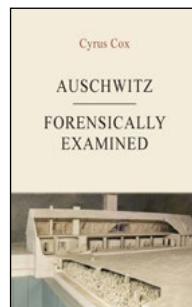

Ulysses's Lie. By Paul Rassinier. Holocaust revisionism began with this book: Frenchman Rassinier, a pacifist and socialist, was sent first to Buchenwald Camp in 1944, then to Dora-Mittelbau. Here he reports from his own experience how the prisoners turned each other's imprisonment into hell without being forced to do so. In the second part, Rassinier analyzes the books of former fellow prisoners, and shows how they lied and distorted in order to hide their complicity. First complete English edition, including Rassinier's prologue, Albert Paraz's preface, and press reviews. 270 pp. 6"×9" pb, bibl, index.

The Second Babylonian Captivity: The Fate of the Jews in Eastern Europe since 1941. By Steffen Werner. "But if they were not murdered, where did the six million deported Jews end up?" This objection demands a well-founded response. While researching an entirely different topic, Werner stumbled upon peculiar demographic data of Belorussia. Years of research subsequently revealed more evidence which eventually allowed him to

propose: The Third Reich did indeed deport many of the Jews of Europe to Eastern Europe in order to settle them there "in the swamp." This book shows what really happened to the Jews deported to the East by the National Socialists, how they have fared since. It provides context for hitherto-obscure historical events and obviates extreme claims such as genocide and gas chambers. With a preface by Germar Rudolf. 190 pp. pb, 6"×9", b&w ill., bibl., index

Holocaust Skepticism: 20 Questions and Answers about Holocaust Revisionism. By Germar Rudolf. This 15-page brochure introduces the novice to the concept of Holocaust revisionism, and answers 20 tough questions, among them: What does Holocaust revisionism claim? Why should I take Holocaust revisionism more seriously than the claim that the earth is flat? How about the testimonies by survivors and confessions by perpetrators? What about the pictures of corpse piles in the camps? Why does it matter how many Jews were killed by the Nazis, since even 1,000 would have been too many? ... Glossy full-color brochure. PDF file free of charge available at www.HolocaustHandbooks.com, Option "Promotion". This item is *not* copyright-protected. Hence, you can do with it whatever you want: download, post, email, print, multiply, hand out, sell... 20 pp., stapled, 8.5"×11", full-color throughout.

Bungled: "Denying the Holocaust" How Deborah Lipstadt Botched Her Attempt to Demonstrate the Growing Assault on Truth and Memory. By Germar Rudolf. With her book *Denying the Holocaust*, Deborah Lipstadt tried to show the flawed methods and extremist motives of "Holocaust deniers." This book demonstrates that Dr. Lipstadt clearly has neither understood the principles of science and scholarship, nor has she any clue about the historical topics she is writing about. She misquotes, mistranslates, misrepresents, misinterprets, and makes a plethora of wild claims without backing them up with anything. Rather than dealing thoroughly with factual arguments, Lipstadt's book is full of *ad hominem* attacks on her opponents. It is an exercise in anti-intellectual pseudo-scientific

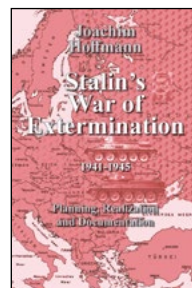

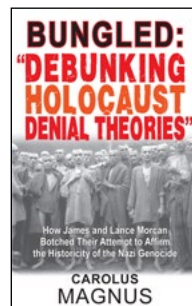

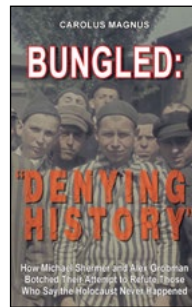

arguments, an exhibition of ideological radicalism that rejects anything which contradicts its preset conclusions. **F for FAIL.** 2nd ed., 224 pp. pb, 6"×9", bibl., index, b&w ill.

Bungled: "Denying History". How Michael Shermer and Alex Grobman Botched Their Attempt to Refute Those Who Say the Holocaust Never Happened. By Carolus Magnus (C. Mattogno). *Skeptic Magazine* editor Michael Shermer and Alex Grobman from the Simon Wiesenthal Center wrote a book claiming to be "a thorough and thoughtful answer to all the claims of the Holocaust deniers." As this book shows, however, Shermer and Grobman completely ignored almost all the "claims" made in the more than 10,000 pages of more-recent cutting-edge revisionist archival and forensic research. Furthermore, they piled up a heap of falsifications, contortions, omissions and fallacious interpretations of the evidence. Finally, what the authors claim to have demolished is not revisionism but a ridiculous parody of it. They ignored the known unreliability of their cherry-picked selection of evidence, utilized unverified and incestuous sources, and obscured the massive body of research and all the evidence that dooms their project to failure. 162 pp. pb, 6"×9", bibl., index, b&w ill.

Bungled: "Debunking Holocaust Denial Theories". How James and Lance Morcan Botched Their Attempt to Affirm the Historicity of the Nazi Genocide. By Carolus Magnus. The novelists and movie-makers James and Lance Morcan have produced a book "to end [Holocaust] denial once and for all" by disproving "the various arguments Holocaust deniers use to try to discredit wartime records." It's a lie. First, the Morcans completely ignored the vast amount of recent scholarly studies published by revisionists; they don't even mention them. Instead, they engage in shadowboxing, creating some imaginary, bogus "revisionist" scarecrow which they then tear to pieces. In addition, their knowledge even of their own side's source material is dismal, and the way they back up their misleading or false claims is pitifully inadequate. 144 pp. pb, 6"×9", bibl., index, b&w ill.

Stalin's War of Extermination 1941-1945. By Joachim Hoffmann. A German government historian documents Stalin's murderous war against the German army and the German people. Based on the author's lifelong study of German and Russian military records, this book reveals the Red Army's grisly record of atrocities against soldiers and civilians, as ordered by Stalin. Since the 1920s, Stalin planned to invade Western Europe to initiate the "World Revolution." He prepared an attack which was unparalleled in history. The Germans noticed Stalin's aggressive intentions, but they underestimated the strength of the Red Army. What unfolded was the cruelest war in history. This book shows how Stalin and his Bolshevik henchman used unimaginable violence and atrocities to break any resistance in the Red Army and to force their unwilling soldiers to fight against the Germans. The book explains how Soviet propagandists incited their soldiers to unlimited hatred against everything German, and he gives the reader a short but extremely unpleasant glimpse into what happened when these Soviet soldiers finally reached German soil in 1945: A gigantic wave of looting, arson, rape, torture, and mass murder... **428 pp. pb, 6"×9", bibl., index, b&w ill.**

Who Started World War II: Truth for a War-Torn World. By Udo Walendy. For seven decades, mainstream historians have insisted that Germany was the main, if not the sole culprit for unleashing World War II in Europe. In the present book this myth is refuted. There is available to the public today a great number of documents on the foreign policies of the Great Powers before September 1939 as well as a wealth of literature in the form of memoirs of the persons directly involved in the decisions that led to the outbreak of World War II. Together, they made possible Walendy's present mosaic-like reconstruction of the events before the outbreak of the war in 1939. This book has been published only after an intensive study of sources, taking the greatest care to minimize speculation and inference. The present edition has been translated completely anew from the German original and has been slightly revised. 500 pp. pb, 6"×9", index, bibl., b&w ill.

The Day Amazon Murdered Free Speech. By Germar Rudolf. Amazon is the world's biggest book retailer. They dominate the U.S. and several foreign markets. Pursuant to the 1998 declaration of Amazon's founder Jeff Bezos to offer "the good, the bad and the ugly," customers once could buy every title that was in print and was legal to sell. However, in early 2017, a series of anonymous bomb threats against Jewish community centers occurred in the U.S., fueling a campaign by Jewish groups to coax Amazon into banning revisionist writings. On March 6, 2017, Amazon caved in and banned more than 100 books with dissenting viewpoints on the Holocaust. In April 2017, an Israeli Jew was arrested for having placed the fake bomb threats. But Amazon kept its new censorship policy: They next culled any literature critical of Jews or Judaism; then they enforced these bans at all its subsidiaries, such as AbeBooks and The Book Depository; then they banned books other pressure groups don't like; finally, they bullied Ingram, who has a book-distribution monopoly in the US, to enforce the same rules by banning from the entire world-wide book market all books Amazon doesn't like... 3rd ed., 158 pp. pb, 6"x9", bibl., color illustrations throughout.

The First Zündel Trial: The Transcript. In the early 1980s, Ernst Zündel, a German living in Toronto, was indicted for allegedly spreading "false news" by selling copies of Harwood's brochure *Did Six Million Really Die?*, which challenged the accuracy of the orthodox Holocaust narrative. When the case went to court in 1985, so-called Holocaust experts and "eyewitnesses" of the alleged homicidal gas chambers at Auschwitz were cross-examined for the first time in history by a competent and skeptical legal team. The results were absolutely devastating for the Holocaust orthodoxy. For decades, these mind-boggling trial transcripts were hidden from public view. Now, for the first time, they have been published in print in this new book – unabridged and unedited. 820 pp. pb, 8.5"x11"

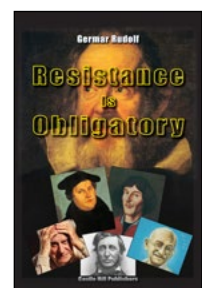

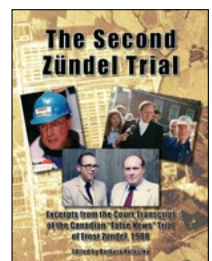

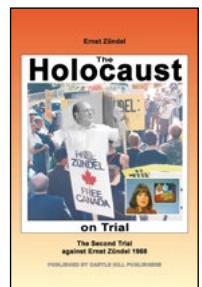

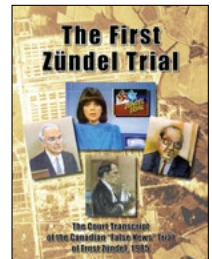

The Holocaust on Trial: The Second Trial against Ernst Zündel 1988. By Ernst Zündel. In 1988, the appeal trial of Ernst Zündel for "knowingly

spreading false news about the Holocaust" took place in Toronto. This book is introduced by a brief autobiographic summary of Zündel's early life, and an overview of the evidence introduced during the First Zündel Trial. This is followed by a detailed summary of the testimonies of all the witnesses who testified during the Second Zündel Trial. This was the most-comprehensive and -competent argument ever fought in a court of law over the Holocaust. The arguments presented have fueled revisionism like no other event before, in particular Fred Leuchter's expert report on the gas chambers of Auschwitz and Majdanek, and the testimony of British historian David Irving. Critically annotated edition with a foreword by Germar Rudolf. 410 pp. pb, 6"x9", index.

The Second Zündel Trial: Excerpts from the Transcript. By Barbara Kulaszka (ed.). In contrast to Ernst Zündel's book *The Holocaust on Trial* (see earlier description), this book focuses entirely on the Second Zündel Trial by exclusively quoting, paraphrasing and summarizing the entire trial transcript... 498 pp. pb, 8.5"x11", bibl., index, b&w ill.

Resistance Is Obligatory! By Germar Rudolf. In 2005, Rudolf, dissident publisher of revisionist literature, was kidnapped by the U.S. government and deported to Germany. There a show trial was staged. Rudolf was not permitted to defend his historical opinions. Yet he defended himself anyway: Rudolf gave a 7-day speech-proving that only the revisionists are scholarly in their approach, whereas the Holocaust orthodoxy is merely pseudo-scientific. He then explained why it is everyone's obligation to resist, without violence, a government which throws peaceful dissidents into dungeons. When Rudolf tried to publish his defence speech as a book, the public prosecutor initiated a new criminal investigation against him. After his probation time ended in 2011, he dared publish this speech anyway... 2nd ed. 2016, 378 pp. pb, 6"x9", b&w ill.

Hunting Germar Rudolf: Essays on a Modern-Day Witch Hunt. By Germar Rudolf. German-born revisionist activist, author and publisher Germar Rudolf describes which events made

him convert from a Holocaust believer to a Holocaust skeptic, quickly rising to a leading personality within the revisionist movement. This in turn unleashed a tsunami of persecution against him: lost his job, denied his PhD exam, destruction of his family, driven into exile, slandered by the mass media, literally hunted, caught, put on a show trial where filing motions to introduce evidence is illegal under the threat of further prosecution, and finally locked up in prison for years for nothing else than his peaceful yet controversial scholarly writings. In several essays, Rudolf takes the reader on a journey through an absurd world of government and societal persecution which most of us could never even fathom actually exists in a “Western democracy”... 304 pp. pb, 6”x9”, bibl., index, b&w ill.

Love: The Pursuit of Happiness. By Germar Rudolf. Rudolf’s autobiography on the sensual and emotional aspects of his life: love, affection, romance and erotica, as well as the lack of it. It tells about his human relationships with parents, siblings, friends and girlfriends, wives and children – and with a little puppy called Daisy; about his trials and tribulations as a lover and husband, and most importantly as a father of five children. This book might assist many readers to understand themselves and to help resolve or avoid relationship conflicts. It is an account filled with both humility and humor. Ca. 230 pp. pb, 6”x9” (to appear in late 2024)

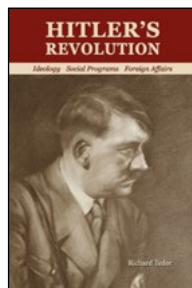

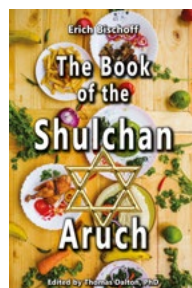

The Book of the Shulchan Aruch. By Erich Bischoff. Most people have heard of the Talmud-that compendium of Jewish laws. The Talmud, however, is vast and largely inscrutable. Fortunately, back in the mid-1500s, a Jewish rabbi created a condensed version of it: the Shulchan Aruch. A fair number of passages in it discuss non-Jews. The laws of Judaism hold Gentiles in very low regard; they can be cheated, lied to, abused, even killed, if it serves Jewish interests. Bischoff, an expert in Jewish religious law, wrote a summary and analysis of this book. He shows us many dark corners of the Jewish religion. 152 pp. pb, 6”x9”.

Hitler’s Revolution: Ideology, Social Programs, Foreign Affairs. By Richard Tedor. Defying all boycotts, Adolf

Hitler transformed Germany from a bankrupt state to the powerhouse of Europe within just four years, thus becoming Germany’s most popular leader ever. How was this possible? This study tears apart the dense web of calumny surrounding this controversial figure. It draws on nearly 200 published German sources, many from the Nazi era, as well as documents from British, U.S., and Soviet archives that describe not only what Hitler did but, more importantly, why he did it. These sources also reveal the true war objectives of the democracies – a taboo subject for orthodox historians – and the resulting world war against Germany. This book is aimed at anyone who feels that something is missing from conventional accounts. 2nd ed., 309 pp. pb, 6”x9”, index, bibl.

Hitler on the Jews. By Thomas Dalton. That Adolf Hitler spoke out against the Jews is beyond obvious. But of the thousands of books and articles written on Hitler, virtually none quotes Hitler’s exact words on the Jews. The reason for this is clear: Those in positions of influence have incentives to present a simplistic picture of Hitler as a blood-thirsty tyrant. However, Hitler’s take on the Jews is far more complex and sophisticated. In this book, for the first time, you can make up your own mind by reading nearly every idea that Hitler put forth about the Jews, in considerable detail and in full context. This is the first book ever to compile his remarks on the Jews. As you will discover, Hitler’s analysis of the Jews, though hostile, is erudite, detailed, and – surprise, surprise – largely aligns with events of recent decades. There are many lessons here for the modern-day world to learn. 200 pp. pb, 6”x9”, index, bibl.

Goebbels on the Jews. By Thomas Dalton. From the age of 26 until his death in 1945, Joseph Goebbels kept a near-daily diary. It gives us a detailed look at the attitudes of one of the highest-ranking men in Nazi Germany. Goebbels shared Hitler’s dislike of the Jews, and likewise wanted them removed from the Reich. Ultimately, Goebbels and others sought to remove the Jews completely from Europe—perhaps to the island of Madagascar. This would be the “final solution” to the Jewish Question. Nowhere in the

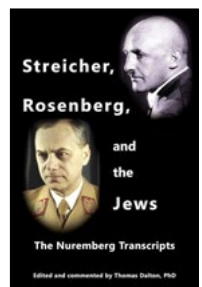

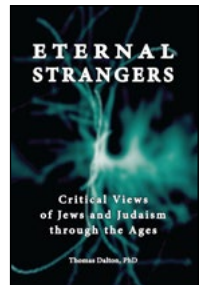

diary does Goebbels discuss any Hitler order to kill the Jews, nor is there any reference to extermination camps, gas chambers, or any methods of systematic mass-murder. Goebbels acknowledges that Jews did indeed die by the thousands; but the range and scope of killings evidently fall far short of the claimed figure of 6 million. This book contains, for the first time, every significant diary entry relating to the Jews or Jewish policy. Also included are partial or full transcripts of 10 major essays by Goebbels on the Jews. 274 pp. pb, 6"x9", index, bibl.

The Jewish Hand in the World Wars. By Thomas Dalton. For many centuries, Jews have had a negative reputation in many countries. The reasons given are plentiful, but less-well-known is their involvement in war. When we examine the causal factors for wars, and look at their primary beneficiaries, we repeatedly find a Jewish presence. Throughout history, Jews have played an exceptionally active role in promoting and inciting wars. With their long-notorious influence in government, we find recurrent instances of Jews promoting hard-line stances, being uncompromising, and actively inciting people to hatred. Jewish misanthropy, rooted in Old Testament mandates, and combined with a ruthless materialism, has led them, time and again, to instigate warfare if it served their larger interests. This fact explains much about the present-day world. In this book, Thomas Dalton examines in detail the Jewish hand in the two world wars. Along the way, he dissects Jewish motives and Jewish strategies for maximizing gain amidst warfare, reaching back centuries. 2nd ed., 231 pp. pb, 6"x9", index, bibl.

Eternal Strangers: Critical Views of Jews and Judaism through the Ages. By Thomas Dalton. It is common

knowledge that Jews have been disliked for centuries. But why? Our best hope for understanding this recurrent 'anti-Semitism' is to study the history: to look at the actual words written by prominent critics of the Jews, in context, and with an eye to any common patterns that might emerge. Such a study reveals strikingly consistent observations: Jews are seen in very negative, yet always similar terms. The persistence of such comments is remarkable and strongly suggests that the cause for such animosity resides in the Jews themselves—in their attitudes, their values, their ethnic traits and their beliefs.. This book addresses the modern-day "Jewish problem" in all its depth—something which is arguably at the root of many of the world's social, political and economic problems. 186 pp. pb, 6"x9", index, bibl.

Streicher, Rosenberg, and the Jews: The Nuremberg Transcripts. By Thomas Dalton. Who, apart from Hitler, contrived the Nazi view on the Jews? And what were these master ideologues thinking? During the post-war International Military Tribunal at Nuremberg, the most-interesting men on trial regarding this question were two with a special connection to the "Jewish Question": Alfred Rosenberg and Julius Streicher. The cases against them, and their personal testimonies, examined for the first time nearly all major aspects of the Holocaust story: the "extermination" thesis, the gas chambers, the gas vans, the shootings in the East, and the "6 million." The truth of the Holocaust has been badly distorted for decades by the powers that be. Here we have the rare opportunity to hear firsthand from two prominent figures in Nazi Germany. Their voices, and their verbatim transcripts from the IMT, lend some much-needed clarity to the situation. 330 pp. pb, 6"x9", index, bibl.
